**The Structure of the Ottoman Dynasty** Anthony Dolphin Alderson,1956      **The The Structure of the Ottoman Dynasty Ottoman Dynasty** Anthony Dolphin Alderson,1956      **Structures and Assertions** Thomas Allan Brady,Heiko Augustinus Oberman,James D. Tracy,1993-12-31 Vol 1      *The Ottoman Empire, 1300-1650* Colin Imber,2019-01-05 This highly praised and authoritative account surveys the history of the Ottoman Empire from its obscure origins in the 14th century through its rise to world power status in the 16th century to the troubled times of the 17th century Going beyond a simple narrative of Ottoman achievements and key events Colin Imber uses original sources and research as well as the rapidly growing body of modern scholarship on the subject to show how the Sultans governed their realms and the limits on their authority A helpful chronological introduction provides the context while separate chapters deal with the inner politics of the dynasty the court and central government the provinces the law courts and legal system and the army and fleet Revised updated and expanded this new edition now also features a separate chapter on the Arab provinces and incorporates the most recent developments in the field throughout New to this Edition An increased focus on religion and on non Muslim communities More on the provinces and culture An expanded taxation chapter with more on charitable trusts trade and the economy Updated references throughout      *The Politics of Aristocratic Empires* John H. Kautsky,2017-09-29 *The Politics of Aristocratic Empires* is a study of a political order that prevailed throughout much of the world for many centuries without any major social conflict or change and with hardly any government in the modern sense Although previously ignored by political science powerful remnants of this old order still persist in modern politics The historical literature on aristocratic empires typically is descriptive and treats each empire as unique By contrast this work adopts an analytical explanatory and comparative approach and clearly distinguishes aristocratic empires from both primitive and more modern commercialized societies It develops generalizations that are supported and richly illustrated by data from many empires and demonstrates that a pattern of politics prevailed across time space and cultures from ancient Egypt five millennia ago to Saudi Arabia five decades ago from China and Japan to Europe from the Incas and the Aztecs to the Tutsi Kautsky argues that aristocrats because they live off the labor of peasants must perform the primary governmental functions of taxation and warfare Their performance is linked to particular values and beliefs and both functions and ideologies in turn condition the stakes the forms and the arenas of intra aristocratic conflict the politics of the aristocracy The author also analyzes the roles of the peasantry and the townspeople in aristocratic politics and shows that peasant revolts on any large scale occur only after commercial modernization He concludes with chapters on the modernization of aristocratic empires and on the importance in modern politics of institutional and ideological remnants of the old aristocratic order      **Structural Analysis of Historical Constructions** Rafael Aguilar,Daniel Torrealva,Susana Moreira,Miguel A. Pando,Luis F. Ramos,2018-08-18 This volume contains the proceedings of the 11th International Conference on Structural Analysis of Historical Constructions SAHC that

*Research on Economics and Administration and Social Sciences* Nesrin Demir,M. Fatih Sansar,2022-06-15 *Research on Economics and Administration and Social Sciences*      *Honored by the Glory of Islam* Marc David Baer,2008-01-02 In *Honored by the Glory of Islam* Marc David Baer proposes a novel approach to the historical record of Islamic conversions during the Ottoman age and gathers fresh insights concerning the nature of religious conversion itself Rather than explaining Ottoman Islamization in terms of the converts motives Baer instead concentrates on the proselytizers in this case none other than the sultan himself Mehmed IV 1648 87 is remembered as an aloof ruler whose ineffectual governing led to the disastrous siege of Vienna Through an integrated reading of previously unexamined Ottoman archival and literary texts Baer reexamines Mehmed IV s failings as a ruler by underscoring the sultan s zeal for bringing converts to Islam As an expression of his dedication to Islam Mehmed actively sought to establish his reputation as a convert maker convincing or compelling Christian and Jewish subjects to be honored by the glory of Islam and Muslims subjects to turn to Islamic piety Revising the conventional portrayal of a ruler so distracted by his passion for hunting that he neglected affairs of state Baer shows that Mehmed IV saw conversion as central to his role as sultan He traces an ever widening range of enforced piety conversion and conquest expanding outward from the heart of Mehmed IV s empire This account is the first to correlate the conversion of people and space in the mature Ottoman Empire to investigate conversion from the perspective of changing Ottoman ideology and to depict the sultan as an interventionist convert maker The resulting insights promise to rework our

understandings of the reign of a forgotten ruler a largely neglected period in Ottoman history the changing nature of Islam and its history in Europe relations between Muslims Christians and Jews in Europe the practice of jihad and religious architecture in urban history      *The State and the Tributary Mode of Production* John F. Haldon, 1993 In this groundbreaking critique of both traditional and Marxist notions of feudalism and of the pre capitalist state John Haldon considers the configuration of state and social relations in medieval Europe and Mughal India as well as in Byzantium and the Ottoman Empire He argues that a Marxist reading of the pre capitalist state can take account of the autonomy of power relations and avoid economic reductionism while still focusing on the forms of tribute which sustained the ruling power Haldon explores the conflicts to which these gave rise and shows the Ottoman state elite often held to be a clear example of independence from underlying social relations to be deeply enmeshed in economic relationships and the extraction of tribute Haldon argues that feudalism was the specifically European form of a much more widely diffused tributary mode whose characteristic social relations and structural constraints can be seen at work in the Byzantine Ottoman and Mughal empires as well While acknowledging the range of ideological and cultural variation within and between these examples of the tributary mode Haldon denies the thesis that such superstructural variations themselves yielded fundamentally contrasting social relations
