Wachs,Jon D. Schaff,2019-11-29 *Age of Anxiety* Meaning Identity and Politics in 21st Century Film and Literature analyzes literature and films that speak to our age of anxiety resulting from the decline of narratives that

provided individuals with a meaningful human life The authors argue that the twentieth century sought to free individuals from the constraints of authoritative cultural traditions and institutions liberating the autonomous self Yet this has given rise to anxiety rather than liberation Instead of deriving one's sense of purpose from one's role and place within a community the consumer has been deceived into thinking that their identity can be purchased through the meaning represented by the conspicuous consumption of a brand The same phenomenon manifests itself in politics within recent populist revolts against globalist politics In addition the rapid pace of technological development is driving an unprecedented faith in the malleability of human beings raises doubts as to what it means to be a person Utilizing paradigms from the fields of Communication Rhetoric and Political Philosophy the book shows how the self has been displaced from its natural habitat of the local community The book traces the origins of modern anxiety as well as possible remedies Considered in the book are such popular culture artifacts as Downton Abbey WALL E HackSaw Ridge Westworld and Lord of the Rings and zombie films

*The Man in the Tree* Sage Walker, 2017-09-12 Humanity's last hope of survival lies in space but will a random death doom the venture Our planet is dying and the world's remaining nations have pooled their resources to build a seed ship that will carry colonists on a multi generational journey to a distant planet Everything is set for a bright adventure and then someone is found hanging dead just weeks before the launch Fear and paranoia spread as the death begins to look more and more like a murder The authorities want the case settled quickly and quietly so as not to cause panic and to prevent a murderer from sabotaging the entire mission Amazon.com

**Chaos** Jamar E. Johnson, 2015-07-07 One man's hunt to avoid the inevitable brought him grave misfortune and with the world hanging in the balance a young boy's father sacrificed himself so that his son could have a future Time passes and the next generation unwittingly opened a gateway to another dimension where all things that go bump in the night are real with the world thrown into chaos one boy sought to save the world and his friends and undo what they caused With a new found power and responsibility to humanity he becomes a single solitary light at the end of days Taking on evil in its purest form triumphing over the face of darkness so that hell on earth will not become a reality or worse

**Processes and Spatial Orientation in Animal and Man** P. Ellen, C. Thinus-Blanc, 2012-12-06 These volumes represent the proceedings of NATO Advanced Study Institute on the topic of Cognitive Processes and Spatial Orientation in Animal and Man held at La Baume les Aix Aix en Provence France in June/July 1985. The motivation underlying this Institute stemmed from the recent advances and interest in the problems of spatial behavior. In Psychology, traditional S-R concepts were found to be unsatisfactory for fully accounting for the complexity of spatial behavior. Coupled with the decline in such an approach, has been a resurgence of interest in cognitive types of concepts. In Ethology, investigators have begun to use more sophisticated methods for the study of homing and navigational behaviors. In the general area of Neuroscience, marked advances have been achieved in the understanding of the neural mechanisms underlying spatial behaviors. And finally, there has been a burgeoning interest and body of knowledge concerning the development of spatial behavior in humans. All of these factors combined to suggest the necessity of bringing together scientists working in these areas with the intent that such a meeting might lead to a cross fertilization of the various areas. Possibly by providing a context in which members of the various disciplines could interact, it was felt that we might increase the likelihood of identifying those similarities and

differences in the concepts and methods common to all groups Such an identification could provide the basis for a subsequent interdisciplinary research effort      **The Hypothetical Human** Tom Ball,2012-05-28
