YOU CAN CREATE

If you think that line-and-circle designs are unimaginative and ordinary, this is a book that should change your mind. With no more than some lines and circles—which you plot with a ruler, a protractor and a compass—and some string or other thread-like material, you will be able to create strikingly original two- or three-dimensional pictures, mobiles and statues.

In **STRING THINGS YOU CAN CREATE**, author Glen Seeger, who has developed a series of kits with designs like those which appear in this book, teaches you the basic techniques of this visual craft. With the help of many clear diagrams and illustrative photographs, he presents simple, but intricate-looking patterns and the step-by-step instructions you need to plot the designs, number and punch holes at the plotted points and to stitch with your chosen string or thread.

Whether you are accomplished at sewing, or are less than a beginning needlewoman, this book will strike your fancy and spur your imagination. Try it—these designs will inspire you to dream up your own.
