Jovanović,2011-01-01 International Handbook on the Economics of Integration edited by Miroslav Jovanovi provides timely and rich academic contributions to considerations of the widest array of integration related issues European integration has been providing an inspiration to a number of academics and researchers the Handbook is a recognition of the dynamic and strong solidarity of European integration At the same time the European Union often provided an example for integration schemes throughout the world which spread enormously since the mid 1990s Leading experts from all continents contributed to this Handbook which will be a valuable input into academic and policy making discussions and actions Jos Manuel Barroso President of the European Commission **Aanwinsten van de Centrale Bibliotheek (Queteletfonds)** Bibliothèque centrale (Fonds Quetelet),2001 **European Environmental Law Review** ,1998 **Political Leadership and the European Commission Presidency** Henriette Müller,2019-11-27 The EU s pluralistic nonhierarchical system of multilevel governance lacks clear structures of both government and opposition According to the EU treaties the presidency of the European Commission is thus not explicitly expected to exercise political leadership However the position cannot effectively be exercised without any demonstration of such leadership due to its many leadership functions Examining this curious mix of strong political demands weak institutional powers and need for political leadership this book systematically analyses the political leadership performance of the presidents of the European Commission throughout the process of European integration The basic argument is that Commission presidents matter not only in the process of European integration but that their impact varies according to how the different incumbents deal with the institutional structure and the situational circumstances and thus their available strategic choices The primary research question is thus What makes political leadership in European governance successful and to what extent and why do Commission presidents differ in their leadership performance In addressing this question this book departs from existing research on EU leadership which has to date often analysed either the EU s institutional structure and its potential for leadership or mainly focused on only the most recent incumbents in case study analyses Focusing on the multiterm European Commission presidents Walter Hallstein Jacques Delors and Jos Manuel Barroso this book conceptualizes their political leadership as a performance and thus systematically analyzes their agenda setting mediative institutional and public outreach performance over the entire course of their presidential terms *Current Developments in European Integration* Dirk Heremans,2004 The subjects dealt with in the papers include the relationship between the freedoms in the EC treaty and private international law financial regulation and supervision of banks the international insurance market and the Euro in the new member states **Discussion Paper Series** ,1996 *Routledge Handbook of the Economics of European Integration* Harald Badinger,Volker Nitsch,2015-10-05 Routledge Handbook of the Economics of European Integration

The 2004 Elections to the European Parliament J. Lodge, 2016-02-02 The 2004 election of the European Parliament marks something of a defining point in the history of European integration The 2004 elections seemed simultaneously mundane and an accepted feature of a sui generis system now accepted as a polity in its own right that a quarter of a century ago had seen politicians fiercely disputing the wisdom and desirability of the people directly electing a European Parliament at all
