The Making of Modern London, 1815-1914 Gavin Weightman, Stephen Humphries, 1983 The Cultural Construction of London's East End Paul Newland, 2008-01-01 Paul Newland's illuminating study explores the ways in which London's East End has been constituted in a wide variety of texts films novels poetry television shows newspapers and journals Newland argues that an idea or image of the East End which developed during the late nineteenth century continues to function in the twenty first century as an imaginative space in which continuing anxieties continue to be worked through concerning material progress and modernity rationality and irrationality ethnicity and Otherness class and its related systems of behaviour The Cultural Construction of London's East End offers detailed examinations of the ways in which the East End has been constructed in a range of texts including BBC Television's EastEnders Monica Ali s Brick Lane Walter Besant's All Sorts and Conditions of Men Thomas Burke's Limehouse Nights Peter Ackroyd's Hawksmoor films such as Piccadilly Sparrows Can t Sing The Long Good Friday From Hell The Elephant Man and Spider and in the work of Iain Russia and the Making of Modern Greek Identity, 1821-1844 Lucien J. Frary, 2015-06-11 The birth of the Greek Sinclair nation in 1830 was a pivotal event in modern European history and in the history of nation building in general As the first internationally recognized state to appear on the map of Europe since the French Revolution independent Greece provided a model for other national movements to emulate Throughout the process of nation formation in Greece the Russian Empire played a critical part Drawing upon a mass of previously fallow archival material most notably from Russian embassies and consulates this volume explores the role of Russia and the potent interaction of religion and politics in the making of modern Greek identity It deals particularly with the role of Eastern Orthodoxy in the transformation of the collective identity of the Greeks from the Ottoman Orthodox millet into the new Hellenic Christian imagined community Lucien J Frary provides the first comprehensive examination of Russian reactions to the establishment of the autocephalous Greek Church the earliest of its kind in the Orthodox Balkans and elucidates Russia's anger and disappointment during the Greek Constitutional Revolution of 1843 the leaders of which were Russophiles Employing Russian newspapers and thick journals of the era Frary probes responses within Russian reading circles to the reforms and revolutions taking place in the Greek kingdom More broadly the volume explores the making of Russian foreign policy during the reign of Nicholas I 1825 55 and provides a distinctively transnational perspective on the formation of modern identity The Mysteries of the Cities Stephen Knight, 2011-11-08 A popular crime genre in the nineteenth century urban mysteries have largely been ignored ever since This historical and critical text examines the origins of the innovative genre which grappled with the rise of enormous anonymous cities beginning in France in 1842 then spreading rapidly across the continent and to America and Australia Writers covered include Eugene Sue George Reynolds Paul Feval George Lippard Ned Buntline and Donald Cameron The Making of Holy Russia John Strickland, 2013-09-01 This book is a critical study of the interaction between the Russian

Church and society in the late 19th and early 20th century While other studies exist that draw attention to the voices in the Church typified as liberal in the years leading up to the Revolution this work introduces a wide range of conservative opinion that equally strove for spiritual renewal and the spread of the Gospel Grounded in original research conducted in the newly accessible libraries and archives of post Soviet Russia this study is intended to reveal the wider relevance of its topic to an ongoing discussion of the relationship between national or ethnic identities on the one hand and the self understanding of Orthodox Christianity as a universal and transformative faith on the other The Statesman's Year-book, 1928 A.L.A. Catalog, 1926 Isabella Mitchell Cooper, Marion Horton, 1926 An Age of Equipoise? Books in Print ,1986 Reassessing mid-Victorian Britain Martin Hewitt, 2017-07-05 The Age of Equipoise by W L Burn was published in 1964 and became a central text in the canon of interpretations of the Victorian period The book subsequently fell out of favour but recent claims to establish a new interpretative standard have paradoxically prompted reviewers to cast back to Burn s work as the orthodox standard against which such claims should be judged The essays in this volume by British and American contributors all engage to varying degrees with the notion of equipoise and how it can help to illuminate the mid Victorian period in ways which alternative formulations cannot Some of the chapters develop arguments embedded in Burn s own book others take up issues largely absent in The Age of Equipoise such as the position of children Britain's interaction with the wider world and the threats the period experienced to its concept of masculine identity Together the essays demonstrate the intricacy and turbulence of the forces of cohesion in Victorian society along with the success of that culture in achieving a working if shifting modus vivendi Moreover they substantiate the argument that whatever the limitations of Burn s work equipoise deserves rehabilitation as a powerful conceptual framework for making sense of mid Victorian Britain About the Editor Martin Hewitt is Director of the Leeds Centre for Victorian Studies and editor of the Journal of Victorian Culture With Robert Poole he has recently produced an edition of The Diaries of Samuel Bamford 1858 61 Sutton 2000 **Cumulative Book Index** ,1914 Great Land Rush and the Making of the Modern World, 1650-1900 John C. paradigmatic shift of the Euro centric perspective of modern world history **Empires and Colonies Ionathan** Hart, 2014-02-06 Empires and Colonies provides a thoroughgoing and lively exploration of the expansion of the seaborne empires of western Europe from the fifteenth century and how that process of expansion affected the world including its successor the United States Whilst providing special attention to Europe the book is careful to highlight the ambivalence and contradiction of that expansion The book also illuminates connections between empires and colonies as a theme in history concentrating on culture while also discussing the rich social economic and political dimensions of the story Furthermore Empires and Colonies recognizes that whilst a study of the expansion of Europe is an important part of world history it is not a history of the world per se The focus on culture is used to assert that areas and peoples that lack great economic power at any given time also deserve attention These alternative voices of slaves indigenous peoples and critics of empire and colonization are an important and compelling element of the book Empires and Colonies will be essential reading not only for students of imperial history but also for anyone interested in the makings of our modern world Strategic Culture and **Ways of War** Lawrence Sondhaus, 2006-08-21 This study will provide a badly needed survey and synopsis of the scholarly British Paperbacks in Print ,1985 literature on strategic culture and ways of war The Emergence of the Antique and Curiosity Dealer in Britain 1815-1850 Mark Westgarth, 2020-04-07 Rather than the customary focus on the activities of individual collectors The Emergence of the Antique and Curiosity Dealer in Britain 1815 1850 The Commodification of Historical Objects illuminates the less studied roles played by dealers in the nineteenthcentury antique and curiosity markets Set against the recent art market turn in scholarly literature this volume examines the role activities agency and influence of antique and curiosity dealers as they emerged in the opening decades of the nineteenth century. This study begins at the end of the Napoleonic Wars when dealers began their wholesale importations of historical objects it closes during the 1850s after which the trade became increasingly specialised reflecting the rise of historical museums such as the South Kensington Museum V A Focusing on the archive of the early nineteenth century London dealer John Coleman Isaac c 1803 1887 as well as drawing on a wide range of other archival and contextual material Mark Westgarth considers the emergence of the dealer in relation to a broad historical and cultural landscape The emergence of the antique and curiosity dealer was part of the rapid economic social political and cultural change of early nineteenth century Britain centred around ideas of antiquarianism the commercialisation of culture and a distinctive and evolving interest in historical objects This book will be of interest to scholars in art history histories of collecting museum and heritage studies and nineteenth century culture Piracy Adrian Johns, 2010-01-15 Since the rise of Napster and other file sharing services in its wake most of us have

<u>Piracy</u> Adrian Johns, 2010-01-15 Since the rise of Napster and other file sharing services in its wake most of us have assumed that intellectual piracy is a product of the digital age and that it threatens creative expression as never before The Motion Picture Association of America for instance claimed that in 2005 the film industry lost 2 3 billion in revenue to piracy online But here Adrian Johns shows that piracy has a much longer and more vital history than we have realized one that has

been largely forgotten and is little understood Piracy explores the intellectual property wars from the advent of print culture in the fifteenth century to the reign of the Internet in the twenty first Brimming with broader implications for today s debates over open access fair use free culture and the like Johns's book ultimately argues that piracy has always stood at the center of our attempts to reconcile creativity and commerce and that piracy has been an engine of social technological and intellectual innovations as often as it has been their adversary From Cervantes to Sonny Bono from Maria Callas to Microsoft from Grub Street to Google no chapter in the story of piracy evades Johns's graceful analysis in what will be the definitive The Bourgeois Franco Moretti, 2013-06-04 The bourgeois Not so long ago this history of the subject for years to come notion seemed indispensable to social analysis these days one might go years without hearing it mentioned Capitalism is more powerful than ever but its human embodiment seems to have vanished I am a member of the bourgeois class feel myself to be such and have been brought up on its opinions and ideals wrote Max Weber in 1895 Who could repeat these words today Bourgeois opinions and ideals what are they Thus begins Franco Moretti s study of the bourgeois in modern European literature a major new analysis of the once dominant culture and its literary decline and fall Moretti's gallery of individual portraits is entwined with the analysis of specific keywords useful and earnest efficiency influence comfort roba and of the formal mutations of the medium of prose From the working master of the opening chapter through the seriousness of nineteenth century novels the conservative hegemony of Victorian Britain the national malformations of the Southern and Eastern periphery and the radical self critique of Ibsen's twelve play cycle the book charts the vicissitudes of bourgeois culture exploring the causes for its historical weakness and for its current irrelevance
