Infantry ,1986      **Mailing List (Infantry School (U.S.))** ,1986      *The Politics of Speed* Simon Glezos,2013-03-01  
Everyone agrees that the world is accelerating With advances in communication transportation and information processing technologies it is clear that the pace of events in global politics is speeding up at an alarming rate The implications of this new speed however continue to be a significant source of debate Will acceleration lead to a more interconnected productive peaceful and humane world or a nightmarish descent into ecological devastation economic exploitation and increasingly violent warfare The Politics of Speed attempts to map the contours of the new global space of speed and investigates key issue areas including democratic governance warfare capitalism globalization and transnational activism to uncover the ways in which acceleration is shaping the world The book uses contemporary political theory especially the works of Deleuze and Guattari to develop an ontological account of speed showing how its effects are frequently far more complex and surprising than we might expect The result is an attempt to craft a way of engaging with global acceleration that might help avoid the dangers of speed while embracing the possibilities it provides us with to produce a safer more egalitarian democratic and pluralistic world      **Western Machinery and Steel World** ,1919      *Publishers Weekly* ,1985      The Hollywood War Machine Carl Boggs,Pollard Tom,2017-07-05 The newly expanded and revised edition of The Hollywood War Machine includes wide ranging exploration of numerous popular military themed films that have appeared in the close to a decade since the first edition was published Within the Hollywood movie community there has not been even the slightest decline in well financed pictures focusing on warfare and closely related motifs The second edition includes a new chapter on recent popular films and another that analyzes the relationship between these movies and the burgeoning gun culture in the United States marked in recent years by a dramatic increase in episodes of mass killings      **The Tradesman** John E.
