Sons Of Chong:

Ten States, Five Dynasties, One Great Emperor Hung Hing Ming, 2014-08-01 Drawn from Chinese classics of history Hung Hing Ming's biographies introduce China's most emblematic historical figures and the cultural attributes fostered by China's ancient chronicles This book is about one of the greatest emperors in Chinese history Zhao Kuang Yin founder of the Song Dynasty 960-1279 He is honored for having unified China in the extremely chaotic period of Five Dynasties and Ten States This enjoyable book introduces more of China's heroes and villains highlighting a modest man yet a great emperor who brought peace and stability to the realm and saved the people from great suffering Interwoven into the narrative of battles fought and alliances forged or flouted we find examples of good leadership and bad hot-headed fighters and disciplined warriors and lessons on how to assess and win people's loyalty **Chǒng Yagyong** Mark Setton, 1997-01-01 Describes the historical background and philosophy of the reform-minded eighteenth-century Korean thinker Chong Yagyong *Korean Culture*, 1982 *The History of Korea* Homer Bezael Hulbert, 1905 *A New Middle Kingdom* J. P. Park, 2018-10-09 Historians have claimed that when social stability returned to Korea after devastating invasions by the Japanese and Manchus around the turn of the seventeenth century the late Chosŏn dynasty was a period of unprecedented economic and cultural renaissance in which prosperity manifested itself in new programs and styles of visual art A New Middle Kingdom questions this belief claiming instead that true view landscape and genre paintings were likely adopted to propagandize social harmony under Chosŏn rule and to justify the status wealth and land grabs of the ruling class This book also documents the popularity of art books from China and their misunderstanding by Koreans and most controversially Korean enthusiasm for artistic programs from Edo Japan thus challenging academic stereotypes and nationalistic tendencies in the scholarship about the Chosŏn period As the first truly interdisciplinary study of Korean art A New Middle Kingdom points to realities of late Chosŏn society that its visual art seemed to hide and deny A William Sangki and Nanhee Min Hahn Book *The Chinese in Mexico, 1882-1940* Robert Chao Romero, 2011-06-29 An estimated 60,000 Chinese entered Mexico during the late nineteenth and early twentieth centuries constituting Mexico's second largest foreign ethnic community at the time The Chinese in Mexico provides a social history of Chinese immigration to and settlement in Mexico in the context of the global Chinese diaspora of the era Robert Romero argues that Chinese immigrants turned to Mexico as a new land of economic opportunity after the passage of the U.S. Chinese Exclusion Act of 1882 As a consequence of this legislation Romero claims Chinese immigrants journeyed to Mexico in order to gain illicit entry into the United States and in search of employment opportunities within Mexico's developing economy Romero details the development after 1882 of the Chinese transnational commercial orbit a network encompassing China Latin America Canada and the Caribbean shaped and traveled by entrepreneurial Chinese pursuing commercial opportunities in human smuggling labor contracting wholesale merchandising and small-scale trade Romero's study is based on a wide array of Mexican and U.S. archival sources It draws

from such quantitative and qualitative sources as oral histories census records consular reports INS interviews and legal documents Two sources used for the first time in this kind of study provide a comprehensive sociological and historical window into the lives of Chinese immigrants in Mexico during these years the Chinese Exclusion Act case files of the U S Immigration and Naturalization Service and the 1930 Mexican municipal census manuscripts From these documents Romero crafts a vividly personal and compelling story of individual lives caught in an extensive network of early transnationalism

Under the Ancestors' Eyes Martina Deuchler, 2020-05-11 Under the Ancestors Eyes presents a new approach to Korean social history by focusing on the origin and development of the indigenous descent group Martina Deuchler maintains that the surprising continuity of the descent group model gave the ruling elite cohesion and stability and enabled it to retain power from the early Silla fifth century to the late nineteenth century This argument underpinned by a fresh interpretation of the late fourteenth century Koryŏ Chosŏn transition illuminates the role of Neo Confucianism as an ideological and political device through which the elite regained and maintained dominance during the Chosŏn period Neo Confucianism as espoused in Korea did not level the social hierarchy but instead tended to sustain the status system In the late Chosŏn it also provided ritual models for the lineage building with which local elites sustained their preeminence vis vis an intrusive state Though Neo Confucianism has often been blamed for the rigidity of late Chosŏn society it was actually the enduring native kinship ideology that preserved the strict social status system By utilizing historical and social anthropological methodology and analyzing a wealth of diverse materials Deuchler highlights Korea's distinctive elevation of the social over the political
