Current Tables ,1935 **The Sound Current Tradition** David Christopher Lane,2022-07-14 The practice of listening to subtle inner sounds during meditation to concentrate and elevate the mind has a long history in various religions around the world including Islam Christianity Hinduism Buddhism Jainism and Sikhism Today there are a number of new religious movements that have made listening to the inner sound current a cornerstone of their teachings These groups include the Radhasoamis the Divine Light Mission Eckankar the Movement of Spiritual Inner Awareness MSIA MasterPath the Sawan Kirpal Mission Quan Yin Ching Hai Manavta Mandir ISHA and a number of others In this study we provide a historical and comprehensive overview of these movements and how they have incorporated listening to the inner sound as part of their spiritual discipline We are particularly interested in the distinctive and nuanced ways that each group teaches how to listen to the inner sound current and how they interpret it in their own unique theologies **Tides and Currents in Long Island**

Special Publications ,1932 *Human Nature* Roshan Gakhar,2022-06-17 The book contains forty four articles on Human Nature such as compassion control of mind devotion and faith karma theory love meditation life and positive thoughts

attitude and gratitude and karma theory It is believed that God is love and love is God and the soul is the essence of the Lord God in his Shabd Word and Divine Light is within all human beings Soul can only merge into God when it becomes pure and free from karmas and bondage of birth and death again and again However to achieve peace of mind love and happiness one should develop his human nature by living in the present moment and have positive attitude positive thinking and be a good human

Our New Human Consciousness Terry Sands,2011-05 Every few thousand years our human culture experiences a massive evolutionary transformation In the next few years our consciousness will change very rapidly and move us beyond anything we can presently imagine This change of consciousness is happening naturally to each of us now and it will affect every aspect of how we think how we live and how we love We are a culture in search of its spirit and this change of consciousness is evolutionarily next for humankind on this planet When the awareness opens one may search many avenues and attractions for truth and enlightenment and find the search lacking in result The next step may be the path of Self discovery But the direction on this path will not be given to us by a great teacher who comes down from the mountaintop with answers cast in stone but rather by lots of little great teachers who could be called pathfinders And to move into this new consciousness we will transform the mind and the way it works with new mental skills and mental technology Our success is inevitable The ease or difficulty with which we achieve this success is still in formation We will survive the transition physically The question is whether we will survive psychologically Psychological survival in this transition depends on only one thing Developing the ability and inner discipline to completely instantaneously unquestioningly and continuously adapt to change
