United States. Congress. Senate. Committee on the Judiciary, 1965 Topologies of the Classical World in Children's Fiction Claudia Nelson, Anne Morey, 2019-10-24 Beginning with Rudyard Kipling and Edith Nesbit and concluding with best selling series still ongoing at the time of writing this volume examines works of twentieth and twenty first century children's literature that incorporate character types settings and narratives derived from the Greco Roman past Drawing on a cognitive poetics approach to reception studies it argues that authors typically employ a limited and powerful set of spatial metaphors palimpsest map and fractal to organize the classical past for preteen and adolescent readers Palimpsest texts see the past as a collection of strata in which each new era forms a layer superimposed upon a foundation laid earlier map texts use the metaphor of the mappable journey to represent a protagonist's process of maturing while gaining knowledge of the self and or the world fractal texts in which small parts of the narrative are thematically identical to the whole present the past in a way that implies that history is infinitely repeatable While a given text may embrace multiple metaphors in presenting the past associations between dominant metaphors genre and outlook emerge from the case studies examined in each chapter revealing remarkable thematic continuities in how the past is represented and how agency is attributed to

Roberts,2018-03-16 The dissemination of classical material to children has long been a major form of popularization with far reaching effects although until very recently it has received almost no attention within the growing field of classical reception studies This volume explores the ways in which children encountered the world of ancient Greece and Rome in Britain and the United States over a century long period beginning in the 1850s as well as adults literary responses to their own childhood encounters with antiquity Rather than discussing the role of classics in education it focuses on books read for enjoyment and on two genres of children s literature in particular the myth collection and the historical novel The tradition of myths retold as children s stories is traced in the work of writers and illustrators from Nathaniel Hawthorne and Charles Kingsley to Roger Lancelyn Green and Ingri and Edgar Parin D Aulaire while the discussion of historical fiction focuses particularly on the roles of nationality and gender in the construction of an ancient world for modern children The book concludes with an investigation of the connections between childhood and antiquity made by writers for adults including James Joyce Virginia Woolf and H D Recognition of the fundamental role in children s literature of adults ideas about what children want or need is balanced throughout by attention to the ways in which child readers have made such works their own The formative experiences of antiquity discussed throughout help to explain why despite growing uncertainty about the appeal of antiquity to modern children the classical past remains perennially interesting and inspiring

Remaking the Classics Christopher Stray,Lorna Hardwick,Amanda Wrigley,Deborah Roberts,Elizabeth Vandiver,Leanne Hunnings,Ruth Hazel,Sheila Murnaghan,Stephen Harrison,2013-10-16 This important collection of essays

both contributes to the expanding field of classical reception studies and seeks to extend it Focusing on nineteenth and twentieth century Britain it looks at a range of different genres epic novel lyric tragedy political pamphlet Within the published texts considered the usual range of genres dealt with elsewhere is extended by chapters on books for children and those in which childhood and memories of childhood are informed by antiquity and also by a multi genre case study of a highly unusual subject Spartacus Remaking the Classics also goes beyond books to dramatic performance and beyond the theatre to radio a medium of enormous power and influence from the 1920s to the 1960s whose role in the reception of classics is largely unexplored The variety of genres and of media considered in the book is balanced both by the focus on Britain in a specific time period and by an overlap of subject matter between chapters the three chapters on twentieth century drama for example range from performance strategies to post colonial contexts The book thus combines the consolidation of a field with an attempt to push it in new and exciting directions **Recreating the Past** Lynda G.
