Soul Remembers:

The Soul Remembers Carlos Warter, 1992-06-01 A Parable on Spiritual Transformation What is the purpose of human life Who am I What is the reality of this world I find myself in Why do I find myself in the midst of certain troublesome circumstances Who among us has not pondered some of these questions at times On the outermost level this book is a teaching metaphor similar to those used in all sacred traditions But behind the parable is cosmic perspective on essence individuality and relationships There is a view of human purpose soul design and divine direction that leads to a new look at the origin of suffering healing and the evolutionary dimensional shift Through the voices of archetypes of consciousness the book subliminally explores paths to power love beauty strength and mysticism It moves through different dimensions of reality while simultaneously focusing on the mental emotional and physical aspects of life as instruments of expression that can be tuned to a higher purpose The Soul Remembers is the expression of a spiritual journey that has assisted thousands in their own processes of self remembrance encouraging them to live more deeply and become personally responsible for cocreating heaven on earth

Bottoming Out the Universe Richard Grossinger, 2020-04-07 An exploration into consciousness the universe and the nature of reality Draws on transdimensional physics and biology reincarnation and past life memories animal consciousness multiple identities thoughtforms soul pictures and paranormal phenomena like crop circles and poltergeists Explores the riddle of personal identity and how it differs from consciousness Reveals that

consciousness is more than encompassing all that exists it also speaks to what has yet to manifest Scientific orthodoxy views the universe as conceived of matter protons neutrons electrons down to the smallest particle quarks But when you keep digging what is beneath quarks The scientific worldview does not take into account consciousness or life itself How did consciousness become part of the material universe Is it a by product of brain chemistry or a constituent of reality Or to dig deeper which is more fundamental the existence of an objective physical universe or our subjective experience of it In this investigation into consciousness the universe and the nature of reality Richard Grossinger offers a wide ranging foundation for reimagining the universe as based in consciousness rather than matter He presents in depth analysis of the standard scientific description of the universe revealing the holes in its theories Exploring the interpenetration of matter and all reality by consciousness the author looks at reincarnation and past life memories examining famous and lesser known but verifiable accounts He then explores the nature and origin of consciousness with accompanying explorations of animal consciousness the brain as a computer multiple identities thoughtforms soul pictures and paranormal phenomena like UFOs faeries and poltergeists He also examines concepts from physics that combine elements of both consciousness and matter such as collapsing waveforms and the uncertainty principle of quantum mechanics Examining nonlocal and transpersonal modes of consciousness Grossinger looks at the difference between consciousness and personal identity He expands this discussion with reflections on Sethian cosmology using Seth s own words and Jane Roberts s and John Friedlander s interpretations He reveals that consciousness also encompasses what has yet to manifest and explains why the universe exists at all why there is something rather than nothing Skewering the materialist paradigm and placing consciousness alongside mass gravity and heat as an essential component of the universe Grossinger proposes that reality is a thoughtform where sentient beings collaborate to bring about a concrete realm vibrating at their own frequency

Navamsa: The Soul's Hidden Map - A Journey Through Karma, Love, and Liberation Saket Shah, 2025-04-11 Dear Reader When I first stepped into the mysterious world of the Navamsa chart I was not just studying astrology I was listening to the soul This book was not born from theories or formulas but from a quiet whisper that echoed through scriptures meditations client charts and sacred myths A whisper that kept saying There is more

to you than your Rasi chart Look deeper I did And what I found was the soul s map Through the pages of this book you have walked with me past divine unions and karmic burdens through planetary echoes of past lives and into the sanctum of dharma and desire We explored not only technical interpretations but mythic truths because astrology is not just about prediction it is about remembrance The Navamsa is not just about marriage It is about your inner marriage Your sacred self Your unfulfilled destinies And the light that awaits behind every shadow If this book helped you understand even a sliver of your own soul s truth then the journey has been worthwhile This is not an ending it is a beginning May your Navamsa unfold like a divine lotus petal by petal life after life With reverence Saket Shah *Imagine Living Life Well with Perspective & Perseverance* Maureen Whitaker,2022-03-14 Book Two *Imagine Living Life Well with Perspective Perseverance Volume III* New Spiritual Adventures We Learn Anew Volume IV Experiences Across the Pond on Familiar Terra Firma At one point while having discussions Liam says in an eloquent manner It s as if you ve taken the veil off science opened the veil into metaphysics and thrown them together shook them up and out the other side emerges amazing truths the proof of which will I believe shake the two science and metaphysics to its core once it is known While at lunch the doctor s wife Lilly a Microbiologist tells Anna and Liam about her identical twin and home country of Wales They cannot figure why Lilly speaks with missing words and often slowly As events occur they have many Life Changes realizing their Life Challenges and began to really learn how to Live Life Well They have reason to believe there are Mysteries of the Universe and Everything Happens for a Reason Dave shows Anna the object he inherited from his twin Frank This opens to Mysteries of the Universe and to some special times as wonderful insights were provided about it They wonder if it was a Codex like in the Da Vinci Code story It is complex and causes the book within a book to be born Liam s medieval armour is returned from forensics and the case is closed Something is wrong with Lilly They soon learn what Anna and Liam help Dave their doctor deal with life matters There is a great discussion of how to know who people in this life are from knowing of Past Lives Liam works out in his armour Liam begins the Sport of Kings in the Medieval Society to make his goal a reality Anna and Liam renew their wedding vows Next is Book Three [Summa Theologiae, Prima Pars: Volume 3, Human Beings and God's Governance of Creation, QQ 75-119](#) Thomas Aquinas,Thomas de Vio Cajetan,2023-06-23 This book is an introduction to three questions on love according to St Thomas Aquinas Summa Theologiae I II qq 26 28 These three questions reflect on the nature of love q 26 the causes of love q 27 and the effects of love q 28 It is thus an introduction to the entire phenomenon of love both as a bodily passion and an act of the will The purpose is to present the Thomistic and broadly scholastic account of human and divine love from a philosophical and theological perspective It aims to be a theological and philosophical study of the topic useful both for a graduate professional audience as part of an undergraduate or graduate course and perhaps for the educated reader The thesis of the book is that contrary to contemporary conceptions not all loves are created equal Some loves perfect us and some loves corrupt us The worth of a love depends on its object and end St Thomas thus presents an objective and

teleological account of human and divine love that is of philosophical and theological interest The method is broadly exegetical presenting a careful reading of the text and supplying the philosophical and theological background which the text of Aquinas assumes The scope of the work is limited to three questions ST I II qq 26 28 References to interpretative disputes of Aquinas and references to further resources in the secondary literature will be mostly limited to the footnotes making the body of the text accessible to more readers
