**The Magna Book of Van Gogh** Juliet Rodway,1993      **Hermeneutic Philosophy of Science, Van Gogh's Eyes, and God** B.E. Babich,2013-06-29 perceptual essences that can be rendered directly manifest in perception with the help of theoretically structured instruments serving as readable technologies Scientific knowledge should thus be understood as an extension of unassisted perception A perceptual fact has an outer horizon which separates it from the ground on which it appears and an inner horizon composed of a multiplicity of possible perceptual profiles organized by an invariant essence The perceiving subject can bring forth a representative sample of the profiles in question occasionally by making use of certain technological processes which are themselves subject to interpretation in terms of theoretical representations The theoretical entities described in these representations are not simply detected thanks to an inferential operation but rather they are directly perceived It follows from this that the correspondence between the manifest image and the scientific image is not done one to one but by a many to one or one to many application between contextually defined perceptual objects within contexts that are mutually incompatible but complementary This should not however be understood as a form of conventionalism nor as a form of cultural relativism Pre comprehension which guides interpretation imposes strict limits to the descriptive categories which can be used and to the manner in which they can be linked to appropriate empirical objects The author applies his hermeneutic principles to the study of visual perception In fact this question is treated in the first part of the book      **Rick Steves Amsterdam & the Netherlands** Rick Steves,Gene Openshaw,2017-05-23 Bike cobblestone streets cruise on charming canals and stop and smell the tulips with Rick Steves on your side the Netherlands can be yours Inside Rick Steves Amsterdam the Netherlands you ll find Comprehensive coverage for spending a week or more exploring Amsterdam and the Netherlands Rick s strategic advice on how to get the most out of your time and money with rankings of his must see favorites Top sights and hidden gems from the Van Gogh museum and Rembrandt s home workshop to cozy brown caf s How to connect with local culture Explore Amsterdam by bicycle sample distinctive Dutch cheeses and chat with a friendly local over beer brewed from 1 000 year old recipes Beat the crowds skip the lines and avoid tourist traps with Rick s candid humorous insight The best places to eat sleep and relax over a pint of beer Self guided walking tours of lively neighborhoods and incredible museums Detailed maps for exploring on the go Useful resources including a packing list a Dutch phrase book a historical overview and recommended reading Over 500 bible thin pages include everything worth seeing without weighing you down Complete up to date information on Amsterdam Haarlem Delft Alkmaar and Zaanse Schans Edam Volendam Marken Hoorn Enkhuizen the Historic Triangle Flevoland Keukenhof Aalsmeer Leiden The Hague Rotterdam Utrecht Arnhem and more Make the most of every day and every dollar with Rick Steves Amsterdam the Netherlands Spending less than a week in Amsterdam Try Rick Steves Pocket Amsterdam      **The Anthropology of Time** Alfred Gell,2021-03-10 Time relentless ever present but intangible and the single element over which human beings have no

absolute control has long proved a puzzle The author examines the phenomenon of time and asks such fascinating questions as how time impinges on people to what extent our awareness of time is culturally conditioned how societies deal with temporal problems and whether time can be considered a resource to be economized More specifically he provides a consistent and detailed analysis of theories put forward by a number of thinkers such as Durkheim Evans Pritchard L vi Strauss Geertz Piaget Husserl and Bourdieu His discussion encompasses four main approaches in time research namely developmental psychology symbolic anthropology covering the bulk of post Durkheimian social anthropology economic theories of time in social geography and finally phenomenological theories The author concludes by presenting his own model of social cognitive time in the light of these critical discussions of the literature
