Sound Of War Memoirs Of A Cbc Correspondent:

The Sound of War Peter Stursberg, 1993 Fifty years ago on 10 July 1943 Canadian troops landed in Sicily It was the first full scale action of the Second World War involving Canadians apart from Dieppe and Peter Stursberg covered the action as a CBC war correspondent He went on to cover the Italian campaign the invasion of southern France the liberation of the Netherlands and the entry of the Allies into Berlin The Sound of War is a highly personal account from a journalist who was on the front lines observing the men in battle It is an insider's account of what war was like on a day to day basis in London Algiers Sicily Italy and northwestern Europe Stursberg whose voice from the war became well known in Canada also participated in another historic event The establishment and organization of the CBC's overseas news reporting during the war formed the basis for the creation of a national news service Radio with its immediacy and impact became a significant medium for the carrying of war information to the home front its more dramatic coverage challenged that of the print news Stursberg explains how the CBC's approach to broadcasting from the front outdid that of its rivals in radio the BBC and the American networks BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Reporting from the Wars 1850 - 2015 Barry Turner, Daniel Barredo Ibáñez, Steven James Grattan, 2019-07-05 From the foundations of the world's first great empires to the empires of today war has preoccupied human civilisation for as many as 4000 years It has fascinated horrified thrilled confused inspired and disgusted mankind since records began Provoking such a huge range of emotions and reactions and fulfilling all the elements of newsworthiness it is hardly surprising that war makes good news Modern technological advancements such as the camera and television brought the brutality of war into the homes and daily lives of the public No longer a far away and out of sight affair the public's ability to see what was happening on the frontline changed not only how wars were fought but why they were fought Even when a war is considered popular the involvement of the press and the weight of public opinion has led to criticisms that have transformed modern warfare almost in equal measure to the changes brought about by weapon technology War reporting seeks to look beyond the official story to understand the very nature of conflict whilst acknowledging that it is no longer simply good versus evil This edited volume presents a unique insight into the work of the war correspondent and battlefield photographer from the earliest days of modern war reporting to the present It reveals how influenced by the changing face of modern warfare the work of the war correspondent has been significantly altered in style method and practice By combining historical analysis with experiences of modern day war reporting this book provides an important contribution to the understanding of this complicated profession which will be of interest to journalists academics and students alike [World War II & the media.
