each step poses higher demands on our capacity to understand In a volume comprising three previously untranslated booklets composed originally as study material for people conversant with the fundamentals of anthroposophy Mystery of the Christ gives numerous pointers to great mysteries inviting readers to penetrate ever more deeply into the inexhaustible subject matter As K rten states this approach enables us again and again to find surprisingly new insights into the mysterious interconnections in which Christ s entry into earth existence and the Mystery of Golgotha are placed **The Goddess** Rudolf Steiner,2023-10-20 The wisdom contained in this book is not derived via the usual methods of scholarly and historical research and neither is it based on theory or speculation Rudolf Steiner acquired his original contribution to human knowledge from metaphysical dimensions of reality which are hidden to most people but visible to anybody who is prepared to develop spiritual means of perception With his philosophical and scientific training Steiner brought a new systematic discipline to the field of spiritual research allowing for fully conscious methods and comprehensive results A natural seer he cultivated his spiritual vision to a high degree enabling him to speak with authority on previously veiled mysteries Samples of his work are to be found in this book of edited texts which brings together excerpts from his many talks and writings on the subject of the Goddess This volume also features an editorial introduction commentary and notes by Dr Andrew Welburn Chapters Rediscovering the Goddess Natura Retracing our Steps Mediaeval Thought and the School of Chartres The Goddess Natura in the Ancient Mysteries The Goddess in the Beginning the Birth of the Word Esoteric Christianity the Virgin Sophia the Search for the New Isis The Renewal of the Mysteries The Modern Isis the Divine Sophia *The Divine Renaissance* John Todd Ferrier,1929 Vol 1 is a reprint dated 1959 vol 2 a 3rd ed dated 1963 **The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy Volume II: Anthropogenesis** Helena Petrovna Blavatsky,2018-02-24 The last book in the monumental work of Theosophic thought This book focuses on gaining occult power in the formation of the humanity and the earth This group sought to learn the secrets of nature science and divinity in order to empower themselves to godhood and this book reveals their secrets as to how knowledge to do this can be attained It does not reveal what the ultimate saving knowledge is that can do this but it gives guidelines on how to start the journey for yourself **May Human Beings Hear It!** Sergei O. Prokofieff,2014-03-12 During the Christmas period of 1923 4 Rudolf Steiner refounded the Anthroposophical Society at its headquarters in Dornach Switzerland This important event which has come to be known as the Christmas Conference can be studied on many levels and its many mysteries have been central to Sergei O Prokofieff s anthroposophical research over the years His beginning point has been an enduring question What did Rudolf Steiner mean when he called the Christmas Conference the start of a World Turning point of Time In this far reaching work the author working from several different viewpoints guides the reader towards an answer Prokofieff suggests that the impulse of the Christmas Conference can only be reenlivened today through conscious action by individuals to experience its spiritual essence Rather than offering dogmatic conclusions he opens up paths of approaching this goal by throwing light on different

aspects of the Conference and what lies at its heart the Foundation Stone and its Meditation In particular Prokofieff explores three key perspectives the connection of the Christmas Conference with humanity s evolution the inner relationship of each individual anthroposophist to the Christmas Conference and the significance of the Conference to Rudolf Steiner himself Although this is major work of some length the individual chapters of May Human Beings Hear It are complete in themselves and can therefore be studied independently of each other Mystery in its Passions: Literary Explorations Anna-Teresa Tymieniecka,2004-04-30 Through mystery literature reveals to us the Great Unknown While we are absorbed by the matters at hand with the present enactment of our life groping for clues to handle them it is through literature that we discover the hidden strings underlying their networks Hence our fascination with literature But there is more The creative act of the human being its proper focus holds the key to the Sezam of life to the great metaphysical onto-poietic questions which literature may disclose First it leads us to the subliminal grounds of transformation in the human soul source of the specifically human significance of life *Analecta Husserliana* Volume III XIX XXIII XXVII Second it leads us to the unveiling of the hidden workings of life in the twilight of knowing in a dialectic between *The Visible and the Invisible* Volume LXXV 2002 *Analecta Husserliana* down to the onto-poietic truth Volume LXXVI 2002 *Analecta Husserliana* This prying into the unknown which provokes the human being as he or she attempts to conquer step by step a space of existence finds its culmination in the phenomenon of mystery as the subject of the present collection Its formulation brings us to the greatest question of all the enigmatic solidarity in distinctiveness of human cognition and existence Papers are written by Tony E Afejuku Gary Backhaus Paul G Beidler Matthew J Duffy Raffaella Giovagnoli Jennifer Anna Gosetti Ferencei Matti Itkonen Lawrence Kimmel Catherine Malloy Vladimir L Marchenkov Nancy Mardas Howard Pearce Bernadette Prochaska Victor Gerald Rivas M J Sahlani Dennis Skocz Jadwiga S Smith Mara Stafecka Max Statkiewicz Mariola Sulkowska Anna Teresa Tymieniecka Leon U Weinman Tim Weiss The Secret Doctrine H.P.
