The Management Regulation Of Banks:

Regulation and Supervision of Bank Senior Management in Light of Prudential Corporate Governance

Kimberley S. Rothwell, 2024-10-03 Ongoing conduct issues in the banking sector have sparked global discussions on the effectiveness of the corporate governance of these institutions This dissertation commences by exploring the internationally evolving regulatory landscape of prudential corporate governance and the role of bank senior management within these frameworks using a law and economics perspective Two model jurisdictions the United Kingdom and the Netherlands are identified as pioneers with their emerging approaches to tackle the persisting challenges Against this backdrop the study turns to Switzerland It fills the gap of a comprehensive supervisory law analysis of bank senior management For this purpose the fragmented provisions are distilled from their institutional embedding and structured along the supervisory law life cycle of authorisation ongoing supervision and enforcement Along each phase the respective novel approaches from the model jurisdictions are presented Through these analyses the dissertation identifies gaps and inefficiencies in the Swiss supervisory law framework These findings are synthesised in order to gain a holistic view of the current setup Concluding future pathways for Switzerland are presented also inspired by international developments to propose a more structured robust and efficient framework for the regulatory oversight of the senior management of Swiss banks

The Impact of Regulation on Remuneration in Banks. An Analysis of EU, UK and German Law Maxim Hohmann, 2017-02 The excessive risk taking at banks might account for the failure of financial undertakings as well as to systemic problems in the European Union and around the world The inappropriate design of remuneration systems in many financial institutions is reported to induce such risk taking The EU regulators have intervened through legislative measures which have been differently implemented in Member States Such legislative measures face critics due to the restriction in banks freedom of business However this book will point out that

regulations are necessary and can be justified in order to protect the common good of a sound functioning financial market Nevertheless the effectiveness of current legislative provisions is challenged Therefore this book will critically analyse the legislation of bankers remuneration focussing on relevant EU UK and German measures **Principles of Banking**
