The Magic World Of The Xhosa:

The Magic World of the Xhosa Aubrey Elliot, 1970 Reading Hebrews and 1 Peter from Majority World Perspectives
Sofanit T. Abebe, Elizabeth W. Mburu, Abeneazer G. Urga, 2024-09-19 The contributors to this volume offer a bold re-reading of Hebrews and 1 Peter from the perspective of the Global South. The chapters provide enriching new hermeneutical and theological insights revealing facets of the text that may not at first be apparent to readers within a Eurocentric context. The volume is thus able to explore topics ranging from the authorship of Hebrews in the Ethiopian Orthodox tradition and the Batak reading of Christus Victor to a Xhosa perception of the solidarity and sacrifice of Jesus and intercultural readings of Christian identity in the context of persecution. With an introduction and final response by scholars from the Global North, this volume encourages awareness of how the Global South contributes to world Christianity. The Drumcafé's Traditional Music of South Africa Laurie Levine, 2005 Track list for accompanying CD p 266-273 Zulu Warriors John Laband, 2014-05-27 The Anglo Zulu War, the most famous of Britain's late nineteenth-century campaigns of colonial conquest, was not fought in isolation. Along with the two Anglo-Pedi wars, the Ninth Cape Frontier War and the Northern Border War, it was one in a brutal series of interconnected and overlapping wars which the British waged between 1877-1879 to crush and disarm the remaining independent black states of South Africa. Fusing the widely differing African and European perspectives on events, the author probes the fateful decisions taken by statesmen and military commanders, analyses military operations and their destructive impact on combatants and civilians alike, and explores why so many Africans chose to fight as auxiliaries and levies alongside the British instead of against them. Jacket **The Land Wars** John Laband, 2020-07-15 Perhaps the most explosive issue in South Africa today is the question of land ownership. The central theme in this country's colonial history is the dispossession of indigenous African societies by white settlers, and current calls for land restitution are based on this loss. Yet popular knowledge of the actual process by which Africans were deprived of their land is remarkably sketchy. This book recounts an important part of this history, describing how the Khoisan and Xhosa people were dispossessed and subjugated from the time that Europeans first arrived until the end of the Cape Frontier Wars, 1779-1878. The Land Wars traces the unfolding hostilities involving Dutch and British colonial authorities, trekboers and settlers, and the San, Khoikhoi, Xhosa, Mfengu, and Thembu people, as well as conflicts within these groups. In the process, it describes the loss of land by Africans to successive waves of white settlers as the colonial frontier inexorably advanced. The book does not shy away from controversial issues such as war atrocities committed by both sides or the expedient decision of some of the indigenous peoples to fight alongside the colonisers rather than against them. The Land Wars is an epic story featuring well-known figures such as Ngqika, Lord Charles Somerset and his son Henry Andries Stockenström, Hintsa, Harry Smith, Sandile Maqoma, Bartle Frere, and Sarhili, and events such as the arrival of the 1820 Settlers and the Xhosa cattle-killing. It is essential reading for anyone who wants to understand South Africa's past and present. **African Traditional Religion in South Africa**

Rovine, 2015-01-12 African Fashion Global Style provides a lively look at fashion international networks of style material culture and the world of African aesthetic expression Victoria L. Rovine introduces fashion designers whose work reflects African histories and cultures both conceptually and stylistically and demonstrates that dress styles associated with indigenous cultures may have all the hallmarks of high fashion Taking readers into the complexities of influence and inspiration manifested through fashion this book highlights the visually appealing widely accessible and highly adaptable styles of African dress that flourish on the global fashion market Built to Meet Needs: Cultural Issues in Vernacular Architecture Paul Oliver, 2007-06-07 The study of vernacular architecture explores the characteristics of domestic buildings in particular regions or localities and the many social and cultural factors that have contributed to their evolution In this book vernacular architecture specialist Paul Oliver brings together a wealth of information that spans over two decades and the whole globe Some previously unpublished papers as well as those only available in hard to find conference proceedings are brought together in one volume to form a fascinating reference for students and professional architects as well as all those involved with planning housing schemes in their home countries and overseas **Almanac of African Peoples and Nations** Mohamad Yakan, 2017-11-30 The peoples of Africa are neither ethnically culturally nor religiously homogeneous European colonial powers took little note of this reality in carving up the continent a fact reflected in the periodic outbreak of civil war since decolonialization Likewise Western European models of development whether in their liberal or Marxist manifestations have so far failed to meet African development needs The path to stability in Africa is through its people's character and goals Almanac of African Peoples and Nations provides an essential guide to the major ethnic groups of the African continent highlighting the major contributions and basic features of

each The Almanac reviews Africa's language families and their respective national and geographic concentrations explaining ethnic classification based on linguistic difference and including language groups that are not indigenous to Africa The major African peoples are then listed by country with a statistical breakdown on their respective shares in the total population of each country and maps indicating their concentration The major section of the volume includes a comprehensive listing and descriptive profile of each ethnic national and tribal group detailing their history customs economic systems and political and social organizations The Almanac points out as well which groups support revisionist political aspirations and shows the internal and external pressures they are subject to Yakan notes that African societies are not highly integrated and must support multitudes of influential sub cultures with conflicting agendas and loyalties Arguing that tribalism reflects Africa's historical experience and cultural heritage he sees the resolution of the continent's problems in consociational democracy proportional representation federalism or some form of autonomous rule Indigenous Management Practices in Africa Uchenna Uzo, Abel Kinoti Meru, 2018-08-10 Africa is fast becoming an investment destination for firms operating outside the continent and effective management is central to the realization of organizational goals This volume evaluates the need for management philosophies and theories that reflect the peculiarities of the African continent Southern Africa Cynthia L. Jenson-Elliott, 2003 Covers lifestyles of Southern African ethnic groups Arab and European influences religion culture and current problems facing Southern Africa Transforming the Church in Africa: Vernon E. Light, 2012-11-26 This book is a must read for serious Christians hoping to obey the Great Commission to make disciples in Africa Vernon strikes an admirable balance between academic depth and practical application helping us to appreciate the interface between the gospel of Jesus Christ and the traditional African worldview I heartily recommend this book to all thinking Christian leaders in Africa pastors teachers and missionaries Kevin G Smith DLitt PhD Vernon Light wrote this book with an apostolic passion in the way the apostles presented and proclaimed the Gospel to world religions and cultures It is an exciting study of African traditional religion and its relation to Christianity It shows that for Christianity to thrive and be relevant biblically and transformationally in Africa firstly Christian scholars and theologians are needed who understand and address Africa's traditional heritage and Western modern postmodern and pluralistic ideologies and secondly the Gospel must be contextually relevantly meaningfully and practically taught through an effective discipleship program The book based on extensive research and massive use of resources is a valuable tool for students pastors scholars and theologians interested in the state of Christianity and religious change in Africa Professor Yusufu Turaki PhD Much more than being a useful resource this is a book with a mission Like Jeremiah of old Jer 20 9 Vernon is a man with a passion and message from God to the society to which God has called him Like Jeremiah Vernon is totally convinced of the absolute truth of his message in the midst of a myriad of conflicting opinions and that his message will change society from disaster to hope Would that it is heard Professor David T Williams DTh The Rev Vernon E Light BSc BDHons MTh is a member of the academic staff at the South African
