Strong Religion The Rise Of Fundamentalisms Around The World:

Strong Religion Gabriel A. Almond, R. Scott Appleby, Emmanuel Sivan, 2003-01-15 Publisher Description *Religious Fundamentalism and Social Identity* Peter Herriot, 2014-02-25 The attacks on the World Trade Centre and the Pentagon in the United States of September 11th 2001 brought the phenomenon of religious fundamentalism to the world's attention. Sociological research has clearly demonstrated that fundamentalists are primarily reacting against modernity and believe that they are fighting for the very survival of their faith against the secular enemy. But we understand very little about how and why people join fundamentalist movements and embrace a set of beliefs, values and norms of behaviour which are counter-cultural. This is essentially a question for social psychology since it involves both social relations and individual selves. Drawing on a broad theoretical perspective, social identity theory, Peter Herriot addresses two key questions: why do fundamentalists identify themselves as an in-group fighting against various out-groups? And how do the psychological needs for self-esteem and meaning motivate them? Case studies of Mohammed Atta, the leader of the 9/11 hijackers, and of the current controversy in the Anglican Church about gay priests and bishops demonstrate how fruitfully this theory can be applied to fundamentalist conflicts. It also offers psychologically sensible ways of managing such conflicts rather than treating fundamentalists as an enemy to be defeated. *Religious Fundamentalism and Social Identity* is unique in applying social identity theory to fundamentalism and rare in that it provides psychological in addition to sociological analyses of the phenomenon. It is a valuable resource for courses in social psychology which seek to demonstrate the applicability of social psychological theory to the real world.

Fundamentalisms and the Media Stewart M. Hoover, Nadia Kaneva, 2009-06-09 The turn of the twenty-first century has seen an ever-increasing profile for religion, contrary to long-standing predictions of its decline. Instead, the West has experienced what some call a realignment of religion where it persists in conjunction with other institutions and structures. Outside the West, religion is an ever more prominent force in social and political movements of both reform and retrenchment. Across these contexts, no issue in religion is of as much concern as fundamentalism, or rather the fundamentalisms within various traditions which are seen to be fomenting religious, social, ethnic and political tension and conflict. The contributions to this volume represent the first effort to look at fundamentalisms and the media together and address the resulting relations and interactions from critical perspectives of history, technology, geography and practice. The result lays important groundwork for scholarship on these new and increasingly important phenomena.

Religion and Terrorism Veronica Ward, Richard Sherlock, 2013-12-24 *Religion and Terrorism: The Use of Violence in Abrahamic Monotheism* provides theoretical analysis of the nature of religious terrorism and religious martyrdom and also delves deeply into terrorist groups and beliefs in Judaism, Christianity and Islam. Religious terrorism is found in all three of the great monotheistic faiths, and while the public is most aware of Islamic terrorism, Jewish and Christian faiths have extremist groups that warp their teaching in ways unrecognizable to most adherents to support terrorism. This work will be of

interest to scholars in religious studies political science and sociology *Fundamentalism* Simon A. Wood, David Harrington Watt, 2014-05-26 Essays considering how global fundamentalism influences our understanding of modern Christianity Judaism and Islam Thirty years after the Iranian Revolution and more than a decade since the events of 2001 the time is right to examine what the discourse on fundamentalism has achieved and where it might head from here In this volume editors Simon A Wood and David Harrington Watt offer eleven interdisciplinary perspectives framed by the debate between advocates and critics of the concept of fundamentalism that investigate it with regard to Christianity Islam and Judaism The essays are integrated through engagement with a common selection of texts on fundamentalism and a common set of questions about the utility and disadvantages of the term its varied application by scholars of particular groups and the extent to which the term can encompass a cross cultural set of religious responses to modernity Although the notion of fundamentalism as a global phenomenon dates from around 1980 the term itself originated in North American Protestantism approximately six decades earlier and acquired pejorative connotations within five years of its invention Since the early 1990s however many scholars have endorsed the view that the notion of fundamentalism as relying on literalist interpretations of the scriptures firm commitment to patriarchy or refusal to confine religious matters to the private sphere facilitates our understanding of modern religion by enabling us to identify and label structurally analogous developments in different religions Critics of the term have identified problems with it above all that the idea of global fundamentalism confuses more than it clarifies and unjustifiably overlooks downplays or homogenizes difference more than it identifies a genuine homogeneity The editor's rigorous exploration of both the usefulness and the limitations of the concept make it an excellent counterpoint to the many books that have a great deal to say about the former and very little to say about the latter It will also serve as an ideal text for religious studies history and anthropology courses that explore the complex interface between religion and modernity as well as courses on theory and method in religious studies *The Routledge Companion to the Study of Religion* John Hinnells, 2009-09-10 The Routledge Companion to the Study of Religion is a major resource for courses in Religious Studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues such as gender science fundamentalism ritual and new religious movements Written by renowned international specialists this new edition includes eight new chapters including post structuralism religion and economics religion and the environment religion and popular culture and sacred space surveys the history of religious studies and the key disciplinary approaches explains why the study of religion is relevant in today's world highlights contemporary issues such as globalization diaspora and politics includes annotated reading lists a glossary and summaries of key points to assist student learning

Antifundamentalism in Modern America David Harrington Watt, 2017-05-09 David Harrington Watt's *Antifundamentalism in Modern America* gives us a pathbreaking account of the role that the fear of fundamentalism has played and continues to

play in American culture Fundamentalism has never been a neutral category of analysis and Watt scrutinizes the various political purposes that the concept has been made to serve In 1920 the conservative Baptist writer Curtis Lee Laws coined the word fundamentalists Watt examines the antifundamentalist polemics of Harry Emerson Fosdick Talcott Parsons Stanley Kramer and Richard Hofstadter which convinced many Americans that religious fundamentalists were almost by definition backward intolerant and anti intellectual and that fundamentalism was a dangerous form of religion that had no legitimate place in the modern world For almost fifty years the concept of fundamentalism was linked almost exclusively to Protestant Christians The overthrow of the Shah of Iran and the establishment of an Islamic republic led to a more elastic understanding of the nature of fundamentalism In the late 1970s and early 1980s Americans became accustomed to using fundamentalism as a way of talking about Muslims Jews Hindus Sikhs and Buddhists as well as Christians Many Americans came to see Protestant fundamentalism as an expression of a larger phenomenon that was wreaking havoc all over the world Antifundamentalism in Modern America is the first book to provide an overview of the way that the fear of fundamentalism has shaped U S culture and it will lead readers to rethink their understanding of what fundamentalism is and what it does

A Companion to Contemporary Political Philosophy Robert E. Goodin, Philip Pettit, Thomas W. Pogge, 2012-03-12 This new edition of A Companion to Contemporary Political Philosophy has been extended significantly to include 55 chapters across two volumes written by some of today's most distinguished scholars New contributors include some of today's most distinguished scholars among them Thomas Pogge Charles Beitz and Michael Doyle Provides in depth coverage of contemporary philosophical debate in all major related disciplines such as economics history law political science international relations and sociology Presents analysis of key political ideologies including new chapters on Cosmopolitanism and Fundamentalism Includes detailed discussions of major concepts in political philosophy including virtue power human rights and just war **Rethinking Secularism** Craig Calhoun, Mark Juergensmeyer, Jonathan VanAntwerpen, 2011-08-12 This collection of essays examines how the secular is constituted and understood and how new understandings of secularism and religion shape analytic perspectives in the social sciences politics and international affairs *Ways of Living Religion* Christina M. Gschwandtner, 2024-03-14 This study provides a philosophical analysis of different types of religious experience focusing on the lived experience of religion
