**The Man of Reason** Genevieve Lloyd, 2002-11-01 This new edition of Genevieve Lloyd's classic study of the maleness of reason in philosophy contains a new introduction and bibliographical essay assessing the book's place in the explosion of writing and gender since 1984 *The Man of Reason* Genevieve Lloyd, 1989 *The Oxford Handbook of African American Theology* Katie G. Cannon, Anthony B. Pinn, 2014-07-01 Named an Honor Book for Nonfiction by the Black Caucus of the American Library Association African American theology has a long and important history With modern roots in the civil rights movements of the 1960s African American theology has gone beyond issues of justice and social transformation to participate in broader dialogues of theological inquiry The Oxford Handbook of African American Theology brings together leading scholars in the field to offer a critical and comprehensive analysis of this theological tradition in its many forms and contexts Using an interdisciplinary approach this Oxford Handbook examines the nature structures and functions of African American Theology The volume surveys the field by highlighting its sources doctrines internal debates current challenges and future prospects in order to present key topics related to the wider palette of Black Religion in a sustained scholarly format This formative collection presents current scholarship on African American Theology and scripture eschatology Christology womanist theology sexuality ontology the global economy and much more The contributors represent a diverse set of faith perspectives adding to the layered discourses within the volume These essays further important discussions on the pressing debates and challenges that shape black and womanist theologies **For Fear of the Fire** Françoise Meltzer, 2010-08-15 Why are contemporary secular theorists so frequently drawn to saints martyrs and questions of religion Why has Joan of Arc fascinated some of the most important thinkers of the twentieth century In a book that faces crucial issues in both critical and feminist inquiry Françoise Meltzer uses the story of Joan as a guide for reading the postmodern nostalgia for a body that is intact and transparent She argues that critics who place excessive emphasis on opposition and difference remain blind to their nostalgia for the pre Cartesian idea that the body and mind are the same Engaging a number of theorists and alternating between Joan's historical and cultural context Meltzer also explores the ways in which postmodern thinkers question subjectivity She argues that the way masculine subjects imagine Joan betrays their fear of death and necessitates the role of women as cultural others enigmatic mysterious dark and impossible As such Joan serves as a useful model of the limits and risks of subjectivity For Meltzer she is both the first modern and the last medieval figure From the ecclesial jury that burned her to the theorists of today who deny their attraction to the supernatural the philosophical assumptions that inform Joan's story as Meltzer ultimately shows have changed very little **A Mind Of One's Own** Louise Antony, 2018-03-08 With philosophy so steeped in patriarchal tradition how is it possible for feminists to work within it In this volume 13 feminist theorists discuss whether traditional ideals of objectivity and rationality should be given a place within the committed feminist view of philosophy and the world *'Bethinke Thy Selfe' in Early Modern*

*England* Ulrike Tancke, 2010-01-01 Early modern women writers are typically studied as voices from the margin who engage in a counter discourse to patriarchy and whose identities prefigure postmodern notions of fragmented selfhood Studying a variety of literary forms autobiographical writings diaries mothers advice books poetry and drama this innovative book approaches early modern women s strategies of identity formation from an alternative angle their self writings should be understood as attempts to establish a coherent stable and convincing subjectivity in spite of the constraints they encountered While the authors acknowledge contradiction and ambiguity they consistently strive to compromise and achieve balance Drawing on social and cultural history feminist theory psychoanalysis and the study of discourses the close reading of the women s texts and other literary and non literary sources reveals that the female writers seek to reconcile the affective corporeal social economic and ideological dimensions of their identities and thereby question both the modern idea of the unified self and its postmodern fragmented variant The women s identities as writers mothers spouses household members and economic agents testify to their acceptance of contradictions their adherence to patriarchal norms and simultaneous self assertion Their pragmatic stances suggest that their simultaneous confidence and anxiety should be taken seriously as tentative precarious yet ultimately workable and convincing expressions of identity *Moral Education for Women in the Pastoral and Pythagorean Letters* Annette Huizenga, 2013-03-27 In *Moral Education for Women in the Pastoral and Pythagorean Letters* Philosophers of the Household Annette Bourland Huizenga examines the Greco Roman moral philosophical curriculum for women by comparing these two pseudepigraphic epistolary collections The analysis is organized around four elements textual resources teachers and learners instructional strategies and subject matter Huizenga shows that the author of the Pastorals has adopted nearly all of the pagan aspects of this curriculum but has supplemented these with theological justifications drawn from Pauline literature and traditions The letters attributed to female Pythagoreans have long been suggested as comparanda for the Pastorals but are not well known as sources This volume provides a Greek edition a new English translation and a text history of these letters *International Encyclopedia of Men and Masculinities* Michael Flood, Judith Kegan Gardiner, Bob Pease, Keith Pringle, 2007-08-07 The *International Encyclopedia of Men and Masculinities* offers a comprehensive guide to the current state of scholarship about men masculinities and gender around the world The Encyclopedia s coverage is comprehensive across three dimensions areas of personal and social life academic disciplines and cultural and historical contexts and formations The Encyclopedia examines every area of men s personal and social lives as shaped by gender covers masculinity politics the men s groups and movements that have tried to change men s roles presents entries on working with particular groups of boys or men from male patients to men in prison incorporates cross disciplinary perspectives on and examinations of men gender and gender relations gives comprehensive coverage of diverse cultural and historical formations of masculinity and the bodies of scholarship that have documented them The *Encyclopedia of Men and Masculinities* is composed of over 350 free standing entries written from their individual

perspectives by eminent scholars in their fields Entries are organized alphabetically for general ease of access but also listed thematically at the front of the encyclopedia for the convenience of readers with specific areas of interest

**Rights, Duties and the Body** Rosamund Scott, 2002-08-05 If a pregnant woman refuses medical treatment needed by the fetus for instance for religious reasons or conducts some aspect of her life in a way which risks fetal harm there may arise an instance of maternal fetal conflict This is an unfortunate term since pregnant women are generally renowned for their self sacrificing behaviour but it may well reflect the reality of certain maternal choices and actions Should a pregnant woman have the legal right to refuse medical treatment needed by the fetus or should she owe it a legal duty of care which precludes her acting in ways which may harm it Does the debate hinge simply upon the appropriateness or otherwise of legally compelling presumed moral obligations or is it more complex than this Indeed what are a pregnant woman's moral obligations towards her fetus In England and in some US states courts have held that a pregnant woman has the right to refuse medical treatment needed by the fetus In similar fashion the idea of a general maternal legal duty of care toward the fetus has been rejected most recently in Canada The cases however leave the impression of an uncomfortable split between the ethics and the law as if the problem were entirely one of not legally enforcing presumed moral duties The effect is both puzzling and polarising puzzling in that the cases leave unanswered as largely they must the huge question of a pregnant woman's moral rights and duties polarising in that the cases leave troubling tensions about a pregnant woman's rights in the face of fetal harm or death The tendency is to deny these by ever more strongly asserting a woman's rights In turn this encourages a reaction in favour of fetal rights one which is unlikely to attend to a woman's interests and difficulties in pregnancy This could have serious legal repercussions for various instances of maternal fetal conflict including in those US states or other jurisdictions which have yet to address these issues It might also increase the pressures on the issue of abortion This book which seeks a way between these polarised positions tries to explain and justify a woman's moral and legal rights in pregnancy and at the same time to explore the extent of her moral duties toward the fetus The aim is to resolve as far as possible the ethical legal and social tensions which undoubtedly surround this area Innovatively in work on this issue and unusually in the field of medical law and ethics the author adopts a joint philosophical and legal approach directed to issues both of principle and policy revealing strong conceptual links between the ethics and the law In addition to an ethical exploration of the maternal fetal relationship the author explores and analyses the relevant English American Canadian and sometimes Australian arguments from the law of treatment refusal abortion tort and rescue as well as relevant jurisprudence from the European Court of Human Rights This important book breaks new ground and will be of great interest to academics in law and philosophy lawyers health professionals policy makers and students of medical law and ethics It is rare to find a book which so skilfully combines legal and moral analysis of a controversial medical issue Rosamund Scott has produced what is undoubtedly one of the finest pieces of medico legal writing of recent years This is a clever human and immensely readable work Alexander McCall Smith

Professor of Medical Law University of Edinburgh This book concerns one of the most personally agonizing and morally complex issues in medical ethics It is a work of great philosophical sophistication combining breadth of vision with acute sensitivity to the nuances of women s experiences It will soon become the standard work in philosophical legal and political debate on maternal fetal conflicts Roger Crisp Uehiro Fellow and Tutor in Philosophy St Anne s College Oxford *The Oxford Handbook of Epistemology* Paul K. Moser, 2002 This reference work discusses one of the core topics of philosophy the theory of knowledge Connecting to virtually every other subfield epistemology is central to mainstream philosophy This book explains the ideas and problems of the field while avoiding overly technical detail Contextualizing Gender in Early Christian Discourse Caroline Vander Stichele, Todd Penner, 2009-06-30 In this book Vander Stichele and Penner introduce their own gender critical approach to the New Testament and other early Christian writings Building on feminist and post colonial insights they explore the importance of gender in both text and context and discuss the diverse issues involved in interpretation as they relate to gender sex and sexuality The authors also set out their methodology and highlight the various hermeneutical issues involved such as the complexity of gendered and sexed identities in antiquity and the gap that exists between modern and ancient conceptions thereof They further illustrate their gender critical approach with concrete examples from the Acts of the Apostles the letters of Paul and the Acts of Paul and Thecla in order to demonstrate how a gender critical approach works in practice As such this book is unique in terms of its range as well as in the explicit methodological focus that is fostered throughout **Feminist Perspectives on Jewish Studies** Shelly Tenenbaum, 1994-01-01 This work evaluates the development of feminist scholarship within Jewish studies Scholars in biblical studies rabbinics theology history anthropology philosophy and film studies assess the state of knowledge about women in these fields and how they have affected the mainstream **Christian Doctrine and the Grammar of Difference** Janice McRandal, 2015-02-01 McRandal argues that the doctrinal narrative of creation fall and redemption provides resources to resolve the theological impasse of difference in contemporary feminist theology The divine economy reveals a God who enters into history and destabilizes fixed binaries and oppressive categories As created subjects we are sustained affirmed and drawn back into the Triune life patterns present in liturgy prayer and practices of contemplation The grammar of Christian faith cannot ultimately be uncovered except in prayer opened beyond itself to a source of life and giving **Encyclopedia of Feminist Theories** Lorraine Code, 2002-06-01 The path breaking Encyclopedia of Feminist Theories is an accessible multidisciplinary insight into the complex field of feminist thought The Encyclopedia contains over 500 authoritative entries commissioned from an international team of contributors and includes clear concise and provocative explanations of key themes and ideas Each entry contains cross references and a bibliographic guide to further reading over 50 biographical entries provide readers with a sense of how the theories they encounter have developed out of the lives and situations of their authors *Gender Thinking* Stephen Smith, 2010-04-30 The first comprehensive philosophical exploration

of the concept of gender      **Gender, Society and Print Culture in Late-Stuart England** Helen Berry, 2017-03-02

Focusing on a largely unknown type of popular print culture that developed in the late 1600s the coffee house periodical Helen Berry here offers new evidence that the politics of gender far from being a marginal or frivolous topic was an issue of general interest and wide spread concern to the early modern reader Berry's study provides the first full length analysis of John Dunton's Athenian Mercury 1691-97 an influential specimen of the coffee house periodical genre as well as the original question and answer publication which addressed both men's and women's issues in one journal As the chapter headings in this book indicate the topics addressed in the agony column of the Athenian Mercury for example the body courtship and sex are of enduring interest across the centuries Berry's study of this periodical provides new insights into the gendered ideas and debates that circulated among middling sorts in early modern England An historical survey of the social effects of mass communication in the early modern period this volume makes an important contribution to the ongoing study of how gendered ideas and values were communicated culturally particularly beyond the milieu of elite groups such as the nobility and gentry It argues that the mass media was from its infancy an important means of communicating powerful messages about gender norms particularly among the middling sorts The study will appeal not only to historians women and gender studies scholars and literature scholars but also to scholars of publishing history      *Literature and the Political Imagination*

Andrea T. Baumeister, John Horton, 2013-04-15 This volume shows how modern political theory can be enriched through an engagement with works of literature It uses the resources of literature to explore issues such as nationalism liberal philosophy utopianism narrative and the role of theory in political thought A variety of approaches are adopted and the aim is to show some of the many and diverse ways in which literature may enrich political theorising as well as considering some of the problems to which this may give rise The theorists discussed include Richard Rorty Alasdair MacIntyre Charles Taylor and Martha Nussbaum There are literary references from Greek tragedy Jonathan Swift Brian Moore Elizabeth Bowen and contemporary feminist utopian fiction All the contributors have a long standing interest in the relations between literature and moral and political thought They are concerned not to be restricted by conventional academic boundaries and are not united by any party line or uniformity of intellectual commitments This volume will be of great interest to all students engaged in the study of politics and literature

**Governing Masculinities in the Early Modern Period** Jacqueline Van Gent, 2016-04-22 Documenting lived experiences of men in charge of others this collection creates a social and cultural history of early modern governing masculinities It examines the tensions between normative discourses and lived experiences and their manifestations in a range of different sources and explores the insecurities anxieties and instability of masculine governance and the ways in which these were expressed or controlled in emotional states language or performance Focussing on moments of exercising power the collection seeks to understand the methods strategies discourses or resources that men were able or not to employ in order to have this power In order to elucidate the

mechanisms of male governance the essays explore the following questions how was male governance demonstrated and enacted through men s and women s bodies What roles did women play in sustaining supporting or undermining governing masculinities And what are the relationship of specific spaces such as household or urban environments to notions and practice of governance Finally the collection emphasises the power of sources to articulate the ideas of governance held by particular social groups and to obscure those of others Through a rich and wide range of case studies the collection explores what distinctions can be seen in ideas of authoritative masculine behaviour across Protestant and Catholic cultures British and Continental models from the late medieval to the end of the eighteenth century and between urban and national expressions of authority

**In Iberia and Beyond** Bernard Dov Cooperman,1998 This collection of articles is an attempt to get at the complexities of Sephardic history by bringing together scholars who approach the topic from quite different points of view and quite different methodologies It includes twelve essays selected from those presented at a conference at the University of Maryland to mark the 500th anniversary of the expulsion of Jews from Spain The papers range chronologically from the eleventh to seventeenth centuries and geographically from Spain to Italy and the Low Countries BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

**Beyond Economic Man** Marianne A. Ferber,Julie A. Nelson,2009-04-01 This is the first book to examine the central tenets of economics from a feminist point of view In these original essays the authors suggest that the discipline of economics could be improved by freeing itself from masculine biases Beyond Economic Man raises questions about the discipline not because economics is too objective but because it is not objective enough The contributors nine economists a sociologist and a philosopher discuss the extent to which gender has influenced both the range of subjects economists have studied and the way in which scholars have conducted their studies They investigate for example how masculine concerns underlie economists concentration on market as opposed to household activities and their emphasis on individual choice to the exclusion of social constraints on choice This focus on masculine interests the contributors contend has biased the definition and boundaries of the discipline its central assumptions and its preferred rhetoric and methods However the aim of this book is not to reject current economic practices but to broaden them permitting a fuller understanding of economic phenomena These essays examine current economic practices in the light of a feminist understanding of gender differences as socially constructed rather than based on essential male and female characteristics The authors use this concept of gender along with feminist readings of rhetoric and the history of science as well as postmodernist theory and personal experience as economists to analyze the boundaries assumptions and methods of neoclassical socialist and institutionalist economics The contributors are Rebecca M Blank Paula England Marianne A Ferber Nancy Folbre Ann L Jennings Helen E Longino Donald N McCloskey Julie A Nelson Robert M Solow Diana Strassmann and Rhonda M Williams
