Roger M. White

Structure Of Metaphor The Way The Language Of Metaphor Works:

The Structure of Metaphor Roger M. White, 1996-06-03 This volume provides a philosophical introduction to and analysis of the study of metaphor By proceeding from the concrete analysis of complex metaphors White is able to identify a range of features which are incompatible with standard accounts of the way words function in metaphor **Music and Metaphor in Nineteenth-Century British Musicology** Bennett Zon, 2017-07-05 In a word I shall endeavour to show how our music having been originally a shell fish with its restrictive skeleton on the outside and no soul within has been developed by the inevitable laws of evolution through natural selection and the survival of the fittest into something human even divine with the strong logical skeleton of its science inside the fair flesh of God given beauty outside and the whole like man himself animated by a celestial eternal spirit W J Henderson The Story of Music 1889 Critical writing about music and music history in nineteenth century Britain was permeated with metaphor and analogy Music and Metaphor examines how over arching theories of music history were affected by reference to various figurative linguistic templates adopted from other disciplines such as art religion politics and science Each section of the book discusses a wide range of musicological writings and their correspondence with the language used to convey contemporary ideas such as the sublime the ancient and modern debate and in particular the theory of evolution Bennett Zon reveals that through their application of metaphorical frameworks taken from art religion and science these writers and their work shed light on nineteenth century perceptions of music history and illuminate the ways in which these disciplines affected notions of musical development **The Cambridge Handbook of Metaphor and Thought** Raymond W. Gibbs, Jr., 2008-09-22 A comprehensive collection of essays in multidisciplinary metaphor scholarship that has been written in response to the growing interest among scholars and students from a variety of disciplines such as linguistics philosophy anthropology music and psychology These essays explore the significance of metaphor in language thought culture and artistic expression There are five main themes of the book the roots of metaphor metaphor understanding metaphor in language and culture metaphor in reasoning and feeling and metaphor in non verbal expression Contributors come from a variety of academic disciplines including psychology linguistics philosophy cognitive science literature education music and law Handbook of Public Communication of Science and Technology Massimiano Bucchi, Brian Trench, 2008-06-03 Comprehensive yet accessible this key Handbook provides an up to date overview of the fast growing and increasingly important area of public communication of science and technology from both research and practical perspectives As well as introducing the main issues arenas and professional perspectives involved it presents the findings of earlier research and the conclusions previously drawn Unlike most existing books on this topic this unique volume couples an overview of the practical problems faced by practitioners with a thorough review of relevant literature and research The practical Handbook format ensures it is a student friendly resource but its breadth of scope and impressive contributors means that it is also ideal for practitioners and professionals working in the field

Combining the contributions of different disciplines media and journalism studies sociology and history of science the perspectives of different geographical and cultural contexts and by selecting key contributions from appropriate and well respected authors this original text provides an interdisciplinary as well as a global approach to public communication of science and technology *The Routledge Handbook of Metaphor and Language* Elena Semino,Zsófia Demjén,2016-11-03 The Routledge Handbook of Language and Metaphor provides a comprehensive overview of state of the art interdisciplinary research on metaphor and language and maps out future directions of research and practice in a variety of contexts in this field Anaphors in Text Monika Schwarz-Friesel,Manfred Consten,Mareile Knees,2007-05-15 This volume contains a careful selection of papers concerned with actual research questions on anaphoric reference a subject of current interest with various linguistic subdisciplines This is reflected in this book as it methodically covers broadly invested approaches from cognitive neurolinguistic formal and computational perspectives each contribution representing the respective state of the art on a high theoretical and empirical level The volume contains three thematic parts Anaphors in Cognitive Text and Discourse Linguistics The Syntax and Semantics of Anaphors and Neurolinguistic Studies on the reception of anaphoric reference The contributions investigate several Indo European languages **The Contemporary Theory of Metaphor** Ning Yu,1998-07-15 This comparative study of Chinese and English metaphor contributes to the search for metaphoric universals by placing the contemporary theory of metaphor in a broad cross linguistic and cross cultural perspective The author explores to what degree abstract reasoning is metaphorical and which conceptual metaphors are culture specific wide spread or universal in a cognitive and cultural context The empirical studies presented reinforce the view that metaphor is the main mechanism through which abstract concepts are comprehended and abstract reasoning is performed They also support from the perspective of Chinese the candidacy of some conceptual metaphors for metaphorical universals These include for instance the ANGER IS HEAT metaphor the HAPPY IS UP metaphor emotions the TIME AS SPACE metaphor and the Event Structure Metaphor It seems that these conceptual metaphors are grounded in some basic human experiences that may be universal to all human beings **Ursula K. Le Guin, Consent, and Metaphor** Kate Sheckler,2022-02-28 In Ursula K Le Guin Consent and Metaphor Kate Sheckler constructs a new method to categorize metaphor arguing that the moment of consent that exists in the form determines the effects of the interchange Using the fiction of Ursula K Le Guin with the work of Paul Ricoeur as a primary theoretical focus Sheckler identifies both the dangers and necessity of understanding the interplay that determines by whom and at what point consent is offered within the dynamic shift that occurs in metaphor In doing so she identifies the way marginalized groups and cultures can be reconstructed in service to an outside force and notes the absolute necessity of metaphor as a constructive force in a world where we must imagine new ways to approach the future **Visual language** Wendy Sandler,Marianne Gullberg,Carol Padden,2019-11-04 Traditionally research on human language has taken speech and written language as the only domains of investigation However there is now a wealth

of empirical studies documenting visual aspects of language ranging from rich studies of sign languages which are self contained visual language systems to the field of gesture studies which examines speech associated gestures facial expressions and other bodily movements related to communicative expressions But despite this large body of work sign language and gestures are rarely treated together in theoretical discussions This volume aims to remedy that by considering both types of visual language jointly in order to transcend artificial theoretical divides and to arrive at a comprehensive account of the human language faculty This collection seeks to pave the way for an inherently multimodal view of language in which visible actions of the body play a crucial role The 19 papers in this volume address four broad and overlapping topics 1 the multimodal nature of language 2 multimodal representation of meaning 3 multimodal and multichannel prosody and 4 acquisition and development of visual language in children and adults

Structures of Appearing: Allegory and the Work of Literature Brenda Machosky, 2013 Structures of Appearing Allegory and the Work of Literature is an interdisciplinary study that revises the history of allegory through a phenomenological approach The book also takes on the history of aesthetics as an ideology that has long subjugated literature and art generally to criteria of judgment that are philosophical rather than literary
