The Making Of Hibernian:

The Making of Hibernian Alan Lugton, 2012-12-13 Covers the period from the club's founding in 1875 to 1893 when the poor Edinburgh Irish emerged as a non sectarian community club This book shows how Hibernian undertook a crusade throughout Scotland spreading the gospel of football leading to the formation of the Glasgow Celtic

The Making of Hibernian Alan Lugton, 1995-09

Emigrant Players Paul Darby, David Hassan, 2013-10-18 Ireland and its inhabitants have often been described as being sports mad As a relatively small geographical entity Ireland north and south has produced a disproportionately high number of world class sports men and women who have excelled at the highest levels of their chosen sport The significance of sport in Ireland though extends far beyond the achievements of such individuals Sport has historically assumed a centrality in the lives of the island's inhabitants a fact that can be measured by the numbers and commitment of participants as well as the emotional and financial investment of fans This book seeks to address the ways in which Irish aptitude and ebullience for sport has manifested itself in those parts of the world that have or have had relatively large Irish communities The first part of the book explores the diffusion of Gaelic games to a number of centres of Irish immigration and examines the social economic political and psychological impact that these games had in helping the Diaspora adjust to life in what were often inhospitable environs The second part of the book extends the analysis by examining the contribution of Irish sports men and women to the sports culture that they encountered in their new homes and assessing the ways in which their involvement in these sports allowed them to come to terms with and make their way in their new locales This book was previously published as a special issue of the journal *Sport in Society*

No Foreign Game James Quinn, 2023-08-03 From its earliest days association football was seen not just as a contest between individuals and teams but also between nations and peoples The Irish national team was among the first in the world to participate in international competition in the early 1880s but not everyone accepted it as a truly national entity Sport in Ireland was disputed ground in a manner that was not the case elsewhere even the term football itself was a contested one But soccer followers generally found no contradiction between their sporting and national loyalties and the game found an important niche in Irish life supported by many leading nationalists from James Connolly to John Hume This book provides a unique window into the history of Ireland and Britain with keen insights into the making of national regional sectarian class and gender identities that crystallised around Irish soccer Taking the story from the 1870s up to the present it examines the domestic as well the international game in Ireland North and South and sets both in a richly detailed historical and cultural context It also examines the experience of Irish communities in England and Scotland and the ways in which the game affected their relationship with their host societies Carefully weaving together political social cultural and sporting history *No Foreign Game* tells a story not just of division and conflict but also one of solidarity and celebration and in doing so it breaks new ground in the history of Irish sport

Face to Face Kausik Bandyopadhyay, 2021-03-30 While rivalry is

embedded in any sporting event or performance soccer the world s most popular mass spectator sport has been an emblem of such rivalries since its inception as an organized sport Some of these rivalries grow to become long term and perennial by their nature extent impact and legacy from the local to the global level They represent identities based on widely diverse affiliations of human life locality region nation continent community class culture religion ethnicity and so on Yet at times such rivalries transcend barriers of space and time where soccer clubs nations personalities organizations styles and fans float and compete with intriguing identities The present volume brings into focus some of the most fascinating and enduring rivalries in the world of soccer It attempts to encapsulate analyse and reconstruct those rivalries between nations between clubs between personalities between styles of play between fandoms and between organizations in a historical perspective in relation to diverse identities competing ideologies contestations of power psychologies of attachment bonds of loyalty notions of enmity articulations of violence and affinities of fan culture some of the core manifestations of sporting rivalry The chapters in this book were originally published as a special issue of Soccer Society Hibernian's Cup Record Bill Wallace,2021-03-29 This is an account of Hibernian s progress in the Scottish Cup the Scottish League Cup and European competitions It is about the team not individuals except outstanding results such as Hearts 3 Joe Baker 4 **The Making of Hibernian: 1914-1946, the romantic years** Alan Lugton,1997-01-01 *Little Ireland* Patricia Delaney Dishon,2025-01-16 Little Ireland tells the story of one family from County Monaghan in Ireland who emigrated to Edinburgh in the early nineteenth century and settled in the Old Town in the Irish ghetto of Little Ireland It is also the story of the Irish diaspora who settled there both before and after the Great Famine whose lives revolved around the church of St Patrick in the Cowgate and it s charismatic priest Canon Edward Hannan who founded Hibernian Football Club It tells of the exiled Irish community s involvement in the politics of their homeland and their fight for Independence for Ireland through their achievement in having the Freedom of Edinburgh awarded to Charles Stewart Parnell It also tells of the part played by Little Ireland born James Connolly one of the executed leaders of the Easter Rising in Dublin which led in time to the formation of the Irish Free State But most of all it tells of the joys and sorrows of one family who emigrated to Edinburgh seeking a new life of their achievements the tragedies that befell them and how some of them were forced into onward emigration to Canada and America The Making of Australian Drama Leslie Rees,1973 **British Sport: Local histories** Richard William Cox,2003 Volume three of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain It lists all secondary source material including reference works in a classified order to meet the needs of the sports historian *Bigotry, Football and Scotland* John Flint,2013-06-14 A multidisciplinary analysis of sectarianism and bigotry in Scottish football Sectarianism and bigotry are among the most publicly debated issues in Scotland often reported in the newspapers as the shame of Scotland s national game The current crisis in Scottish football includes high profile controversies and disorder related to bigotry and sectarianism which resulted

in new legislation to tackle offensive behaviour in and beyond football grounds In this collection contributors from a range of disciplinary positions present the latest empirical research evidence and social theory to examine and debate fundamental issues about bigotry in Scottish football and society The topic has raised many questions How should sectarianism and bigotry be defined and understood What are the experiences and impacts of bigotry on different populations in Scotland Are recent events unique or do they have historic precedents and contemporary comparisons beyond Scotland What should be the response of government football authorities clubs football supporters and other institutions and organisations in Scotland regarding legislation What vision should we have for a future Scottish society and its diverse population Bigotry Football and Scotland will appeal to all those interested in Scotland's national game the role of football in the 21st Century and how multicultural contemporary societies attempt to resolve prejudice and promote diversity

Vain Games of No Value? Terry Morris,2016-03-03 It should be unthinkable to write the social history of Britain from the late nineteenth century onwards without reference to association football Yet by the time that the Football Association celebrated its centenary year in 1963 no serious academic analysis had been undertaken of the sport and of the various channels by which it had developed in different parts of the country By the time that historians began to tackle that task its complexity and diversity were such that it could only be undertaken in installments Studies emerged that focused upon individual clubs and specific regions or which were limited to narrow time scales No work examined the long century from the 1860s to the 1970s in full This book analyses the growth of British football in all its aspectsthe developments of the football crowd the status of the professional player womens football the difficult survival of amateurism to mention but a few It also highlights the factors that contributed to diverse developmental paths in different parts of the country The author has used the widest range of source materials to achieve a broader overview of the games history than has previously been attempted

British Sport - A Bibliography to 2000 Richard Cox,2014-02-04 Volume two of a bibliography documenting all that has been written in the English language on the history of sport and physical education in Britain It lists all secondary source material including reference works in a classified order to meet the needs of the sports historian
