gestures contribute to the characters visual identity in relation with speech it analyzes the cultural social aesthetic and theatrical conventions by which spectators decipher the body This study thus leads to a re examination of the modalities of comic mimesis in particular when addressing sexual codes in cross dressing scenes which reveal the artifice of the fictional body It also sheds light on how comic poets make use of the scenic or imaginary representations of the bodies of those who are targets of political social or intellectual satire There is a particular emphasis on body movements where the book not only deals with body language and the dramatic function of comic gesture but also with how words confer a kind of poetic and unreal motion to the body
