abuse can one regain a sense of life's possibilities and plunge headlong into their pursuit without defensively hardening the boundaries of the self Without immunizing it against the outside knowing that it is in the great outside of the world's roil and commotion that potential radically resides tooth to jowl with continued danger How to grapple with the horrors of the past without paradoxically binding oneself to them in a Sisyphean attempt to exorcize them through feats of memory and analysis terminable or interminable How not to own the past but repossess the future of that past In *The Perfect Mango* Erin Manning charts a path of resistance resilience and journeying toward health that is starkly different from the currently dominant identity based strategies She writes survival in what can best be described as a fabulatory autobiography that is rooted in real events but opens them up to each other and out to a different future The path is signposted with a motto implicit here subsequently expressed in the title of one of her works of philosophy always more than one If this is me what else If this is life once more Brian Massumi
