## **Situated Fathering:**

Situated Fathering William Marsiglio, Kevin Roy, Greer Litton Fox, 2005-07-28 When men act as parents they do so in diverse physical and social spaces imbued with symbolic meaning They father in the military overseas on the farm in dilapidated inner cities immersed in ethnic neighborhoods navigating idealized places of leisure where families go as stepfathers in spaces where physical dimensions and family meanings intersect as nonresident fathers managing less than ideal conditions rolling across the interstate as long haul truckers playing catch alongside the house managing precious family time in prison work release programs as participants in community fatherhood initiatives etc Until now family scholars had not explicitly theorized and focused on how physical space shapes fathers lives A distinct volume of theoretical and empirical research Situated Fathering addresses this oversight by proposing a new framework for studying how various contingencies of physical space in conjunction with social symbolic issues affect men s identities as fathers and their involvement with children Consistent with public interest in men s efforts to be there as providers and caregivers this book explores issues associated with the barriers and supports to involvement that are part of the physical and social environment Written largely for family scholars and students it emphasizes a future oriented perspective by outlining directions for theoretically guided research in specific often gendered fathering sites

**Intimate Fatherhood** Esther Dermott, 2014-06-11 Fatherhood is gaining ever more public and political attention stimulated by the increasing prominence of fathers rights groups and the introduction of social policies such as paternity leave. *Intimate Fatherhood* explores discourses of contemporary fatherhood men's parenting behaviour and debates about fathers rights and responsibilities. The book addresses the extent to which fatherhood has changed by examining key dichotomies: culture versus conduct, involved versus uninvolved and public versus private. The book also looks at longstanding conundrums such as the apparent discrepancy between fathers acceptance of long hours spent in paid work combined with a preference for involved fathering. Dermott maintains that our current view of good fatherhood is related to new ideas of intimacy. She argues that in order to understand contemporary fatherhood we must recognise the centrality of the emotional father child relationship that the importance of breadwinning has been overstated and that flexible involvement is viewed as more important than the amount of time spent in childcare. Drawing on original qualitative interviews and large scale quantitative research, *Intimate Fatherhood* presents a sociological analysis of contemporary fatherhood in Britain by exploring our ideas of good fatherhood in relation to time use, finance, emotion, motherhood and policy debates. This book will interest students, academics and researchers in sociology, gender studies and social policy.

*Fatherhood in Late Modernity* Mechthild Oechsle, Ursula Müller, Sabine Hess, 2012-08-09 Changes in Fatherhood. How do structural changes in the welfare state in gender relations and work affect concepts and realities of fatherhood? The authors analyse cultural images and representations of fatherhood, varieties of fatherhood in relation to social backgrounds, organisational influences as well as the impact of political and legal interventions on configurations of fatherhood. With an interdisciplinary approach, this book's contributions investigate the sometimes contradictory relationship between cultural representations and social practices of fatherhood. They contextualise diverse fatherhoods in various social backgrounds, ethnicities, ages and different national contexts. Reflecting methodological challenges is crucial to the volume's approach. Which parameters are used to quantify change? Which links and interactions between cultural, individual, organizational and societal dimensions do exist regarding the development of new social configurations of fatherhood? How can the complex interaction between structural constraints and agency be analysed? Can certain agents of change be identified? How can social change be conceptualized? This volume links to international comparative research and shows how fruitful it can be to break disciplinary boundaries.

**Fathers** Catherine Flynn,Michelle Butler,2020-05-21 This volume specifically examines current concerns about imprisoned fathers and highlights best practices with a group of children and parents who present significant vulnerabilities It brings together contemporary works in this area to share and consolidate knowledge to encourage comparisons and collaborations across jurisdictions and to stimulate debate all with the aim of furthering knowledge and improving practice in this area Although there is considerable focus on imprisoned mothers there is limited knowledge or understanding of the needs experiences or effective responses to imprisoned fathers and their children despite men making up the vast majority of the prison population The ongoing and negative impact of parental incarceration on children is well documented and includes emotional and behavioural consequences marginalisation and stigma as well as financial and social stresses However understanding of these processes and importantly what can assist children and families is poor This book seeks to add to the understanding of paternal imprisonment by providing an in depth exploration of how the arrest detention and experiences of

fathers during imprisonment can affect their ability to parent and meet the needs of their children This book was originally published as a special issue of Child Care in Practice
