Ladd, 2020-09-30 This behind the scenes account of a USAF career is an absorbing read written with the classic humor fighter pilots seem to have Flight Line Book Review From Baron von Richthofen to Robin Olds the mystique of the fighter pilot endures The skill cunning and bravery that characterizes this distinctive band of brothers is well known but there are other dimensions to those who take to the skies to do battle that have not been given the emphasis they deserve until now You don't have to be an aviation afficionado to enjoy Colonel Steve Ladd's fascinating personal tale woven around his twenty eight year career as a fighter pilot This extremely engaging account follows a young man from basic pilot training to senior command through narratives that define a unique ethos From the United States to

Southeast Asia Europe to the Middle East the amusing and tongue in cheek to the deadly serious and poignant this is the lifelong journey of a fighter pilot The anecdotes are absorbing providing an insight into life as an Air Force pilot but in this book as Colonel Ladd stresses the focus is not on fireworks or stirring tales of derring do Instead this is an articulate and absorbing account of what life is really like among a rare breed of arrogant cocky boisterous and fun loving young men who readily transform into steely professionals at the controls of a fighter aircraft This book will appeal to a variety of readers with its Vietnam War combat stories and accounts of flying the Warthog in Cold War Europe Fun flying international The Aircraft-Spotter's Film and Television Companion experiences you won t want to put it down Aviation News Simon D. Boyne, 2001 Eddie Rickenbacker Hub Zemke Boots Blesse and Robin Olds are in the pantheon of American fighter aces Their names are familiar to many but there has never been a book that examined their brilliant leadership ability as well as their aerial prowess These four men were all robust personalities difficult to discipline and more often than not thorns in the sides of their commanders Each of these elite pilots burned to become the leading ace of his time These qualities were not unique However the achievements of these men were extraordinary even for the miniscule percentage of fighter pilots who ever became aces Rickenbacker Zemke Blesse and Olds distinguished themselves by becoming force multipliers they used their leadership skills instinctive knowledge of air warfare and superior piloting abilities to make the other pilots in their units better warriors. These men put their units interest ahead of every other goal and in the process made their units far more effective Instead of using their skills merely to achieve personal glory they trained units that produced multiple aces while achieving ace status themselves Renowned aviation historian Walter Boyne details the careers of these legendary aces but also explains the reasons why these pilots achieved such great success as aces and leaders Boyne's fascinating narrative puts you in the cockpits of fighter planes that varied vastly in technology against enemies of ever increasing capability in World War I World War II Korea and Vietnam Aces in Command takes you in a SPAD XIII with Rickenbacker over the Western Front It puts you in a P 47 Thunderbolt with Zemke over Germany breaking all the rules but shooting down Germans Then you fly with Blesse in a Sabre getting your victories deep inside North Korean lines but never losing a wingman Finally it tells you of the exploits of the maverick Robin Olds in two wars learning the trade in a P 38 Lightning during World War II and later using all he learned to whip a F 4 Phantom wing into shape in Vietnam Despite the differences among the planes and jets of each era Boyne makes a strong case that

Rickenbacker Zemke Blesse and Olds could have been aces in any era More importantly he reveals the characteristics and common denominators that made these aces superior combat leaders BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Flight** ,1909 The Air Reservist ,1959 U.S. Armed Forces **United States Armed Forces Medical Journal** ,1954 Medical Journal ,1954 Who's who of NASA Astronauts Lee Ellis, 2004 Who s Who of NASA Astronauts presents the biographical information of all 367 NASA astronauts along with their mission facts From the original Mercury 7 selected in 1959 to the present day Space Shuttle astronauts working on the International Space Station this book contains the personal history education honors received affiliated organizations and the Soldaten - On Fighting, Killing and Dying Sonke Neitzel, Harald Welzer, 2012-09-25 In NASA experience of each astronaut November 2001 as the world still reeled from the attack on the Twin Towers German historian Sonke Neitzel discovered an extraordinary cache of documents from the Second World War The documents were the transcripts of German prisoners of war talking among themselves in prisoner of war camps and secretly recorded by the allies In these apparently private conversations the soldiers talked freely and openly about their hopes and fears their concerns and their day to day lives With a banality and ease which to the modern reader can appear shocking they also talked about the horrors of war about rape death and killing Sonke Neitzel shared the material with renowned and bestselling psychologist Harald Wezler and they set about trying to make sense of the vast piles of documents the hours of transcripts The result is SOLDATEN a landmark book which will change the way we look at soldiers and war and is as relevant to our modern conflicts in Iraq and Afghanistan as it was to the soldiers of the German Army in 1945 Published to huge acclaim and controversy in Germany it was a number one bestseller there and reignited the debate about the banality of evil under the Nazi regime **American Military Leaders** John C.
