The Management Of Technological Innovation Pb Revised Edition David M. Gann Mark Dodgson, Ammon Salter, 2008-04 The Management of Technological Innovation MTI is one of the most important challenges facing businesses today Innovation has become the fundamental driver of competitiveness for firms of all sizes in virtually all business sectors and nations The first edition of this book has become one of the most popular texts for students of innovation and technology management This new edition sees David Gann and Ammon Salter join Mark Dodgson as authors drawing on their combined experience of 60 years of researching and teaching MTI It combines the most relevant theoretical analysis with

contemporary and historical empirical evidence to provide a comprehensive yet concise and readable guide to the challenges of MTI. By explaining the innovation process the book reveals the broad scope of MTI and its importance for company survival, growth and sustainability. It describes how MTI has to be managed strategically and how this is successfully achieved by formulating and implementing strategy and delivering value. Chapters provide frameworks, tools and techniques and case studies on managing innovation strategy, communities and networks, R&D design and new product and service development, operations and production and commercialization. Based on robust analysis the book provides a wide range of empirical evidence from a huge diversity of case studies with around fifty case studies newly written for this edition. It analyses MTI in all parts of the world in companies large and small and in services, manufacturing and resource based business sectors. This new edition has been fully revised and updated to reflect the latest teaching and research and to ensure its continuing relevance to the contemporary world of MTI. It will be an important resource for academics, students and managers throughout the world.

It is a recommended text for students of innovation and technology management at postgraduate and undergraduate level and is particularly valuable for MBA courses. **The Management of Technological Innovation**

Mark Dodgson, 2008 *The Handbook of Technology and Innovation Management* Scott Shane, 2009-07-07 This timely handbook represents the latest thinking in the field of technology and innovation management with an up to date overview of the key developments in the field. The editor provides with a critical introductory essay that establishes the theoretical framework for studying technology and innovation management. The book will include 15-20 original essays by leading authors chosen for their key contribution to the field. These chapters chart the important debates and theoretical issues under 3 or 4 thematic headings. The handbook concludes with an essay by the Editor highlighting the emergent issues for research. The book is targeted as a handbook for academics as well as a text for graduate courses in technology and innovation management. Managing Technological Innovation
