Living Politics, Making Music Jan Fairley, edited by Simon Frith, Ian Christie, 2016-05-13 The late Jan Fairley 1949-2012 was a key figure in making world music a significant topic for popular music studies and an influential contributor to such world music magazines as fRoots and Songlines This book celebrates her contribution to popular music scholarship by gathering her most important work together in a single place The result is a richly informed and entertaining volume that will be of interest to all scholars in the field while also serving as an excellent introduction for students interested in popular music as a global phenomenon Fairley's work was focused on the problems and possibilities of cross cultural musical influences fantasies and flows and on the importance of performing circuits and networks Her interest in the details of music making and in the lives of music makers means that this collection is also an original and illuminating study of music and politics In drawing on Jan Fairley's journalism this volume also offers students a guide to various genres of world music from Cuban son to flamenco as well as an insight into the lives of such world music stars as Mercedes Sosa and Silvio Rodríguez This is inspiring as well as essential reading

Songs for Dead Parents Erik Mueggler, 2017-12-02 In a society that has seen epochal change over a few generations what remains to hold people together and offer them a sense of continuity and meaning In Songs for Dead Parents Erik Mueggler shows how in contemporary China death and the practices surrounding it have become central to maintaining a connection with the world of ancestors ghosts and spirits that socialism explicitly disavowed Drawing on more than twenty years of fieldwork in a mountain community in Yunnan Province Songs for Dead Parents shows how people view the dead as both material and immaterial as effigies replace corpses tombstones replace effigies and texts eventually replace tombstones in a long process of disentangling the dead from the shared world of matter and memory It is through these processes that people envision the cosmological underpinnings of the world and assess the social relations that make up their community Thus state interventions aimed at reforming death practices have been deeply consequential and Mueggler traces the transformations they have wrought and their lasting effects
