The Lunatic Express An Entertainment In Imperialism:

The Lunatic Express Charles Miller, 2015-07-13 In 1895 George Whitehouse arrived at the east African post of Mombasa to perform an engineering miracle the building of the Mombasa Nairobi Lake Victoria Railway a 600 mile route that was largely unmapped and barely explored Behind Mombasa lay a scorched waterless desert Beyond a horizonless scrub country climbed toward a jagged volcanic region bisected by the Great Rift Valley A hundred miles of sponge like quagmire marked the railway's last lap The entire right of way bristled with hostile tribes teemed with lions and breathed malaria What was the purpose of this giant folly and whom would it benefit Was it to exploit the rumoured wealth of little known central African kingdoms Was it to destroy the slave trade To encourage commerce and settlement THE LUNATIC EXPRESS explores the building of this great railway in an earlier Africa of slave and ivory empires of tribal monarchs and the vast lands that they ruled Above all it is the story of the white intruders whose combination of avarice honour and tenacious courage made them a breed apart *The Lunatic Express* Charles Miller, 2001 *The Lunatic Express* Charles Miller, 1987 **The Lunatic Express** Charles Miller, 1977 *The Nile* John A. Shoup, 2017-05-12 This book provides an avenue for students to explore the Nile the world's longest river and better understand its larger role in society in the past present and future The Nile River has been the most important natural resource for Egyptians and other Africans who live along its shores for thousands of years bringing life to an otherwise arid and bleak desert region Without the Nile civilizations in Egypt could not have achieved such success The physical cultural religious and political impacts of this mighty riverway are enormous This one volume encyclopedia explores a breadth of topics related to the Nile River from ancient irrigation techniques to 19th century exploration and from current environmental controversies to concerns regarding man made Lake Nasser Readers will be able to explore beyond the physical aspects of the world's longest river to achieve an understanding of the Nile River's larger role in society After a preface and introduction that provides general background information on the source tributaries and mouth of the Nile the encyclopedia presents thematic essays that cover topics such as the Nile's physical geography history environmental issues and controversies culture religion and legend and politics More than 100 entries cover key individuals specific locations geology and structure significant expeditions gods and deities and folklore related to the Nile In addition the work provides an appendix of primary document excerpts from explorers journals and more recent legislation on damming as well as an appendix of place names interesting sidebars and a helpful chronology of key events The White Spaces of Kenyan Settler Writing Terrence L. Craig, 2017-03-27 The White Spaces of Kenyan Settler Writing provides an overview of Kenyan literature by white writers in the half century before Independence in 1964 Such literature has been overshadowed by that of black writers to the point of critical ostracism It deserves attention for its own sake as the expression of a community that hoped for permanence but suffered both disappointment and dispossession It deserves attention for its articulation of an increasingly desperate colonial and Imperial situation at a time when both were being attacked and

abandoned in Africa as in other colonies elsewhere and when a counter discourse was being constructed by writers in Britain as well as in Africa Kenya was likely the best known twentieth century colony for it attracted publicity for its iconic safaris and its Happy Valley scandals Yet behind such scenes were settlers who had taken over lands from the native peoples and who were trying to make a future for themselves based on the labour willing or forced of those people This situation can be seen as a microcosm of one colonial exercise and can illuminate the historical tensions of such times The bibliography is an attempt to collect the literary resources of white Kenya in this historically significant period

Communications in Africa, 1880-1939, Volume 4 David Sunderland, 2017-07-05 This collection presents rare documents relating to the development of various forms of communication across Africa by the British as part of their economic investment in Africa Railways and waterways are examined

Imperial Reckoning Caroline Elkins, 2010-04-01 A major work of history that for the first time reveals the violence and terror at the heart of Britain's civilizing mission in Kenya As part of the Allied forces thousands of Kenyans fought alongside the British in World War II But just a few years after the defeat of Hitler the British colonial government detained nearly the entire population of Kenya's largest ethnic minority the Kikuyu some one and a half million people The compelling story of the system of prisons and work camps where thousands met their deaths has remained largely untold the victim of a determined effort by the British to destroy all official records of their attempts to stop the Mau Mau uprising the Kikuyu people's ultimately successful bid for Kenyan independence Caroline Elkins an assistant professor of history at Harvard University spent a decade in London Nairobi and the Kenyan countryside interviewing hundreds of Kikuyu men and women who survived the British camps as well as the British and African loyalists who detained them The result is an unforgettable account of the unraveling of the British colonial empire in Kenya a pivotal moment in twentieth century history with chilling parallels to America's own imperial project *Imperial Reckoning* is the winner of the 2006 Pulitzer Prize for Nonfiction

Smith, 2016-05-11 *Glimpsing Modernity* is a collection of papers presented at the US Army Medical Museum sponsored conference on medical aspects of the First World War held in San Antonio Texas in February 2012 It captures the metamorphosis of military medicine during the war in a series of inter related vignettes Some of these stories provide new and insightful interpretations of known military medical themes while others depart from these to examine less well known but truly important medical topics

Madness and marginality Will Jackson, 2017-03-01 Based on over two hundred and fifty psychiatric case files this book offers a radical new departure from existing historical accounts of what is still commonly thought of as the most picturesque of Britain's colonies overseas By tracing the life histories of Kenya's white insane the book allows for a new account of settler society one that moves attention away from the great white hunters and heroic

pioneer farmers to all those Europeans who did not manage to emulate the colonial ideal In doing so it raises important new questions around deviance transgression and social control Sitting at the intersection of a number of fields the book will appeal to students and teachers of imperial history colonial medicine African history and postcolonial theory and will prove a valuable addition to both undergraduate and postgraduate courses

Shakespeare in Swahililand Edward Wilson-Lee, 2025-08-22 An exploration of Shakespeare as a global poet Shakespeare in Swahililand tells the unexpected literary history of Shakespeare s influence in East Africa Beginning with Victorian era expeditions in which Shakespeare s works were the sole reading material carried into the interior the Bard has been a vital touchstone throughout the region His plays were printed by liberated slaves as one of the first texts in Swahili performed by Indian laborers while they built the Uganda railroad used to

argue for native rights and translated by intellectuals revolutionaries and independence leaders Weaving together stories of explorers staggering through Africa's interior eccentrics living out their dreams on the savanna decadent migrants Cold War intrigues and even Che Guevara Edward Wilson Lee a Cambridge lecturer raised in Kenya tallies Shakespeare's influence in Zanzibar Kenya Tanzania Uganda Ethiopia and Sudan Traveling through these countries he speaks with everyone from theater directors and academics to soldiers and aid workers discovering not only cultural dimensions traceable to Shakespeare's plays but also an overwhelming insistence that these works provide a key insight into the region An astonishing work of empathy and historical vision Shakespeare in Swahililand gets at the heart of what makes Shakespeare so universal and the role that his writings have played in thinking about what it means to be human *Pressing Interests* Phoebe Musandu, 2018-10-01 During the first six decades of the twentieth century when the majority of present day Kenya was under the control of the British Empire many secular newspapers emerged as the products of tensions between Asian and European immigrants the British administration and the African petite bourgeoisie In *Pressing Interests* Phoebe Musandu shows that far from expressions of public opinion or vehicles of a free market these periodicals served as powerful tools for the colonial government and the elite to shape political and economic conditions in their favour Following the development of the most important newspapers established in colonial Kenya as they evolved to reflect the priorities and ambitions of their owners investors publishers journalists and editors *Pressing Interests* explores the roles and contributions of the press in the country's political and economic history Shedding light on newspapers as business ventures Musandu focuses on the management financial and production aspects of media Drawing on previously unearthed archival documents official and unofficial correspondence police and legal records and the newspapers themselves she further examines the press as a medium for inter and intra racial competition for power and influence as a base for the production of knowledge and as an instrument for social control In an era when we are often reminded of the power inherent in the ability to generate and disseminate information *Pressing Interests* tells the story of colonial Kenya's press through a timely mix of riveting accounts and the clarifying lens of careful analysis *Unsettled* Janet McIntosh, 2016-04-26 In 1963 Kenya gained independence from Britain ending nearly seventy years of white colonial rule While tens of thousands of whites relocated outside Kenya for what they hoped would be better prospects many stayed Over the past decade however protests scandals and upheavals have unsettled families with colonial origins reminding them of the tenuousness of their Kenyan identity In this book Janet McIntosh looks at the lives and dilemmas of settler descendants living in postindependence Kenya From clinging to a lost colonial identity to embracing a new Kenyan nationality the public face of white Kenyans has undergone changes fraught with ambiguity Drawing on fieldwork and interviews McIntosh focuses on their discourses and narratives asking What stories do settler descendants tell about their claims to belong in Kenya How do they situate themselves vis a vis the colonial past and anticolonial sentiment phrasing and rephrasing their memories and judgments as they seek a position

they feel is ethically acceptable With her respondents straining to defend their entitlements in the face of mounting Kenyan rhetorics of ancestry and autochthony McIntosh explores their contradictory and diverse responses moral double consciousness aspirations to uplift the nation ideological blind spots denial and self doubt Ranging from land rights to language from romantic intimacy to the African occult Unsettled offers a unique perspective on whiteness in a postcolonial context and a groundbreaking theory of elite subjectivity Provided by publisher

The Art of Return James Meyer, 2019-09-11 More than any other decade the sixties capture our collective cultural imagination And while many Americans can immediately imagine the sound of Martin Luther King Jr declaring I have a dream or envision hippies placing flowers in gun barrels the revolutionary sixties resonates around the world China's communist government inaugurated a new cultural era African nations won independence from colonial rule and students across Europe took to the streets calling for an end to capitalism imperialism and the Vietnam War In this innovative work James Meyer turns to art criticism theory memoir and fiction to examine the fascination with the long sixties and contemporary expressions of these cultural memories across the globe Meyer draws on a diverse range of cultural objects that reimagine this revolutionary era stretching from the

1950s to the 1970s including reenactments of civil rights antiwar and feminist marches paintings sculptures photographs novels and films Many of these works were created by artists and writers born during the long Sixties who were driven to understand a monumental era that they missed These cases show us that the past becomes significant only in relation to our present and our remembered history never perfectly replicates time past This Meyer argues is precisely what makes our contemporary attachment to the past so important it provides us a critical opportunity to examine our own relationship to history memory and nostalgia
