Braddick, David L. Smith, 2011-06-09 This volume ranges widely across the social religious and political history of revolution in seventeenth century Britain and Ireland from contemporary responses to the outbreak of war to the critique of the post regicidal regimes from royalist counsels to Lilburne's politics and across the three Stuart kingdoms However all the essays engage with a central issue the ways in which individuals experienced the crises of mid seventeenth century Britain and Ireland and what that tells us about the nature of the Revolution as a whole Responding in particular to three influential lines of interpretation local religious and British the contributors all leading specialists in the field demonstrate that to comprehend the causes trajectory and consequences of the Revolution we must understand it as a human and dynamic experience as a process This volume reveals

how an understanding of these personal experiences can provide the basis on which to build up larger frameworks of interpretation *Huguenots in Later Stuart Britain* Robin Gwynn, 2015-06-01 The *Huguenots in Later Stuart Britain* is planned as one work to be published in three interlinking volumes titles publication dates detailed below It examines the history of the French communities in Britain from the Civil War which plunged them into turmoil to the Treaty of Utrecht in 1713 after which there was no realistic possibility that the Huguenots would be readmitted to France There is a particular focus on the decades of the 1680s and 1690s at once the most complex the most crucial and the most challenging alike for the refugees themselves and for subsequent historians The work opens with the Calvinist French speaking communities in England caught up in the Civil War They could not avoid it with many of their members largely assimilated into English society by the 1640s Generally they favoured the Parliamentary side but any victory was pyrrhic because the Interregnum supported the rights of Independent congregations which undermined their whole Calvinist structure Weakened by in fighting in the 1660s the old established French churches then had to reassert their right to exist in the face of a sometimes hostile restored monarchy and episcopacy a newly licenced French church emphasizing its Anglicanism and its loyalty to the crown and the challenges of the Plague and the Fire of London which burnt the largest French church in England to the ground They were still staggering to find their feet when the first trickle and then the full flood of new Huguenot immigration overwhelmed them As for the newly arriving Huguenot ministers not prepared for the England to which they came they found they had to resolve what was often an intense personal dilemma should they stand fast for the worship they had led in France or accept Anglican ways and if they did accept Anglicanism to what extent It is demonstrated that many ministers took the Anglican route although Volume II will show that the French communities as a whole old and new alike voted with their feet not to do so A substantial appendix provides a biographical account of over 600 ministers in the orbit of the French churches across this period Volume II Settlement Churches and the Role of London 978 1 84519 619 6 2017 Volume III The Huguenots and the Defeat of Louis XIV's France 978 1 84519 620 2 2020
