THE MAKING OF THE MAYOR

The Making Of The Mayor Of Chicago 1983

Lana Stein

The Making Of The Mayor Of Chicago 1983:

The Making of the Mayor, Chicago, 1983 Melvin G. Holli, 1984 Demonstrates Chicago's roughhouse style of politics during the 1983 mayoral primary and subsequent general election *Harold, the People's Mayor* Dempsey Travis, 2017-12-12 Harold Washington was one of the most spellbinding and irresistible characters I have encountered in my 40 years in journalism and politics Part philosopher part street brawler and always entertaining Harold was as big and ebullient as the town he came to lead David Axelrod former senior advisor to President Barack Obama Harold the People's Mayor is the authorized biography of Chicago's first black mayor written by the late civil rights activist and prolific author Dempsey Travis a man whose personal friendship with Washington spanned more than 50 years Travis drew on recollections notes and several hundred hours worth of interviews with Washington and his close associates in order to craft a portrait of Washington that spans his childhood military years political career and death Travis gained deep insights into Washington during the years he knew him both as a boy and a man and those combined with his encyclopedic knowledge of Chicago politics have resulted in an essential work of political biography and Chicago history Published to commemorate the 30th anniversary of Washington's untimely passing this is a firsthand personal account of the life and career of one of the country's most significant big city mayors and influential African American politicians a man who former President Barack Obama credits as an inspiration Moving comprehensive and well researched *Harold the People's Mayor* is required reading for anyone interested in 20th century big city politics and in this remarkable figure and how he lived worked and rose to transform the political landscape of Chicago **The Making of Urban America** Raymond A. Mohl, Roger Biles, 2023-10-03 The revised and updated third edition of *The Making of Urban America* includes seven new articles and a richly detailed historiographical essay that discusses the vast urban history literature added to the canon since the publication of the second edition The authors extensively revised introductions and the fifteen reprinted articles trace urban development from the preindustrial city to the twentieth century city With emphasis on the social economic political commercial and cultural aspects of urban history these essays illustrate the growth and change that created modern day urban life Dynamic topics such as technology immigration and ethnicity suburbanization sunbelt cities urban political history and planning and housing are examined *The Making of Urban America* is the only reader available that covers all of U S urban history and that also includes the most recent interpretive scholarship on the subject *The Art of Revitalization* Sean Zielenbach, 2002-05-03 Focusing on two Chicago neighbourhoods as case studies this text examines the regional and national factors that affect urban development as well as the specific local characteristics that impact revitalization **Parameters**, 1987 **Race, Power, and Political Emergence in Memphis** Sharon D. Wright, 2021-12-12 *Race Power and Political Emergence in Memphis* examines black political behavior and empowerment strategies in the city of Memphis Each chapter of the text focuses on three themes mobilization emergence and incorporation By analyzing the effects of race on black political

development in Memphis scholars will be able to examine broader questions about its effects in other cities How do political machines use substantial black electorates to their advantage What forms of protest do black communities conduct to rebel against machine rule What primary mobilization tactics have black citizens used during the different periods of their political development Why do blacks mobilize more quickly in some cities In cities with large and predominantly black populations what elements prevent black candidates from winning citywide races What constraints do newly elected black mayors face What benefits do black citizens gain from their representation After a predominantly black governing coalition is elected what obstacles remain Can black citizens translate proportional representation into strong political incorporation How much power can African Americans realistically expect to gain in cities This book is the most comprehensive case study of the city's political scene written to date The text primarily shows that white racism is not the only obstacle to black political development Black citizens can have population majorities but lose elections for other reasons Their ability to win elections and gain full incorporation depends heavily on whether they minimize internal conflict and establish coalitions with middle class citizens and the business establishment

The U.S. Supreme Court and the Electoral Process David K. Ryden, 2002-09-06 The U S Supreme Court at least until Bush v Gore had seemed to float along in an apolitical haze in the mind of the electorate It was the executive branch and the legislative branch that mucked about in politics getting dirty the judicial branch kept its robes and nose clean The U S Supreme Court and the Electoral Process makes it abundantly clear however that before during and after the judicial decision that made George W Bush the President of the United States everything was is and will likely be politics including the decisions handed down by the highest court in the land This revised and updated edition takes into account not only the recent famous or infamous depending on the reader's point of view judicial decision on the Presidency but a myriad of others as well in which the U S Supreme Court has considered the constitutionality of a wide range of issues involving voting and elections representation and political participation Practitioners and academics in both law and political science examine a number of court actions that directly affect how we choose those who govern us and how those decisions have affected our electoral politics constitutional doctrine and the fundamental concepts of democracy including racial redistricting term limits political patronage campaign finance regulations third party ballot access and state ballot initiatives limiting civil liberties Of the first edition CHOICE said The U S Supreme Court and the Electoral Process plumbs the Supreme Court's constitutive apolitical role as primary shaper of the electoral system and reveals the pervasive involvement of the Court in the political process

The Mass Media and Latino Politics Federico Subervi-Velez, 2009-03-04 The Latin American population has become a major force in American politics in recent years with expanding influences in local state and national elections The candidates in the 2004 campaign wooed Latino voters by speaking Spanish to Latino audiences and courting Latino groups and PACs Recognizing the rising influence of the Latino population in the United States Federico Subervi Velez has put together this edited volume examining various

aspects of the Latino and media landscape including media coverage in English and Spanish language media campaigns and survey research

St. Louis Politics Lana Stein, 2002 There are two defining moments in St Louis political history the 1876 divorce of the city from its county and the 1914 charter adoption The institutions created at these times produced a factional and fragmented city government thoroughly grounded in machine politics Stein examines major themes in urban politics over the last century race redevelopment suburbanization and leadership St Louis mayors must deal with the comptroller and the president of the board of aldermen plus twenty eight aldermen elected from wards State law says the city must also have eight county offices offices that perform county functions for the city Power is difficult to amass in this factional and fragmented universe In St Louis politics consensus building and alliances can prove to be more important than election night victory St Louis s political culture stems from the city s fragmented nature Its philosophy is often you go along to get along or go home from the dance with the guy that brung you Individual friendships are of great importance Within this environment class and racial cleavages also affect political decision making Although St Louis elected its first African American official in 1918 genuine political incorporation has been long in coming Several decades ago issues of class and race prevented St Louis from adopting a new charter with more streamlined public offices Today some St Louisans cry out for home rule and governmental reform Stein s work helps to demonstrate that institutions structure political behavior and outcomes Changing institutions can make a difference after political culture adapts to the new playing field

Who Ran the Cities? Ralf Roth, 2017-03-02 The question of who actually ran cities in the eighteenth nineteenth and twentieth centuries has been increasingly debated in recent years As well as trying to understand the distribution of political power and the rise of broad political participation urban historians have questioned how and whether elites retained influence in municipal government The essays in this collection provide a detailed examination of the relationship between urban elites and the exercise of power bringing together economic social and cultural history with the political history of power resources and decision making The volume challenges common perceptions of a monolithic urban elite by looking at specific case studies Collectively these essays provide a more sophisticated view of the exercise of urban power as the negotiation of various elite groups defined by their economic social political or cultural privilege To contribute to this complex account of the history of cities elites and their influence the collection applies a range of methodological approaches to studying European and American cities as well as the wider world

Racial Politics at the Crossroads Marcus D. Pohlmann, 1996 In one of the closest and most racially polarized elections in the history of urban America Dr W W Herenton in 1991 became the first African American mayor of Memphis *Racial Politics at the Crossroads* is an in depth case study of that election exploring the unique circumstances that produced the outcome As Marcus Pohlmann and Michael Kirby explain politics in Memphis had by 1991 reached what they call a point of racial reflexivity One of the key factors that had helped elect black mayors in other cities a significant level of white liberal support for the African American candidate was largely absent in Memphis Instead

the racial chasm was so wide that it precluded any cross racial appeals by either candidate and consequently the mayoral contest between Herenton and incumbent Richard Hackett consisted of parallel campaigns Rather than engage each other in debate of the issues or the usual pattern of attacks and counterattacks the two candidates concentrated on turning out and registering their own racial constituencies Herenton s success in the end hinged on the mobilization of an extraordinary level of black support in combination with critical demographic and legal factors The authors suggest that the election might easily have gone the other way if for example Memphis had been allowed to continue its annexation of predominantly white suburbs The authors analyze the election in the context of the city s history of racial politics and contrast the political dynamics of Memphis with that of other cities Finally in an epilogue written in light of Herenton s decisive 1995 reelection in which he faced only token opposition the authors conclude that bridging the black white divide in Memphis will continue to be the greatest challenge facing Herenton s administration but that the most recent election results do suggest that a significant step has been made in that direction

The Authors Marcus D Pohlmann is professor of political science at Rhodes College in Memphis and the author most recently of *Governing the Postindustrial City* Michael P Kirby associate professor of political science at Rhodes has written extensively for scholarly journals *Dirty Politics* Kathleen Hall Jamieson,1993 In recent years Americans have become thoroughly disenchanted with political campaigns especially with ads and speeches that bombard them with sensational images while avoiding significant issues Now campaign analyst Kathleen Hall Jamieson provides an eye opening look at the tactics used by political advertisers Photos and line drawings **The Caribbeanization of Black Politics** Sharon D. Wright Austin,2018-03-01 In *The Caribbeanization of Black Politics* Sharon D Wright Austin explores the impact of ethnic diversification of African American communities on the prospects for black political empowerment Focusing on Boston Chicago Miami and New York City cities that for the last several years have experienced an influx of black immigrants she surveyed more than two thousand African Americans Cape Verdeans Haitians and West Indians Although many studies conclude that African American group consciousness causes them to participate in politics at higher rates when socioeconomic status is controlled for Wright Austin analyzes whether this is true for other black groups She assesses the current political incorporation of these groups by looking at data on public officeholders and by examining political coalitions and conflicts among the groups and she also discusses the possible future of black political development in these cities **Dawn Clark Netsch** Cynthia Grant Bowman,2010-01-20 Bowman s eminently readable account discovers a *rara avis* in Illinois state politics a woman of character who lost neither her genteel yet unpretentious demeanor nor her passion for the progressive politics she shared with her early mentor Governor Adlai E Stevenson from book jacket [The Mayors](#) Paul M. Green,Melvin G. Holli,2013-01-10 Originally released in 1987 *The Mayors The Chicago Political Tradition* gathered some of the finest minds in political thought to provide shrewd analysis of Chicago s mayors and their administrations Twenty five years later this fourth edition continues to illuminate the careers of some of Chicago s most

respected forceful and even notorious mayors leaders whose lives were often as vibrant and eclectic as the city they served In addition to chapters on the individual mayors including a new chapter on Rahm Emanuel enhanced by an expert explanation of the current state of the city s budget by Laurence Msall president of the Civic Federation this new edition offers an insightful overview of the Chicago mayoral tradition throughout the city s history rankings of the mayors evaluated on their leadership and political qualities an appendix of Chicago s mayors and their years of service and additional updated materials Chicago s mayoral history is one of corruption and reform scandal and ambition This well researched volume more relevant than ever twenty five years after its first edition presents an intriguing and informative glimpse into the fascinating lives and legacies of Chicago s most influential leaders

Running for Freedom Steven F. Lawson, 2014-11-10 Running for Freedom Fourth Edition updates historian Steven Lawson s classic volume detailing the history of African American civil rights and black politics from the beginning of World War II to the present day Offers comprehensive coverage of the African American struggle for civil rights in the U S from 1941 to 2014 Integrates events relating to America s civil rights story at both the local and national levels Features new material on Obama s first term in office and the first year of his second term Includes addition of such timely issues as the Trayvon Martin case the March on Washington 50th anniversary state voter suppression efforts and Supreme Court ruling on Voting Rights Act

Subordination or Empowerment? Richard A. Keiser, 1997-09-18 Why have Blacks won political empowerment in some cities and in others remained subordinated or had their achievements rolled back Why do some cities have many Black leaders with multi racial appeal while other cities have none Subordination or Empowerment answers these questions through detailed historical examinations of the Black struggle for political power in Chicago Gary Philadelphia and Atlanta Keiser argues that electoral competition among White factions has created opportunities for Black leaders to win genuine political empowerment and avoid subordination When electoral competition among Whites does not exist Black votes lose their electoral leverage leading to the rise of extra electoral strategies Keiser s dynamic theory of leadership formation explains the current appeal of Black separatism and messianism at the local and national levels and the consequent rise of leaders such as Louis Farakhan and offers a rejoinder to Cornel West s critique of Black leadership in Race Matters

Black Politics After the Civil Rights Movement David Covin, 2009-04-22 This important study posits a new way of understanding how ordinary Black people used the 30 years following the civil rights movement to forge a new political reality for themselves and their country While following national trends closely it focuses particularly on the political environment of Sacramento California from 1970 to 2000 Having a racial profile that is remarkably similar to the nation s demographics as a whole Sacramento serves as a useful national proxy on the racial question Unlike most studies of Black politics over the era this text pays close attention to minor actors in the political process yet places them within the context of the larger political world We see for example the local effects of the War on Poverty the Harold Washington mayoral campaigns the Rainbow Coalition the Million Man March and the great

increases in locally appointed and elected Black officials within the context of similar campaigns and movements nationwide

Ebony ,1984-01 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine The South Side Natalie Y. Moore,2016-03-22 One of Buzzfeed s 18 Best Nonfiction Books Of 2016 A lyrical intelligent authentic and necessary look at the intersection of race and class in Chicago a Great American City In this intelligent and highly important narrative Chicago native Natalie Moore shines a light on contemporary segregation in the city s South Side with a memoirist s eye she showcases the lives of these communities through the stories of people who reside there The South Side shows the impact of Chicago s historic segregation and the ongoing policies that keep the system intact
