Sorry Meniscus:

Maul Tricia Sullivan, 2013-10-31 The gun straps to the inside of my leg with Velcro It s not the absolute zenith of fashion to do this anymore but girls who wear theirs with leather straps and buckles aren t serious with Velcro you can get at the thing when you need it I also have a pink ammo belt It s heavy but who said fashion was easy In a mall like any other a gang of teenage girls are suddenly caught up in a maelstrom of shopping and violence But as the designer bullets fly it is not only their own lives they are fighting for Unknown to them they are battling for the life of a man trapped in another place in a different world and with very different enemies He is a man they have never met but who represents the future of the human race or could destroy it

City Visions Jenny Bavidge, Robert Bond, 2021-03-04 City Visions The Work of Iain Sinclair collects fourteen pathbreaking essays treating the panoramic oeuvre of novelist poet filmmaker and essayist Iain Sinclair This book aims to reflect and develop the current strong interest in the work of Sinclair who is widely recognized as one of the most significant figures in contemporary British literature and culture The essays herein cover the key genres and periods of Sinclair s output discussing his poetry prose and filmmaking and are developed from the proceedings of the first academic conference on Sinclair which was held at the University of Greenwich in 2004 Following the introductory chapter which includes a brief survey of Sinclair s career up until now the collection is arranged thematically in four sections The first part Contexts features essays which comment on the critical categorization and definition of Sinclair s work The second part Culture and Critique includes essays which explore the political import and contexts of Sinclair s oeuvre The articles in the third part Connections look at the links between Sinclair and other writers addressing the often noted intertextuality of his writing and the final section Spaces contains three considerations of Sinclair s treatment of London s urban spaces This collection provides access to the latest research by the leading scholars working in this area and will be a key point of reference for anyone interested in Sinclair s production To some the field of London writing may increasingly look like an indifferent over populated wasteland Iain Sinclair however remains pre eminent by virtue not only of the amplitude of his knowledge of the city but of the intensity and complexity of his thought about it He is the redemptive memorialist of a host of disregarded London cultures that lie quite beyond the reach of contemporary pieties In that respect he is less our Blake as he

sometimes seems to believe than our Pepys or our Defoe At the same time he is an audacious experimenter with prose forms in the modernist tradition from Joyce to Burroughs and beyond Like the Sinclair phenomenon itself this valuable collection of essays is multifaceted illuminating its subject from a variety of different angles whilst very well aware that it is part of a work in progress It offers important testimony to the scope and power of a writer engaged in an original serious and necessary project Andrew Gibson Research Professor of Modern Literature and Theory Royal Holloway University of London This is an important and timely collection about arguably the most significant living London writer who is increasingly being recognised as an important contemporary English author in every sense Lawrence Phillips Principal Lecturer in English University of Northampton At last Iain Sinclair has the readers he deserves at least on the ample often provocative and always fascinating evidence of City Visions a collection of essays marked equally by panache and verve awareness of alternative cultural history and theoretical sophistication Over fourteen chapters critics with wide ranging interests gather their restless energies and obsessions in response to the scatter gun agitprop and guerilla intellectualism of Sinclair to produce a necessary and necessarily edgy volume In this admirably relentless collection Jenny Bavidge and Robert Bond offer an unnerving and inventive critical topography that uncovers the dark heart of a writer who is simultaneously the enfant terrible and minence grise of English letters Belles lettrists and other dilettantes be warned this is not a volume for the faint hearted these essays manifest an evangelical zeal equal to their subject s own in doing so they take us on an exhilarating intellectual adventure so refreshing in the world of lit crit where the polite formulas of sensible reading make one want to faint from ennui Professor Julian Wolfreys Loughborough University *British Fiction of the 1990s* Nick Bentley, 2007-05-07 The 1990s proved to be a particularly rich and fascinating period for British fiction This book presents a fresh perspective on the diverse writings that appeared over the decade bringing together leading academics in the field British Fiction of the 1990s traces the concerns that emerged as central to 1990s fiction in sections on millennial anxieties identity politics the relationship between the contemporary and the historical and representations of contemporary space offers distinctive new readings of the most important novelists of the period including Martin Amis Beryl Bainbridge Pat Barker Julian Barnes A S Byatt Hanif Kureishi Ian McEwan Iain Sinclair Zadie Smith and Jeanette Winterson shows how British fiction engages with major cultural debates of the time such as the concern with representing various identities and cultural groups or theories of the end of history discusses 1990s fiction in relation to broader literary and critical theories including postmodernism post feminism and postcolonialism Together the essays highlight the ways in which the writing of the 1990s represents a development of the themes and styles of the post war novel generally yet displays a range of characteristics distinct to the decade **The Swarming Streets** ,2004-01-01 Ranging from the turn of the nineteenth century to the last few years of the twentieth century The Swarming Streets explores the representation of London in the last century through some of the major writers who have made it the foundation of their work The natural companion to recent major histories and biographies of the

the modern metropolis cannot be fixed in time and history *Urban Ethic* Eamonn Canniffe, 2006 Looks at the development of urban design focusing on four elements the physical dimension of monuments and spaces and the humanist dimension of patterns and narrative in cities **Landscape and Subjectivity in the Work of Patrick Keiller, W.G. Sebald, and Iain Sinclair** David Anderson, 2020-08-27 This book situates the film maker Patrick Keiller alongside the writers W G Sebald and Iain Sinclair as the three leading voices in English psychogeography offering new insights to key works including *London The Rings of Saturn* and *Lights Out for the Territory* Excavating social and political contexts while also providing plentiful close analysis it examines the cultivation of a distinctive affective mode or sensibility especially attuned to the cultural anxieties of the twentieth century's closing decades *Landscape and Subjectivity* explores motifs including essayism the reconciliation of creativity with market forces and the foregrounding of an often agonised or melancholic It asks whether the work can collectively be seen to constitute a critical theory of contemporary space and suggests that Keiller Sebald and Sinclair's contributions represent a highly significant moment in English culture's engagement with landscape environment and itself The book's analyses are fuelled by archival and topographical research and are responsive to various interdisciplinary contexts including the tradition of the English Journey the set of ideas associated with the spatial turn critical theory the so called heritage debate and more recent theorisation of the anthropocene **Iain Sinclair: Noise, Neoliberalism and the Matter of London** Niall Martin, 2015-09-24 For much of the 20th century the modernist city was articulated in terms of narratives of progress and development Today the neoliberal city confronts us with all the cultural noise of disorder and excess meaning As this book demonstrates for more than 40 years London based writer film maker and psychogeographer Iain Sinclair has proved to be one of the most incisive commentators on the contemporary city tracing the emerging contours of a metropolis where the meeting of global and local is never without incident Iain Sinclair *Noise Neoliberalism and the Matter of London* explores Sinclair's investigations into the nature of conflicting urban realities through an examination of the ways in which the noise of neoliberal excess intersects with the noise of literary experiment In this way the book casts new light on theorisations of the city in the contemporary era
