Soul Of The Night An Astronomical Pilgrimage:

The Soul of the Night Chet Raymo, 2005-08-25 Probing the depths of science and faith scientist Chet Raymo investigates the mysteries of human spirituality and meaning contained in astronomy Ranging through the stars and the myths humans have told about them for millennia Raymo delves into a pilgrimage in quest of the soul of the night Chet Raymo's elegant essays link the mysterious phenomena of the night sky with the human mind and spirit as he ranges through the realms of mythology literature religion history and anthropology Originally published two decades ago *The Soul of the Night* is a classic work that is a must for those interested in the relationship between science and faith

The Soul of the Night Chet Raymo, 2005 Originally published Englewood Cliffs N J Prentice Hall c1985 *An Intimate Look at the Night Sky* Chet Raymo, 2003-04-01 A star guide features twenty four star maps that cycle through the seasons and across the heavens revealing what one can see with the naked eye throughout the year on a clear night in the Northern Hemisphere

The Analemma Waltz Paul Vincent, 2020-11-18 When author Paul Vincent moved into his new home in Bristol Rhode Island he was struck by how generously its interior gathered sunlight and decided to keep a record of the annual solar itinerary across its walls floors and furniture The result is *The Analemma Waltz* a celebration of the sun's slow motion dance through his house facilitated in part by its surfeit of windows but much more so by the analemma the narrow figure eight pattern the sun describes in the sky in the course of a year in the Earth's orbital journey Vincent's habit of noting and minuting the changing positions of sunlight day by day and week by week was the catalyst for meditations on matters of universal concern as suggested by the times and the seasons of the year and approached not from the perspective of a scholar or academic but from that of an interested layperson Such matters addressed in the monthly chapters include the study of history the virtue of tolerance the conflict between science and religion and the morality of war Despite the varied nature of the essay topics in *The Analemma Waltz* certain themes appear and reappear throughout the book namely the author's convictions that existential particularity is the occasion of both joy and sadness that the world's people though the beneficiaries of seemingly endless breakthroughs in technology are and will remain metaphysically vulnerable and that appreciation prompting gratitude is the highest vocation of the human person

Borderlands of the Spirit John Herlihy, 2005 Through a penetrating analysis of reason and intellect spiritual imagination and the light of faith this book addresses fundamental questions pertaining to our search for meaning

Night Skies of Aboriginal Australia Dianne Johnson, 2014-02-19 Written by anthropologist Diane Johnson *Night Skies of Aboriginal Australia* has been in demand since its publication in 1998 It is a record of the stars and planets which pass across night time

Keepers of the Story Megan McKenna, 2005-01-01 More wonderful tales and how to tell them from master storyteller Megan McKenna A coyote a woodcutter a Buddhist Zen master a boy named Samuel a Sufi mystic two men walking to Emmaus all are central characters in stories told by Megan McKenna As we listen to Once upon a time their lives become our lives We learn from their mistakes and profit from their wisdom

Megan McKenna's stories are drawn from many religious traditions Hebrew Scriptures Sufi mysticism Native American traditions Eastern religions and the Christian Gospels Keepers of the Story also offers readers fascinating and helpful information about storytelling itself In the final chapter McKenna explores how the storyteller becomes theologian talking and teaching about God the Keeper of the Story of us all **The Extraordinary in the Ordinary** Donald A.

Crosby, 2017-03-30 Miracles are usually regarded as an intrusion of a supernatural force upsetting the normal workings and laws of the universe but if one is attentive to the natural world one can instead find miracles beneath the surface of everyday existence This outlook is part of Donald A Crosby's religious naturalism which he terms Religion of Nature a belief system that posits the natural world to be the only world without any underlying or transcending supernatural being presence or power In **The Extraordinary in the Ordinary** Crosby explores seven types of everyday miracles such as time language and love to show that the miraculous and ordinary are not opposed to each other Rather it is when we acknowledge the sacred depths and dimensions of everyday existence that we recognize the miracles that constantly surround us **Apollo's Fire** Michael Sims, 2008-11-25 It's the oldest story on Earth You relive it every day So much of our shared daily experience in the world is shaped by the sometimes dramatic sometimes subtle effects of the Earth's spin its tilt on its axis the alternation of light and darkness the waxing and waning of the moon the seemingly capricious growth of clouds The ancient rhythm of the day and night was shaping life on Earth before there were even human beings to appreciate it It rules our bodies and weather and calendars and sets the tempo for our work and play Each of us awakens each day to relive this primordial narrative With his signature blend of science and poetry history and mythology Michael Sims serves as tour guide on an unforgettable journey through the wonders of an ordinary day from dawn to nighttime Long before we had the tools of knowledge to explain what we observed in the skies overhead we built mythologies and folklore around these occurrences immortalized them in poetry and art created special places for them in our collective imagination and even our language In **Apollo's Fire** Sims explores the celestial events that form our days fusing lively explanations of these phenomena with a richly layered history of what they meant to us before we knew how they worked He explains the colors of sunrise the characteristics of shadow the mysteries of twilight Characters in this vital drama include Galileo watching sunrise on the moon Eratosthenes measuring the Earth with a noontime shadow and Edgar Allan Poe figuring out why the night sky is dark instead of glowing with the light of a million suns Our story ranges from the movie *High Noon* to Darwin's plant experiments from *The Time Machine* to the afternoon rise in air pollution In the witty and elegant style that has earned him the designation science raconteur Sims weaves a dazzling array of strands into a single tapestry of daily experience and makes the oldest story on Earth new again *Book Lust* Nancy Pearl, 2009-09-29 What to read next is every book lover's greatest dilemma Nancy Pearl comes to the rescue with this wide ranging and fun guide to the best reading new and old Pearl who inspired legions of literateurs with *What If* All name the city *Read the Same Book* has devised reading lists that cater to every mood occasion and personality These annotated

lists cover such topics as mother daughter relationships science for nonscientists mysteries of all stripes African American fiction from a female point of view must reads for kids books on bicycling chick lit and many more Pearl s enthusiasm and taste shine throughout
