*The Man of the Renaissance* Ralph Roeder, 1963      *The Man of the Renaissance* Ralph Roeder, 1958      **Renaissance Lawgivers** Ralph Roeder, 2011-06-01 Originally published under title *The man of the Renaissance* New York Viking 1933 With new introd      **Renaissance Lawgivers** Ralph Roeder, 2017-07-12 The Italian Renaissance culminated between the years 1494 and 1530 The figures examined in this classic volume illustrate four key figures representing the moral life of the period The usual picture of that period is one of exuberant energy and positive achievement Roeder reminds us that it was also one of moral travail and misery Its triumphs are preserved in art its reverses in its spiritual story Both were the product of the same source the period s spiritual vitality The book is written with a sharp eye for detail and no less a keen appreciation of what made the Italian Renaissance a gold mine in ideas no less than in art and literature In the broadest sense the Italian Renaissance can be described as one of those crises in cultural affairs that bursts accepted codes and allows for the free expression of instinct and experience in human conduct Roeder notes that such special moments are not accomplished without resistance or completed without reaction In Italy the struggle was peculiarly acute because of the high civilization achieved and the intense individualism it generated It was a period in which unbridled individualism came face to face with civilization and a cherished humanity The brief period of 1494 to 1530 marked the pinnacle of the Italian Renaissance s artistic development and the crisis of its religious political and social disintegration In the lives of the four protagonists examined in this period Roeder traces how they complemented as well as conflicted with each other These four lawgivers sought to deal with the lawlessness of nature and its emphasis on chance and freedom as well as the need to master the physical world and the life of the spirit They did so by the uses of intelligence by appeals to the moral compass embodied by the law and in the spirit of nationalism and patriotism This is an unusually provocative effort written on a large canvas of four larger than life figures      *The Man of the Renaissance* Ralph Roeder, 1933      **The Impotency Poem from Ancient Latin to Restoration English Literature** Hannah Lavery, 2016-03-03 The first book length study of the motif of impotency in poetry from early antiquity through to the late Restoration this book explores the impotency poem as a recognisable form of poetry in the longer tradition of erotic elegy Hannah Lavery s central claim is that the impotency motif is adopted by poets in recognition of its potential to signify satirically through its use as symbol and allegory By drawing together analysis of works in the tradition Lavery shows how the impotency motif is used to engage with anxieties as to what it means to enact service within political and social contexts She demonstrates that impotency poems can be seen on one level to represent bawdy escapism but on the other to offer positions of resistance and opposition to social and political concerns contemporary to a particular time Whilst the link between the Imperfect Enjoyment poems by Ovid and Rochester is well known Lavery here looks further back to the origins of the concept of male impotency as degradation in the works of earlier Roman poets This is an important context for considering how the impotency poem then first appears in the French

and English vernaculars during the sixteenth century leading to translations and adaptations throughout the seventeenth century Lavery's close readings of the poems consider both the nature of the literary form and the political and social contexts within which the works appear in order to chart the intertextual development of the impotency poem as a distinct form of writing in the early modern period
