Myanmar in the Fifteenth Century Michael A. Aung-Thwin,2017-05-31 When the great kingdom of Pagan declined politically in the late thirteenth and early fourteenth centuries its territory devolved into three centers of power and a period of transition occurred Then two new kingdoms arose the First Ava Dynasty in Upper Myanmar and the First Pegu Dynasty in Lower Myanmar Both originated around the second half of the fourteenth century reached their pinnacles in the fifteenth and declined before the first half of the sixteenth century was over Their story is the only missing piece in Myanmar s mainstream historiography a gap this book is designed to fill Renowned historian Michael Aung Thwin reconstructs the chronology of this nearly two hundred year period while challenging a number of long held beliefs Contrary to conventional histories he contends that Ava was the continuation of an old kingdom Pagan led by its traditional ethno linguistic group the Burmese speakers while Pegu was a new kingdom led by more recent arrivals the Mon speakers Although both kingdoms shared many cultural components of the classical Pagan tradition Ava was inland and agrarian while Pegu was maritime and commercial so that each was shaped by very different geopolitical and economic environments In that difference rests the dynamism of their upstream downstream relationship which thereafter became a regular historical pattern in Myanmar history represented today by inland Naypyidaw and coastal Yangon Original in conception and impressive in scope this well written book not only fills in the history of early modern Myanmar but places it in a broad interpretive context based on years of familiarity with a wealth of primary sources Full of arresting anecdotes and colorful personalities it represents an important contribution to Myanmar studies that will not easily be superseded      **The Mists of Rāmañña** Michael A.

Aung-Thwin,2017-04-01 Scholars have long accepted the belief that a Theravada Buddhist Mon kingdom R ma adesa flourished in coastal Lower Burma until it was conquered in 1057 by King Aniruddha of Pagan which then became in essence the new custodian and repository of Mon culture in the Upper Burmese interior This scenario which Aung Thwin calls the Mon Paradigm has circumscribed much of the scholarship on early Burma and significantly shaped the history of Southeast Asia for more than a century Now in a masterful reassessment of Burmese history Michael Aung Thwin reexamines the original contemporary accounts and sources without finding any evidence of an early Theravada Mon polity or a conquest by Aniruddha The paradigm he finds cannot be sustained How when and why did the Mon Paradigm emerge Aung Thwin meticulously traces the paradigm s creation to the merging of two temporally causally and contextually unrelated Mon and Burmese narratives which were later synthesized in English by colonial officials and scholars Thus there was no single originating source only a late and mistaken conflation of sources The conceptual methodological and empirical ramifications

of these findings are significant The prevalent view that state formation began in the maritime regions of Southeast Asia with trade and commerce rather than in the interior with agriculture must now be reassessed In addition a more rigorous look at the actual scope and impact of a romanticized Mon culture in the region is required Other issues important to the field of early Burma and Southeast Asian studies including the process of Indianization the characterization of classical states and the advent and spread of Theravada Buddhism are also directly affected by Aung Thwin s work Finally it provides a geo political cultural and economic alternative to what has become an ethnic interpretation of Burma s history An electronic version of this book is freely available thanks to the support of libraries working with Knowledge Unlatched a collaborative initiative designed to make high quality books open access for the public good The open access version of this book is licensed under Creative Commons Attribution NonCommercial NoDerivatives 4 0 International CC BY NC ND 4 0 which means that the work may be freely downloaded and shared for non commercial purposes provided credit is given to the author Derivative works and commercial uses require permission from the publisher [Buddhist Visual Cultures, Rhetoric, and Narrative in Late Burmese Wall Paintings](#) Alexandra Green,2018-01-04 Step into a Burmese temple built between the late seventeenth and early nineteenth centuries and you are surrounded by a riot of color and imagery The majority of the highly detailed wall paintings displays Buddhist biographical narratives inspiring the devotees to follow the Buddha s teachings Alexandra Green goes one step further to consider the temples and their contents as a whole arguing that the wall paintings mediate the relationship between the architecture and the main Buddha statues in the temples This forges a unified space for the devotees to interact with the Buddha and his community with the aim of transforming the devotees current and future lives These temples were a cohesively articulated and represented Burmese Buddhist world to which the devotees belonged Green s visits to more than 160 sites with identifiable subject matter form the basis of this richly illustrated volume which draws upon art historical anthropological and religious studies methodologies to analyze the wall paintings and elucidate the contemporary religious political and social concepts that drove the creation of this lively art form Buddhist Visual Cultures Rhetoric and Narrative in Late Burmese Wall Paintings is truly a tour de force that allows us to see Burmese temple paintings of the Life of the Buddha and similar themes as an open ended genre that like literary discourse participates in wider social intellectual and religious contexts Juliane Schober Arizona State University Alexandra Green introduces this relatively unknown material and subjects it to sophisticated analysis This study is major step towards creating a template that could be used for analyzing other late traditions of Buddhist painting Janice Leoshko University of Texas at Austin

*Buddhism, Power and Political Order* Ian Harris, 2007-06-11 Weber's claim that Buddhism is an otherworldly religion is only partially true. Early sources indicate that the Buddha was sometimes diverted from supramundane interests to dwell on a variety of politically related matters. The significance of Asoka Maurya as a paradigm for later traditions of Buddhist kingship is also well attested. However, there has been little scholarly effort to integrate findings on the extent to which Buddhism interacted with the political order in the classical and modern states of Theravada Asia into a wider comparative study. This volume brings together the brightest minds in the study of Buddhism in Southeast Asia. Their contributions create a more coherent account of the relations between Buddhism and political order in the late pre-modern and modern period by questioning the contested relationship between monastic and secular power. In doing so, they expand the very nature of what is known as the Theravada Buddhism. *Power and Political Order* offers new insights for scholars of Buddhism and it will stimulate new debates.

**The Wheel-Turner and His House** Geok Goh, 2014-11-30 The recorded history of precolonial Burmese empire and the modern state of Myanmar starts with the kingdom of Bagan in the eleventh century. The oldest surviving written records and structures are from the reign of King Anawrahta 1044-1077. Anawrahta converted to Theravada Buddhism and created a vibrant Buddhist state in the Irrawaddy River basin. Anawrahta is a folk hero to this day in Myanmar and is widely credited as a charismatic and pious leader who consolidated various ethnic groups throughout the region into a single nation. *The Wheel-Turner and His House* traces the archaeological and historical record of Anawrahta and his seminal position in forming modern Myanmar based on the few sources that have been recovered. *The Great Chronicle*, an important history of the country written by the 18th-century Burmese nobleman U Kala, forms the basis for much of the knowledge we have about Anawrahta today. Geok Yian Goh examines U Kala's work in light of the context of U Kala's own time and points out the bias of his royal court as well as the scribe's personal views from the elaborate narratives he produced. She looks at other sources as well, including unpublished palm leaf manuscripts, to disentangle earlier knowledge about Anawrahta and eleventh-century Bagan. Placing the overall study of Burmese historical tradition within the larger manuscript culture of Asia, Goh presents a critique of theoretical issues in history, especially the relationship between the past and memory. In order to analyze the expansion of Anawrahta's historical image that formed the development of a Buddhist ecumene in the eleventh and twelfth centuries, Goh utilizes published and unpublished texts in Burmese and classical Chinese along with northern Thai and Sri Lankan texts, many of which Goh makes available for the first time in English.

**Columbia Chronologies of Asian History and Culture** John S. Bowman, 2000-09-05 Containing more information on Asian culture than any other English language reference work, *Columbia Chronologies of Asian History and Culture* is the first of its kind: a set of more than thirty chronologies for all the countries of Asia East, South, Southeast, and Central from the Paleolithic era through 1998. Each entry is clearly dated, and unlike most chronologies found in standard history texts, the entries are complete and detailed enough to provide virtually a sequential history of the vast and rich span of Asian cultures. The contributing writers and editors have

ensured the book's usefulness to general readers by identifying individuals and groups locating places and regions explaining events and movements and defining unfamiliar words and concepts The thirty two chronologies on individual countries in conjunction with a detailed index allow readers to find specific information quickly and efficiently whether they seek the date for the invention of the iron plow or gunpowder the fall of the Han Dynasty in China or Ho Chi Minh's declarations of Vietnamese independence This invaluable reference culminates with three appendices National Independence Days Scientific Technological Achievements in Asia and Asia A Chronological Overview which provides an accessible summary of key events and developments in various fields of activity throughout the continent The Columbia Chronologies of Asian History and Culture features three discrete chronologies on 1 Politics History 2 Art Culture Religion and 3 Science Economics Everyday Life for each of Asia's three major cultures China India and Japan as well as a combined chronology for each of the other nations detailed entries of thousands of historical events as well as important milestones in religion philosophy literature and the arts entries on technological developments and natural events famines floods etc affecting the lives of ordinary people and authoritative and accessibly written entries by a team of Asian scholars from Columbia Harvard and other major research universities Beyond its detailed accounting of Asia's political history Columbia Chronologies of Asian History and Culture also gives full recognition to religious intellectual artistic and general cultural achievements as well as to scientific technological industrial agricultural and economic developments Concise yet complete it will stand as an indispensable reference work in the field of Asian studies      **South-East Asia** Patricia Herbert, Anthony Crothers Milner, 1989-01-01

Hall, 1955-01-01 With the closure of the overland Silk Road in the fourteenth century following the collapse of the Mongol empire the Indian Ocean provided the remaining vital link for wider cultural political and societal integrations prior to the Western colonial presence Collectively these studies explore the history of non metropolitan urban settings c 1400 1800 in the Indian Ocean realm from the Ottoman Empire and the African coastline at the mouth of the Red Sea in the west to China in the east This was an age of heightened international commercial exchange that pre dated the European arrival which in the Indian Ocean paired Islamic expansionism and political authority and alternately in the case of mainland Southeast Asia partnered Buddhism with new centralizing monarchies While grounded in multi disciplinary urban studies literature the twelve studies in this collection explore secondary center networking as this networking distinguishes secondary cities from metropolitan centers which have traditionally received the most scholarly attention The book features the research of international scholars whose work addresses the representative history of small cities and urban networking in various parts of the Indian Ocean world in an era of change allowing them the opportunity to compare approaches methods and sources in the hopes of discovering common features as well as notable differences This volume is the result of a 2007 conference on The Small City in Global Context hosted by the Center for Middletown Studies at Ball State University Muncie Indiana intended to expand
