Thomas Inge, Dennis Hall, 2002 *The Culture of American College Radio* Samuel J. Sauls, 2000 They will find the ideas and answers about how to operate and develop a successful college radio station indispensable **BOOK JACKET** **Subject to Change : Guerrilla Television Revisited** Deirdre Boyle Professor of History New York University, 1997-02-25 Before the Internet camcorders and hundred channel cable systems predating the Information Superhighway and talk of cyber democracy there was guerilla television Part of the larger alternative media tide which swept the country in the late sixties guerilla television emerged when the arrival of lightweight affordable consumer video equipment made it possible for ordinary people to make their own television Fueled both by outrage at the day's events and by the writings of people like Marshall McLuhan Tom Wolfe and Hunter S Thompson the movement gained a manifesto in 1971 when Michael Shamberg and the raindance Corp published Guerilla Television As framed in this quixotic text the goal of the video guerilla was nothing less than a reshaping of the structure of information in America In Subject to Change Deirdre Boyle tells the fascinating story of the first TV generation's dream of remaking television and their frustrated attempts at democratizing the medium Interweaving the narratives of three very different video collectives from the 1970s TVTV Broadside TV and University Community Video Boyle offers a thought provoking account of an earlier electronic utopianism one with significant implications for today's debates over free speech public discourse and the information explosion **Changing Channels** Kay Mills, 2010-05-05 In the years before the civil rights era American broadcasting reflected the interests of the white mainstream especially in the South Today the face of local television throughout the nation mirrors the diversity of the local populations The impetus for change began in 1964 when the Office of Communication of the United Church of Christ and two black Mississippians Aaron Henry and Reverend R L T Smith challenged the

broadcasting license of WLBT an NBC affiliate in Jackson Mississippi The lawsuit was the catalyst that would bring social reform to American broadcasting This station in a city whose population was 40 percent black was charged with failure to give fair coverage to civil rights and to integration issues that were dominating the news Among offenses cited by the black population were the cancellation of a network interview with the civil rights attorney Thurgood Marshall and editorializing against the integration of the University of Mississippi However muscle money and a powerhouse Washington D C law firm were on the side of the station Despite the charges the Federal Communications Commission twice renewed the station s license Twice the challengers won appeals to the federal courts Warren Burger then a federal appeals court judge wrote decisions on both challenges The first ordered the FCC to allow public participation in its proceedings The second an unprecedented move took the license from WLBT This well told deeply researched history of the case covers the legal battles over their more than fifteen years and reports the ultimate victory for civil rights Aaron Henry a black civil rights leader and one of the plaintiffs became the station s chairman of the board WLBT s new manager William Dilday was the first black person in the South to hold such a position Burger s decision on this Mississippi case had widescale repercussions for it allowed community groups in other regions to challenge their stations and to negotiate for improved services and for the employment of minorities
