Sign Language in Mainstream Education for the Deaf and Hard-of-hearing Students in Asia Gladys
Tang,2025-05-23 This book focuses on two means of recruiting sign language to support DHH students in mainstream
education in Asia The first approach is educational sign interpreting which has been adopted to support signing DHH
students in mainstream classrooms in Taiwan Contributions report on a questionnaire survey with post hoc interviews
examining the reactions of students parents a resource teacher and an interpreter towards providing this service in the
education system The second approach is co enrolment which involves bringing a critical mass of DHH students into the
mainstream classroom for them to study with hearing children supported by either a deaf teacher or a teacher highly
proficient in signing who co teaches with a regular teacher and co shares responsibilities in taking care of the whole class of
students The chapters exemplifying this approach report on the effects of co enrolment on DHH students language
development and academic attainment This book was originally published as a special issue of Deafness Education
