The Making of Masculinities Harry Brod, 1987-01-01 **Men Alone** Jopi Nyman, 1997 This study examines masculinity and individualism in four American novels of the 1920s and 1930s usually regarded as belonging to the genre of hard boiled fiction The novels under study are *Red Harvest* by Dashiell Hammett *The Postman Always Rings Twice* by James M Cain *They Shoot Horses Don t They* by Horace McCoy and *To Have and Have Not* by Ernest Hemingway In this first full length study of gender in hard boiled fiction the genre is discussed as a representation of the ideologies of masculinity and individualism Hard boiled fiction is located in its historical and cultural context and it is argued that the genre with its explicit emphasis on masculinity and masculine virtues attempts to reaffirm a masculine order The study argues that this emphasis is a counter reaction to more general changes in the gender relations of the period Indeed hard boiled fiction is argued to be an attempt to reconstruct a masculine identity based on anti modern values generally accepted in the cultural context of the genre

Men, Masculinity and the Beatles Martin King,2016-04-22 Drawing on methodologies and approaches from media and cultural studies sociology social history and the study of popular music this book outlines the development of the study of men and masculinities and explores the role of cultural texts in bringing about social change It is against this backdrop that The Beatles as a cultural phenomenon are set and their four live

action films spanning the years 1964-1970 are examined as texts through which to read changing representations of men and masculinity in the Sixties. Dr. Martin King considers ideas about a male revolt predating second wave feminism. The Beatles as inheritors of the possibilities of the 1950s and The Beatles' emergence as men of ideas a global cultural phenomenon that transgressed boundaries and changed expectations about the role of popular artists in society. King further explores the chosen Beatle texts to examine discourses of masculinity at work within them. What emerges is the discovery of discourses around resistance, non-conformity, feminized appearance, pre-metrosexuality, the male star as object of desire and the emergence of The Beatles themselves as a text that reflected the radical diversity of a period of rapid social change. King draws valuable conclusions about the legacy of these discourses and their impact in subsequent decades.

What is Masculinity? J. Arnold, S. Brady, 2011-06-14 Across history the ideas and practices of male identity have varied much between time and place. Masculinity proves to be a slippery concept not available to all men, sometimes even applied to women. This book analyses the dynamics of masculinity as both an ideology and lived experience, how men have tried and failed to be Real Men.

Rhetoric of Masculinity Donnalyn Pompper, 2022-01-31 Rhetoric of Masculinity: Male Body Image, Media and Gender Role Stress Conflict lends depth and global nuance to discourse associated with the masculinity concept as it brings to bear on males' self-image, role in society, media representations of them, and the gender role stress conflict experienced when they fail to measure up to social standards associated with what it means to be manly. Even though the concept of masculine gender role stress conflict has received substantial scholarly attention in psychology, social learning effects of masculinity as it plays out in media warrant further study given that representations offer audiences restrictive male gender roles that may contribute to toxic masculinity. Men and boys are taught to be self-sufficient, to act tough, to be muscular, heterosexual, and to use aggression to resolve conflicts. Such contexts provide restrictive images that can result in self-harm and an inflexible social milieu. Scholars and students of communication, rhetoric, and gender studies will find this book particularly interesting.

Brings together a collection of new cutting-edge research exploring a number of different facets of the broad relationship between gender and media. Moves beyond associating gender with man/woman and instead considers the relationship between the construction of gender, norms, biological sex, and the mediation of sex and sexuality. Offers genuinely new insights into the complicated and complex set of relations which exist between gender, sex, sexualities, and the media. Essay topics range from the continuing sexism of TV advertising to ways in which the internet is facilitating the re-invention of our sexual selves.
