## **The Many Shades Of Shirk:**

**The Many Shades of Shirk** Kalim Kashmiri, 1988      **the last ten days** sheikh m.m-sawwaf,      *Shari'a and the Constitution in Contemporary Legal Models* Federico Lorenzo Ramaioli, 2024-03-23 This comparative law book aims at formulating a new analytical approach to constitutional comparisons assuming as a starting point the different legal perspectives implied in the Sunni Islamic outlook on the juridical phenomena and the Western concept of law with particular reference to constitutionalism The volume adopts a wider and comprehensive viewpoint comparing the different ways in which the Islamic shar'a and Western legal categories interact regardless of substantive contents of specific provisions thus avoiding conceptual biases that can sometime affect present literature on the matter The book explores the various dynamics subtended to the interactions between shar'a and Western constitutionalism providing a new classification to the different contemporary models The philosophical and legal comparisons are analyzed in a dynamic way based on a wide range of contemporary constitutional systems virtually encompassing all the States in which Sunni Islam plays a major cultural role and taking also into consideration non State actors and non recognized actors Published in cooperation with gLAWcal Global Law Initiatives for Sustainable Development Hornchurch Essex United Kingdom      *Terrorist Recruitment, Propaganda and Branding* Anna Kruglova, 2022-08-05 This book analyses the marketing techniques that terrorist organisations employ to encourage people to adopt their ideology and become devoted supporters The book's central thesis is that due to the development of digital technologies and social media terrorist groups are employing innovative marketing techniques and advertising strategies to foster an emotional connection with their audiences particularly those in younger demographics By conducting thematic and narrative analyses of Islamic State of Iraq and Syria ISIS propagandist magazines as well as looking at the group's online communities the book demonstrates that terrorist groups behave as commercial brands by establishing an emotional connection with their potential recruits Specifically groups and their potential supporters follow the logic of emotional choice The book emphasizes that while ISIS became the first group that discovered and benefited from the power of marketing it did not have a supernatural power and thus it is possible to find a response to it which is particularly important now The book eventually poses a question about whether terrorism has become the product of marketing in the same way as any mainstream consumer product is and asks what can we do to battle the appeal of marketing savvy terrorist groups This book will be of interest to students of terrorism studies radicalisation and propaganda communication and security studies      **Nuh (Noah) and the Great Flood** Ali Mohammad Al-Sallabi, 2023-01-01      *Islamic State as a Legal Order* Federico Lorenzo Ramaioli, 2022-04-04 This book explores the legal dimension of the Islamic State an aspect which has hitherto been neglected in the literature ISIS dystopian experience intended as a short lived territorial and political governance has been analyzed from multiple points of view including the geopolitical social and religious ones However its legal dimension has never been properly dealt with in a comprehensive way assuming as a point of reference both the Islamic

and the Western legal tradition This book analyzes ISIS as the expression of a potential though never fully realized legal order The book does not describe ISIS possible classifications according to the standards and the criteria of international law such as its possible statehood or proto statehood issues that are however touched upon Rather it analyzes ISIS own legal awareness based on the group s literary materials which show a considerable amount of juridical work Such material mainly propagandistic in its nature is essential in understanding which kind of legal order ISIS aimed at establishing The book will be of interest to students and academics in the fields of Law International Relations Political Sciences Terrorism Studies Religion and Middle Eastern Studies *Index of Islamic Literature* ,1989 *The Muslim World Book Review* ,1988

**Contesting the Theological Foundations of Islamism and Violent Extremism** Fethi Mansouri,Zuleyha Keskin,2018-12-29 This edited volume discusses critically discursive claims about the theological foundations connecting Islam to certain manifestations of violent extremism Such claims and associated debates become even more polarizing when images of violent acts of terrorism performed in the name of Islam circulate in the global media The authors argue that the visibility of such mediated violent extremism in particular since the emergence of ISIS has created a major political and security challenge not only to the world but also to the global Muslim community This is particularly true in relation to the way Islam is being understood and characterized in the modern world Existing studies on radicalization generally deal with causes and strategies to address violent extremism The book will appeal to scholars researchers and students in political science Middle Eastern and Islamic Studies *Meeting Of Two Seas* Saeed Malik,2016-02-25 A thorough examination of Chapter 18 of the Quran exemplifies allegorical interpretation and reconciles common dichotomies like heart and mind science and religion Eye opening in terms of the parity between the Abrahamic faiths this fine model of scriptural analysis merits study by mystics of any faith Kirkus Reviews *The Deoband Madrassah Movement* Muhammad Moj,2015-03 This innovative book analyses the growth of Deobandi Islam a religious sect whose followers include extremist groups through the frame of a counterculture in conflict with mainstream Muslim society Due to its relationship with the Taliban close links to al Qaeda and worldwide reach through the Tablighi Jamaat Proselytization Group the Deoband Madrassah Movement has come to acquire global significance In Pakistan Deobandi schools have increasingly been associated with the rise of an intolerant and militant strain of Islam linked with terrorist activities **Munsey's Magazine for ...** ,1922 **Image Testimonies** Kerstin Schankweiler,Verena Straub,Tobias Wendl,2018-12-17 Recent political conflicts signal an increased proliferation of image testimonies shared widely via social media Although witnessing with and through images is not a phenomenon of the internet era contemporary digital image practices and politics have significantly intensified the affective economies of image testimonies This volume traces the contours of these conditions and develops a conception of image testimony along four areas of focus The first and second section of this volume reflects the discussion of image testimonies as an interplay of evidential qualities and their potential to express affective relationalities and emotional involvement The third section focuses

on the question of how social media technologies shape and subsequently are shaped by image testimonies To further complicate the ethical position of the witness the final section looks at image testimony at the intersection of creation and destruction taking into account the perspectives of different actors and their opposed moral positions With an emphasis on the affectivity of these images Image Testimonies provides new and so far overlooked insights in the field It will appeal to students and researchers interested in fields such as Sociology and Social Policy Media and Communications Visual Arts and Culture and Middle East Studies
