The African National Congress and the Regeneration of Political Power Susan Booysen,2011-11-11 The African National Congress is light years beyond the liberation movement of old It remains a juggernaut but its control and dominance are no longer watertight The ANC lives the contradictions of weaknesses cracks and factions while retaining its colossal status As a party movement it draws on its liberation credentials and extracts immense power from its deep anchorage in South Africa s people It is immersed in electoral politics that marks the state of its overwhelming power cyclically As government the ANC is the object of protest but not protest designed to bring the ruling party to its knees The ANC is in command of the state yet fails to definitively counter the deficits that make South Africa s democracy seem so diluted Its incredulous and thus far trusting supporters condemn but only rarely punish deployees who do not pass through the eye of the needle The ANC and the Regeneration of Political Power unpacks these contradictions It focuses on four faces of the ANC s political power the organisation the people political parties and elections and policy and government and explores how the ANC has acted since 1994 to continuously regenerate its power By 2011 12 the power configurations around the ANC were converging to a conjuncture holding vexing

uncertainties This book presents insights into how South African politics in many ways synonymous with the politics of the ANC is likely to unfold in years and possibly decades to come *The ANC's War against Apartheid* Stephen R.

Davis,2018-02-02 This study of the armed wing of the African National Congress also contributes significantly to scholarship on liberation movements more broadly Gary Baines author of South Africa's Border War For nearly three decades the armed wing of the African National Congress ANC known as Umkhonto we Sizwe MK waged a violent revolutionary struggle against the apartheid state in South Africa Stephen Davis works with extensive oral testimonies and the heroic myths that were constructed after 1994 to offer a new history of this movement Davis deftly addresses the histories that reinforce the legitimacy of the ANC as a ruling party its longstanding entanglement with the South African Communist Party and efforts to consolidate a single narrative of struggle and renewal in concrete museums and memorials Davis shows that the history of MK is more complicated and ambiguous than previous laudatory accounts would have us believe and in doing so he discloses the contradictions of the liberation struggle as well as its political manifestations The African National Congress and Participatory Democracy Heidi Brooks,2019-08-15 This book examines the development of democratic thought in the African

National Congress ANC of South Africa with a focus on the movement's ideas about participatory democracy It makes particular reference to two key periods the 1980s people's power movement and the subsequent years of policy formulation from 1990 when the ANC began to design and implement a system of participatory democracy alongside a representative government Through the examination of historic documents and in depth interviews with former ANC activists government officials and those involved in policy development the author explores the inspiration for the party's commitment to establishing participatory democracy The book combines democratic theory and political and intellectual history to look at the role of popular participation as part of a broader trajectory of the ANC's democratic thought It critically engages with concepts used in the party's participatory discourse with a view to deepening our understanding of how ideas have shaped the construction of South Africa's democracy The South African Intelligence Services Kevin A. O'Brien,2010-11-01 This

book is the first full history of South African intelligence and provides a detailed examination of the various stages in the evolution of South Africa's intelligence organizations and structures Covering the apartheid period of 1948-90 the transition from apartheid to democracy of 1990-94 and the post apartheid period of new intelligence dispensation from 1994-2005 this book examines not only the apartheid government's intelligence dispensation and operations but also those of the African National Congress and its partner the South African Communist Party ANC SACP as well as those of other liberation movements and the independent homelands under the apartheid system Examining the civilian military and police intelligence structures and operations in all periods as well as the extraordinarily complicated apartheid government's security bureaucracy or securocracy and its structures and units the book discusses how South Africa's Cold War position influenced its relationships with various other world powers especially where intelligence co operation came to bear It

outlines South Africa's regional relationships and concerns the foremost being its activities in South West Africa Namibia and its relationship with Rhodesia through 1980 Finally it examines the various legislative and other governance bases for the existence and operations of South Africa's intelligence structures in all periods and the influences that such activities as the Rivonia Trial at one end of the history or the Truth and Reconciliation Commission at the other end had on the evolution of these intelligence questions throughout South Africa's modern history This book will be of great interest to all students of South African politics intelligence studies and international politics in general **Thabo Mbeki and the Battle for the Soul of the ANC** William Mervin Gumede, 2008-05-15

As a spokesman for a country a continent and the developing world Thabo Mbeki plays a crucial role in world politics but to many people he is an enigma Is this simply because Mbeki is a secretive man or are there complicated political factors at play In this book experienced journalist William Gumede pulls together the insights he has gained from years of reporting on the Mbeki presidency to create a sophisticated but readable account of South Africa's seat of power He explores the complex position that Mbeki occupies following in Nelson Mandela's footsteps heading a party with roots as a liberation movement and ruling an intensely divided country Revealing the political and personal tensions behind the scenes Gumede explains the forces that have created one of the world's most powerful and enigmatic leaders Covering Mbeki's attempts to modernise the economy and kick start an African Renaissance and investigating his controversial stance on issues from AIDS to Zimbabwe the book offers invaluable insights into the machinations behind political decisions that touch the lives of millions every day **One Hundred Years of the ANC**

Arianna Lissoni, Jon Soske, 2012-11-01 An examination of the ANC in its centennial year On 8 January 2012 the African National Congress ANC of South Africa the oldest African nationalist organisation on the continent celebrated its one hundredth anniversary This historic event has generated significant public debate within both the ANC and South African society at large There is no better time to critically reflect on the ANC's historical trajectory and struggle against colonialism and apartheid than in its centennial year One Hundred Years of the ANC is a collection of new work by renowned South African and international scholars Covering a broad chronological and geographical spectrum and using a diverse range of sources the contributors build upon but also extend the historiography of the ANC by tapping into marginal spaces in ANC history By moving away from the celebratory mode that has characterised much of the contemporary discussions on the centenary the contributors suggest that the relationship between the histories of earlier struggles and the present needs to be rethought in more complex terms Collectively the book chapters challenge hegemonic narratives that have become an established part of South Africa's national discourse since 1994 By opening up debate around controversial or obscured aspects of the ANC's century long history One hundred years of the ANC sets out an agenda for future research The book is directed at a wide readership with an interest in understanding the historical roots of South Africa's current politics will find this volume informative This book is based on a selection of papers presented at the One Hundred Years of the ANC Debating

Liberation Histories and Democracy Today Conference held at the University of Witwatersrand Johannesburg from 20-23 September 2011 **The African National Congress and the Negotiated Settlement in South Africa** Johannes Rantete, 1998 This exceptional and objective book focuses primarily on two broad themes of the ANC's political life during the South African transition in the early 1990s: its reconstruction inside South Africa as an organisation and its negotiated road to power *The Crisis of South African Foreign Policy* Matthew Graham, 2015-09-28 The emergence of a new democratic South Africa under Nelson Mandela was regarded as a high watermark for international ideals of human rights and democracy. Much was expected of the ANC in power, particularly that it would be able to translate its ideals into a coherent foreign policy for the African continent. Yet its foreign policy since 1994 has been mired in accusations of incoherence, contradiction and failure. Here, based on extensive archival research and interviews, Matthew Graham offers new ways of interpreting South Africa's foreign policy by investigating the continuities and discontinuities of the ANC's international relations from exile to political power. Charting the political intrigues during the country's transition from apartheid and the subsequent influences on Presidents Mandela and Mbeki, *The Crisis of South African Foreign Policy* makes a vital contribution to our understanding of why post-apartheid South Africa has failed to lead Africa on the world stage.
