The Major Latin Poems Of Jacopo Sannazaro:

The Major Latin Poems of Jacopo Sannazaro Jacopo Sannazaro, 1996 This work contains prose translation of the poems of Neo Latin poet Jacopo Sannazaro 1458 1530 whose work provides insights into Renaissance art literature and socio political history The text also examines topics such as his influence on the development of English poetry *Latin Poetry* Jacopo Sannazaro, 2009 Sannazaro 1456 1530 is most famous for having written the first pastoral romance in European literature the *Arcadia* 1504 But after this work he devoted himself entirely to Latin poetry modeled on his beloved Virgil In addition to his epic *The Virgin Birth* 1526 he also composed *Piscatory Eclogues* an adaption of the eclogue form *Poetry and Censorship in Counter-Reformation Italy* Jennifer Helm, 2015-08-25 In *Poetry and Censorship* Jennifer Helm offers insight into motives and strategies of Counter Reformation censorship of poetry in Italy Materials of Roman censorial authorities reveal why the control of poetry and of its reception was crucial to Counter Reformation cultural politics Censorship of poetry should enable the church to influence human inner life that from thought and belief to fantasy and feeling was evolving considerably at that time The control of poetic genres and modes of writing played an important part here Yet to what extent censorship could affect poetic creation emerges from a manuscript of the Venetian poet Domenico Venier The materials suggest the impact of Counter Reformation censorship on poetry began earlier and was more extensive than has yet been propagated **Humanistica Lovaniensia** Gilbert Tournoy, Dirk Sacre, 2001 Volume 50 *Landscape and the Visual Hermeneutics of Place, 1500-1700* Karl A.E. Enenkel, Walter Melion, 2020-12-29 This volume examines the image based methods of interpretation that pictorial and literary landscapists employed between 1500 and 1700 The seventeen essays ask how landscape construed as the description of place in image and or text more than merely inviting close viewing was often seen to call for interpretation or better for the application of a method or principle of interpretation Contributors Boudewijn Bakker William M Barton Stijn Bussels Reindert Falkenburg Margaret Goehring Andrew Hui Sarah McPhee Luke Morgan Shelley Perlove Kathleen P Long Lukas Reddemann Denis Ribouillault Paul J Smith Troy Tower and Michel Weemans

The Reception of Vergil in Renaissance Rome Jeffrey A. Glodzik,2023-01-16 In this work Jeffrey Glodzik argues that Vergil played a central role in the prevailing discourse of Renaissance Rome Roman humanists associated with the papacy employed the language of Vergil to express a vision for Rome and its divinely ordained destiny Using the transformation methodology *allelopoiesis* he shows that in their neo Latin works Roman humanists focused on a Christian interpretation of the fourth eclogue to highlight an incipient Golden Age ignored pessimistic readings of the *Aeneid* to emphasize the glories of a renewed imperium and encapsulated Vergil's words to celebrate papal Rome's unquestionable destiny Ultimately Glodzik demonstrates that the interpretation and application of

Vergil were not uniform throughout Europe Vergil was instead shaped to fit the concerns of papal Rome **Humanistica Lovaniensia**, 2001 **The Iuvenilia of Marc-Antoine Muret** Marc-Antoine Muret, 2006 Marc Antoine Muret 1526-1585 was a major figure in humanist classical scholarship A superb Latinist he influenced among others the Dutch humanist Justus Lipsius This is the first English translation with introduction notes and commentary of Muret's Latin iuvenilia The iuvenilia cover a wide variety of literary genres odes satires epigrams elegies and epistles Modeled on the classical poets Horace Catullus and Martial these poems also reveal an acquaintance with the works of Muret's contemporaries Joachim Du Bellay and Jean Dorat A growing interest in the contributions and perspectives of Renaissance authors who wrote in Latin has created an urgent need for accessible modern editions of their works There is no hope of truly understanding the Renaissance which after all was a revival of ancient learning integrated with an emerging modern world view without taking into account the large body of work produced by neo-Latin authors The Iuvenilia of Marc Antoine Muret helps fill the need for critical editions that provide a general context and interpretation A major neo-Latin poet Muret was thoroughly versed in classical literature mythology rhetoric and philosophy He had inherited centuries of medieval learning and practices both secular and religious Muret incorporated the generic innovations of contemporary humanists while referring to current events and figures In short he summed up in his own person the body of human endeavor and thinking as it stood in his own time Given Muret's importance this lively translation by Kirk M Summers with an introduction notes and commentary will appeal to classicists including those interested in the classical tradition as well as to scholars working on the French and European Renaissance

Urban Poetics in the French Renaissance Elisabeth Hodges, 2016-12-05 The city view forms the jumping off point for this innovative study which explores how the concept of the city relates to the idea of the self in early modern French narratives At a time when print culture cartography and literature emerged and developed together the city view a picture or topographic image of a city became one of the most distinctive and popular products of the early modern period Through a construct she calls urban poetics Elisabeth Hodges draws out the relationship between the city and the self showing the impact of the city in cultural production to be so profound that it cannot be extricated from what we know by the name of subjectivity Each chapter of the book brings focus to a crucial text that features descriptions of the self in the city by the writers Villon Corrozet Scève and Montaigne and investigate how representations of urban experience prepared the way for the emergence of the autonomous subject Charting a course between cartography literary studies and cultural history this study opens new vistas on some of the period's defining problems the book the subject the city **Vittoria Colonna and the Spiritual Poetics of the Italian Reformation** Abigail Brundin, 2016-02-11 Vittoria Colonna was one of the best known and most highly celebrated female poets of the Italian Renaissance Her work went through many editions during her lifetime and she was widely considered by her contemporaries to be highly skilled in the art of constructing tightly controlled and beautifully modulated Petrarchan sonnets In addition to her literary contacts Colonna was also deeply involved with groups

of reformers in Italy before the Council of Trent an involvement which was to have a profound effect on her literary production In this study Abigail Brundin examines the manner in which Colonna's poetry came to fulfil in a groundbreaking and unprecedented way a reformed spiritual imperative disseminating an evangelical message to a wide audience reading vernacular literature and providing a model of spiritual verse which was to be adopted by later poets across the peninsula She shows how through careful management of an appropriate literary persona Colonna's poetry was able to harness the power of print culture to extend its appeal to a much broader audience In so doing this book manages to provide the vital link between the two central facets of Vittoria Colonna's production her poetic evangelism and her careful construction of a gendered identity within the literary culture of her age The first full length study of Vittoria Colonna in English for a century this book will be essential reading for scholars interested in issues of gender literature religious reform or the dynamics of cultural transmission in sixteenth century Italy It also provides an excellent background and contextualisation to anyone wishing to read Colonna's writings or to know more about her role as a mediator between the worlds of courtly Petrarchism and religious reform

Campania in the Flavian Poetic Imagination Antony Augoustakis, R. Joy Littlewood, 2019-01-17 The region of Campania with its fertility and volcanic landscape exercised great influence over the Roman cultural imagination A hub of activity outside the city of Rome the Bay of Naples was a place of otium leisure and quiet repose and literary productivity and yet also a place of danger the looming Vesuvius inspired both fear and awe in the region's inhabitants while the Phlegraean Fields evoked the story of the gigantomachy and sulphurous lakes invited entry to the Underworld For Flavian writers in particular Campania became a locus for literary activity and geographical disaster when in 79 CE the eruption of the volcano annihilated a great expanse of the region burying under a mass of ash and lava the surrounding cities of Pompeii Herculaneum and Stabiae In the aftermath of such tragedy the writers examined in this volume Martial Silius Italicus Statius
