The Marquesan Notion of the Person John Kirkpatrick,1983      **The Marquesan Notion of the Person** John Kirkpatrick,1983      **The Social Construction of the Person** K.J. Gergen,K.E. Davis,2012-12-06 This volume grew out of a discussion between the editors at the Society for Experimental Social Psychology meeting in Nashville in 1981 For many years the Society has played a leading role in encouraging rigorous and sophisticated research Yet our discussion that day was occupied with what seemed a major problem with this finely honed tradition namely it was preoccupied with accurate renderings of reality while generally insensitive to the process by which such renderings are achieved This tradition presumed that there were brute facts to be discovered about human interaction with little consideration of the social processes through which factuality is established To what degree are accounts of persons constrained by the social process of rendering as opposed to the features of those under scrutiny This concern with the social process by which persons are constructed was hardly ours alone In fact within recent years such concerns have been voiced with steadily increasing clarity across a variety of disciplines Ethno methodologists were among the first in the social sciences to puncture the taken for granted realities of life Many sociologists of science have also turned their attention to the way social organizations of scientists create the facts necessary to sustain these organizations Historians of science have entered a similar enterprise in elucidating the social economic and ideological conditions enabling certain formulations to flourish in the sciences while others are suppressed Many social anthropologists have also been intrigued by cross cultural variations in the concept of the human being      **Encyclopedia of Sex and Gender** Carol R. Ember,Melvin Ember,2003-12-31 The central aim of this encyclopedia is to give the reader a comparative perspective on issues involving conceptions of gender gender differences gender roles relationships between the genders and sexuality The encyclopedia is divided into two volumes Topics and Cultures The combination of topical overviews and varying cultural portraits is what makes this encyclopedia a unique reference work for students researchers and teachers interested in gender studies and cross cultural variation in sex and gender It deserves a place in the library of every university and every social science and health department Contents Glossary Cultural Conceptions of Gender Gender Roles Status and Institutions Sexuality and Male Female Interaction Sex and Gender in the World s Cultures Culture Name Index Subject Index      *Person, Self, and Experience* John Kirkpatrick,Geoffrey Miles White,1985      **Developments in Polynesian Ethnology** Robert Borofsky,S. Alan Howard,2019-03-31 Development in Polynesian Ethnology assesses the current state of anthropological research in Polynesia by examining the debates and issues that shape the discipline today What have anthropologists achieved What concerns now dominate discussion Where is Polynesian anthropology headed In a series of provocative and original essays leading scholars examine prehistory social organization socialization and character development mana and tapu chieftainship art and aesthetics and early contact Together these essays show how history anthropology and archaeology have combined to give a

broad understanding of Polynesian societies developing over time how they represent a blend of modernity and tradition continuity and change This book is both an introduction to Polynesia for interested students and a thought provoking synthesis for scholars charting new directions and posing possibilities for future research Scholars outside Polynesian studies will find the perspectives it offers important and its comprehensive bibliography an invaluable resource **Marquesan Encounters** Thomas Walter Herbert,1980 Gender Reversals and Gender Cultures Sabrina Petra Ramet,2002-11-01 Gender Reversals and Gender Cultures is a collection of specially commissioned essays taking a cross cultural and cross historical perspective on the subject The book documents the universality of gender reversals with chapters ranging from early Christianity up to the present It examines how gender reversals are bound up with taboo and how this underlies various religious and ritual activities Gender Reversals and Gender Cultures also shows how attitudes to gender reversal can reveal much about a particular culture Anne Bolin Elon College Judith Ochshorn University of South Florida Karen Torjesen Claremont Graduate School California Julia Welch Winfried Schleiner Unive Parent-Child Socialization in Diverse Cultures Jaipaul L. Bruce Carter,1992-01-01 For applied developmental psychologists professionals or graduate students provides detailed descriptions of dramatically diverse cultures addressing the role of culture in the functioning of families and the socialization of children and providing readers with the basis for an increased sensitivity to the ways culture influences every aspect of life Annotation copyright Book News Inc Portland Or *People and Change in Indigenous Australia* Diane Austin-Broos,Francesca Merlan,2017-11-30 People and Change in Indigenous Australia arose from a conviction that more needs to be done in anthropology to give a fuller sense of the changing lives and circumstances of Australian indigenous communities and people Much anthropological and public discussion remains embedded in traditionalizing views of indigenous people and in accounts that seem to underline essential and apparently timeless difference In this volume the editors and contributors assume that the person is socially defined and reconfigured as contexts change both immediate and historical Essays in this collection are grounded in Australian locales commonly termed remote These indigenous communities were largely established as residential concentrations by Australian governments some first as missions most in areas that many of the indigenous people involved consider their homelands A number of these settlements were located in proximity to settler industries pastoralism market gardening and mining locales that many non indigenous Australians think of as the homes of the most traditional indigenous communities and people The contributors discuss the changing circumstances of indigenous people who originate from such places revealing a diversity of experiences and histories that involve major dynamics of disembedding from country and home locales re embedding in new contexts and reconfigurations of relatedness The essays explore dimensions of change and continuity in childhood experience and socialization in a desert community the influence of Christianity in fostering both individuation and relatedness in northeast Arnhem Land the diaspora of Central Australian Warlpiri people to cities and the forms of life and livelihood they make there

adolescent experiences of schooling away from home communities youth in kin based heavy metal gangs configuring new identities and indigenous people of southeast Australia reflecting on whether an Aboriginal way can be sustained By taking a step toward understanding the relation between changing circumstances and changing lives of indigenous Australians the volume provides a sense of the quality and feel of those lives

**Marquesan Societies** Nicholas Thomas, 1990 Marquesan society has long captured the interest of European observers in part because of unfamiliar institutions such as polyandry However due to complex and destructive historical changes and the very scattered nature of early source materials the distinctive Marquesan developments of Polynesian society have been obscure and at odds with anthropologists and historians overall understanding of Pacific societies Nicholas Thomas s book based on a critical study of the fullest possible range of sources is the first to provide a clear account of early Marquesan social relations and culture and as such will become a key source for Pacific scholars However Dr Thomas s discussion is not restricted to ethnohistoric documentation His analysis of dynamic and highly fluid society and its encounters with early European visitors and traders encompasses wider debates about the nature of gender relations in Polynesian societies small scale hierarchical structures cultural transformation and longer term change In linking specific features of early Marquesan society its contact with foreigners and the longer term transformations of eastern Polynesian societies Dr Thomas offers Pacific studies a distinctive new perspective

**Third Sex, Third Gender** Gilbert Herdt, 2020-10-27 Most modern discussions of the relationship of biological sex to gender presuppose that there are two genders male and female founded on the two biological sexes But not all cultures share this essentialist assumption and even Western societies have not always embraced it Bringing together historical and anthropological studies Third Sex Third Gender challenges the usual emphasis on sexual dimorphism and reproduction providing a unique perspective on the various forms of socialization of people who are neither male nor female The existence of a third sex or gender enables us to understand how Byzantine palace eunuchs and Indian hijras met the criteria of special social roles that necessitated practices such as self castration and how intimate and forbidden desires were expressed among the Dutch Sodomites in the early modern period the Sapphists of eighteenth century England or the so called hermaphrodite homosexuals of nineteenth century Europe and America By contextualizing these practices and by allowing these bodies meanings and desires to emerge Third Sex Third Gender provides a new way to think about sex and gender systems that is crucial to contemporary

**Culture and Early Interactions (Psychology Revivals)** Tiffany Field, Anita Sostek, Peter Vietze, P. Herbert Leiderman, 2014-08-01 In the late 1960s after a period of intense acceleration of the pace of research on human infancy a number of investigators some anthropologists some psychologists some psychiatrists and paediatricians and even a few ethologists developed the conviction that certain contributions to the understanding of infancy would come from and perhaps only come from cross cultural and cross population studies This book originally published in 1981 represents part of the first fruit of that conviction and its impressive range of chapters justifies not only the belief itself but also the several rationales behind it

**Identity Through History** Geoffrey M. White, 1991 For people who live in small communities transformed by powerful outside forces narrative accounts of culture contact and change create images of collective identity through the idiom of shared history How may we understand the processes that make such accounts compelling for those who tell them Why do some narratives acquire a kind of mythic status as they are told and retold in a variety of contexts and genres Identity Through History attempts to explain how identity formation developed among the people of Santa Isabel in the Solomon Islands who were victimised by raiding headhunters in the nineteenth century and then embraced Christianity around the turn of the century Making innovative use of work in psychological and historical anthropology Geoffrey White shows how these significant events were crucial to the community's view of itself in shifting social and political circumstances
