Black and White Music Casian Anton, 2021-08-21. In *Black*, more precisely, I investigated the contribution and the artistic merit, greater or lesser, of black artists (0.03%) and white artists (0.05%) in the production and writing of their albums. The artists investigated in this report are Taylor Swift, Kanye West, Beyoncé, Kendrick Lamar, and Macklemore. To achieve this aim, I added contribution and artistic merit into one bubble of research and treated the two concepts with the same meaning. Then I divided the bubble into 8 points of research. The second level is about using the findings from the eight points of research to offer a response to three conventional wisdoms advanced by black artists and their supporters against the rules and awards offered by The Recording Academy. *Black* in these pages is an advanced comparative analysis of the music released by famous artists that was never done before. *Black* also is for future artists waiting to be discovered and what they need to expect once they are part of the music industry. Second Edition, July 2023.
