America This anthology encompasses the entire range of Curwood's best known novels and short stories including *The Wolf Hunters*, *Kazan* and *The River's End* as well as lesser known treasures. The literary style is emblematic of the early twentieth century action adventure genre typified by rich descriptions, robust characters and gripping plotlines. Amidst adventure and danger, Curwood's work weaves themes of survival, loyalty and the confrontation between man and nature, holding significant bearings in the literary milieu alongside contemporaries like Jack London. The collection is an exposition of Curwood's literary proficiency and understanding of the wilderness, which so profoundly influenced his life and writing. James Oliver Curwood's life and works were deeply intertwined; his adventures through the Canadian northwest fueled the prolific storytelling that defines his oeuvre. Born in 1878, Curwood was not only a novelist but also a passionate conservationist. His experiences mirrored by the formidable landscapes and raw human emotions captured in his writing reflect an authentic connection to the settings he so vividly portrayed. He followed the tradition set by Jack London, capturing the struggle for survival and the essence of the wilderness that still resonated with the readers of his time. Curwood's impact extended into cinema, with numerous films adapting his sprawling vistas and complex characters, cementing his legacy within both the literary and visual storytelling domains. *The Collected Works of James Oliver Curwood* is a testament to a bygone era, painting the wilderness with a brush of thrill and reverence. Scholars and enthusiasts of early twentieth century literature, particularly those with an affinity for the great outdoors and adventure narratives, will find this comprehensive anthology an invaluable addition to their collections. Curwood's vivid storytelling entices readers to traverse rugged landscapes alongside his characters, making this collection a compelling read for those who wish to experience the adventure drama and passion of an age when the wilderness was a canvas for the human spirit. **Bookseller and the Stationery Trades' Journal**, 1891

Roman Portraits Paul Zanker, 2016-11-14. Portrait sculptures are among the most vibrant records of ancient Greek and Roman culture. They represent people of all ages and social strata: revered poets and philosophers, emperors and their family members, military heroes, local dignitaries, ordinary citizens, and young children. The Met's distinguished collection of Greek and Roman portraits in stone and bronze is published in its entirety for the first time in this volume. Paul Zanker, a leading authority on Roman sculpture today, has brought his exceptional knowledge to the study of these portraits in presenting them; he brings the ancient world to life for contemporary audiences. Each work is lavishly illustrated, meticulously described, and placed in its historical and cultural context. The lives and achievement of significant figures are discussed in the framework of the political, social, and practical circumstances that influenced their portraits' forms and styles, from the unvarnished realism of the late Republican period to the idealizing and progressively abstract tendencies that followed. Analyses of marble portraits recarved into new likenesses after their original subjects were forgotten or officially repudiated provide especially compelling insights. Observations on fashions in hairstyling, which typically originated with the Imperial family and spread as fast as the rulers' latest portraits could be distributed, not only edify and amuse but also link the Romans' motives and appetite
