Structure And Classification Of Paleocommunities:

Structure and Classification of Paleocommunities Robert William Scott, Ronald R. West, 1976 The papers were part of a symposium sponsored by the Paleontological Society at the 1974 meeting of the Geological Society of America in Miami Beach

Paleoecology J. Robert Dodd, Robert J. Stanton, 1991-01-16 Revised and updated it reflects the recent developments and changing emphasis in the field of paleoecology While the basic organization remains the same as the original edition there are several major changes including an extensive reorganization and shortening of Chapter 2 focusing now on environmental parameters rather than individual taxonomic groups greater use of tables with references to pertinent literature inclusion of a new chapter on taphonomy elimination of the chapter on skeletons as sedimentary particles removal of many of the recurring examples from the Neogene of the Kettleman Hills and inclusion of new references on all topics Older references have been kept and will serve to blend the historical and important milestones in the development of paleoecology with the most current research

Evolutionary Paleoecology Warren D. Allmon, David J. Bottjer, 2001-02-14 One of the most important questions we can ask about life is Does ecology matter Most biologists and paleontologists are trained to answer yes but the exact mechanisms by which ecology matters in the context of patterns that play out over millions of years have never been entirely clear This book examines these mechanisms and looks at how ancient environments affected evolution focusing on long term macroevolutionary changes as seen in the fossil record Evolutionary paleoecology is not a new discipline Beginning with Darwin researchers have attempted to understand how the environment has affected evolutionary history But as we learn more about these patterns the search for a new synthetic view of the evolutionary process that integrates species evolution ecology and mass extinctions becomes ever more pressing The present volume is a benchmark sampler of active research in this ever more active field
