Complete Journals Ellen Brown, 2013-05-08 In this serial work of religious historical fiction Magda a fallen woman from Berlin turned maidservant in the house of Søren Kierkegaard seeks the full life that has thus far eluded her Two journals set in the summer of 1847 record Magda's responses to the Luther Bible Goethe's Faust and her elusive yet compelling master who is simultaneously crafting his Works of Love Three journals set in the fall winter and people's spring of 1847 and 1848 reflect Magda's ongoing engagement with secular and sacred writings her sporadic yet intimate interactions with her master the precariousness of her position in his household and the rapidly changing social landscape at the same time as Kierkegaard begins revises or completes several of his most existential and prophetic works A sixth journal set in the summer of 1848 reveals Magda's final disposition Is she judged or is she saved **Søren Kierkegaard's Journals and Papers, Volume 1**

Søren Kierkegaard, Gregor Malantschuk, 1967-03-22 I can be understood only after my death Kierkegaard noted prophetically the fulfillment of this expectation for the English speaking world a century and a quarter later is signified by the English translation in authoritative editions of all his works by the indefatigable Howard and Edna Hong The importance of the *Papirer* was emphasized by Kierkegaard himself The essentially religious interpretation he gave to his mission in life and his personal relationships is now documented clearly and exhaustively Obviously these editions are essential for academic and large general collections Library Journal From this point on anyone interested in tracking down a Kierkegaardian theme will have to consult the Hong presentation as well as the books of Kierkegaard Annual Review of Philosophy The translations are entirely excellent One envies the Hong's their capacity in language the breadth of their reading in Kierkegaard and his sources and the dedication they brought to this Herculean task The assistance of Gregor Malantschuk has contributed materially to the notes which serve as trenchant summaries of Kierkegaard's thought on the topics This is indeed a monumental work Review of Metaphysics an astonishing labor of editing and translating International Studies in Philosophy Howard and Edna Hong have brought to the task solid scholarship linguistic competence an imaginative and useful arrangement of the material and a scrupulous self effacement before the work No one could ask for more Citation of the Judges at the National Book Awards We must be grateful to the Hong's for their enormous labor Kierkegaard's Journals and Papers are worth having for angry days or inward days especially when they have been translated in as lively and sensitive a manner as are the texts in this first volume Nation The incidental writings of Søren Kierkegaard published in the twenty volume Danish edition of the *Papirer* provide direct access to the thought of the many faceted nineteenth century philosopher who exerted so profound an influence on Protestant theology and modern existentialism This important material which Danish scholars regard as the key to the scriptures of Kierkegaard's other work spans his entire productive life the last entry of the *Papirer* being dated only a few days before his death These writings have been previously inaccessible in English except for a few fragmentary selections the most significant writings are now being made available in this definitive seven volume edition under the editorship of two expert scholars and translators Kierkegaard's scattered writings fall into three

main subject groupings journal entries of varied content notes and early versions of his published material and personal reactions to his reading and study In length and degree of polish they range from brief and cryptic notes to extensive lecture material finished travel sketches and extended philosophical speculation The translators provide annotations copious notes and a collation of entries with the Danish Papirer The editors group the selections in Volumes I through IV by theme with all entries on a given subject under the same heading Within subject headings entries are arranged chronologically making it feasible to trace the evolution of Kierkegaard's thought on a specific topic Volumes V and VI are devoted to autobiographical material Volume VII contains an extensive index with topical crossreferences Kierkegaard's Journals and Notebooks, Volume 11, Part 1 Søren Kierkegaard, 2019-11-26 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced Volume 11 Part 1 and Volume 11 Part 2 present an exciting enlightening and enormously varied treasure trove of papers that were found carefully sorted and stored by Kierkegaard himself in his apartment after his death These papers many of which have never before been published in English provide a window into many different aspects of Kierkegaard's life and creativity Volume 11 Part 1 includes items from his earliest formative years through his extensive studies at the university and up to the publication of Either/Or These materials include Kierkegaard's studies in biblical exegesis his reading of theologians such as Schleiermacher and Baader his concern with aesthetic matters including a lengthy consideration of the Faust legend his first trial sermon delivered at the Pastoral Seminary his views on the burgeoning field of political journalism in the 1830s and a group of papers he titled The First Rudiments of Either/Or The Green Book Some Particulars that were not Used **Søren**

Kierkegaard's Journals and Papers Søren Kierkegaard, 1967

Philosopher of the Heart Clare Carlisle, 2025-10-16

Philosopher of the Heart is the groundbreaking biography of renowned existentialist Søren Kierkegaard's life and creativity and a searching exploration of how to be a human being in the world. Søren Kierkegaard is one of the most passionate and challenging of all modern philosophers and is often regarded as the founder of existentialism. Over about a decade in the 1840s and 1850s, writings poured from his pen pursuing the question of existence: how to be a human being in the world while exploring the possibilities of Christianity and confronting the failures of its institutional manifestation around him. Much of his creativity sprang from his relationship with the young woman whom he promised to marry, then left to devote himself to writing a relationship which remained decisive for the rest of his life. He deliberately lived in the swim of human life in Copenhagen but alone and died exhausted in 1855 at the age of 42, bequeathing his remarkable writings to his erstwhile fiancée. Clare Carlisle's innovative and moving biography writes Kierkegaard's life as far as possible from his own perspective to convey what it was like actually being this Socrates of Christendom as he put it: living life forwards yet only understanding it backwards.
