Structuralism In Literature:

Structuralism in Literature Robert Scholes, Robert E. Scholes, 1974-01-01 The nature and leading exponents of the structuralist movement are considered as well as the structural poetics of fiction and drama *Structuralist Poetics* Jonathan D. Culler, 2002 Culler's most famous work *Structuralist Poetics* has never been out of print since first publication in 1975 selling over 20 000 copies It introduced a new way of studying literature by attempting to create a systematic account of the structure of literary works rather than studying the meaning of the work Culler's new preface answers some of the criticisms levelled at his approach and details how it is still as relevant today as when it was first published **The Poverty of Structuralism** Leonard Jackson, 2014-09-11 *The Poverty of Structuralism* is the first in a sequence of volumes which examine in turn the basic ideas of Saussure Marx and Freud and analyse the way in which they have been developed and applied to art culture and modern textual theory The text offers a critical introduction to the structuralist foundations of modern literary theory It gives an account of the way such foundations have been developed twisted and distorted to become part of the language that contemporary literary and cultural theoreticians use It also addresses some of the fundamental issues about language and society that are presupposed by the often difficult language of modern literary and cultural theory

The Fate of Meaning John K. Sheriff, 2014-07-14 This succinct and lucid study examines the thought of the philosopher Charles Peirce as it applies to literary theory and shows that his concept of the sign can give us a fresh understanding of literary art and criticism John Sheriff analyzes the treatment of determinate meaning and contends that as long as we cling to a notion of language that begins with Saussure's dyadic definition of signs meaning cannot be treated as such any more than can essence or presence Asserting that Peirce's less familiar position offers a way out of this difficulty Sheriff first discusses the Saussurean based theory of meaning and then argues for the advantages of the radically different triadic theory developed by Peirce Part One of the work reviews and critiques the treatment of meaning in works by Jonathan Culler Tzvetan Todorov Stanley Fish Roland Barthes and Jacques Derrida among others The focus of this section is on the treatment of meaning in structural and post structural theories and their common basis in Saussurean linguistics Part Two provides a readable introduction to Peirce's general theory of signs and develops comprehensively the implications of his semiotic The substitution of his theory for Saussure's opens our eyes to new and cogent answers to many questions relevant to the meaning of texts Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Working with Structuralism** David Lodge, 1981-01-01 **Structuralism or Criticism?** Geoffrey Strickland, 1981-04-16 Geoffrey Strickland's book

considers some of the principal Structuralist theories of the sixties and seventies which derive from the semiology or science of signs postulated by the Swiss linguist Saussure at the beginning of the twentieth century The book falls into three parts In the first Strickland argues that in one essential the structuralist enterprise was misconceived The second and most substantial part of the book is a defence of certain fundamental presuppositions in the act of reading There is a discussion of the nature and accessibility of authorial intention of the necessary fallibility in our understanding of what we read of the objective aspect of evaluation and of the sense in which the student of literature is also a student of history In the final section the author summarises the arguments of the book with a detailed comparison of the writings of Roland Barthes and F R Leavis Strickland has produced a lively and provocative contribution to literary debates on structuralism which ranges widely over both French and English criticism and literary theory
