Sociology Of Education An Introductory View From Canada:

Sociology of Education Joyce Barakett,Ailie Cleghorn,2007-04-09 This book is written for undergraduate students who seek a sociological understanding of the educational process It is written especially for students in education or sociology who as future educators need to be knowledgeable about current sociological debates in education in general and in Canadian education in particular In this new edition students will learn about sociological concepts and theoretical perspectives that will allow them to understand the ways in which formal and informal aspects of the educational system are connected to many sectors of society including the political economic legal and religious realms Global Perspectives on Adult Education A. Abdi,Dip Kapoor,2008-12-22 This book demonstrates how processes of globalization economic cultural socio political are creating new possibilities and inequities and are thereby creating corresponding roles for adult education and learning in the South Africa Asia South America that are embedded in multiple political economic and cultural projects for social change Issues in African Education A. Abdi,A. Cleghorn,2005-11-04 This book addresses major sociological issues in sub Saharan African education today Its fourteen contributors present a thoroughly African world view within a sociology of education theoretical framework allowing the reader to see where that theory is relevant to the African context and where it is not Several of the chapters bring a much needed cultural nuance and critical theoretical perspective to the issues at hand The sixteen chapters thus aim to be of interest internationally to those who work in such fields as social and political foundations of comparative and international education and development studies including university professors teacher educators researchers school teachers tertiary education students consultants and policy makers **Introduction to Sociology: Canadian Version** George Ritzer,Neil Guppy,2013-07-25 While providing a rock solid foundation of sociology Introduction to Sociology Canadian Version by renowned sociologists George Ritzer and Neil Guppy illuminates traditional sociological concepts and theories as well as some of today s most compelling social phenomena Globalization consumer culture and the Internet Ritzer and Guppy bring students into the conversation by bridging the divide between the outside world and the classroom The international version of the book by Ritzer has been redesigned with an explicitly Canadian core The result is this compelling Canadian version featuring George Ritzer s distinctive voice and style blended with Neil Guppy s definitive views on Canadian sociology highlighting the place of Canada in a globalizing world Education Marginalization in Sub-Saharan Africa Obed Mfum-Mensah,2018-08-15 This book focuses on education policy framework for educating marginalized children in sub Saharan Africa It uses marginality as a critical discourse to highlight the complicated ways education policy making in sub Saharan Africa have constructed and perpetuated marginality in the region since Africa s encounters with Europe The book is organized around two parts each of which discusses a specific dimension of the marginality and education policy nexus Part I focuses on theorizations of marginality and education The theoretical framework on marginality and education outlines the definitional and conceptual backgrounds on marginality the

complicated ways policies of the Christian missionaries colonial governments and postcolonial governments constructed and perpetuated marginality in the region Part II focuses on addressing the issue of marginality from theory to practice These chapters highlight the ways policies shaped the educational development schooling processes and educational outcomes of selected marginalized communities and groups Attention is given to schooling in rural communities the complexities of girls education in rural contexts education of Zongo Muslim communities violence in school in rural contexts and education collaboration in rural traditional communities The book argues that education policies in sub Saharan Africa fail to address the educational needs of marginalized children because current policy frameworks are not based on examination of colonial policies which created the existing marginality In order to implement policies that address policy gaps and meet the educational needs of marginalized children strong synergies are necessary between education policy makers other education stakeholders and marginalized communities **Patriotism and Nationalism in Music Education** David G.

Hebert,Alexandra Kertz-Welzel,2016-05-13 Music has long served as an emblem of national identity in educational systems throughout the world Patriotic songs are commonly considered healthy and essential ingredients of the school curriculum nurturing the respect loyalty and good citizenship of students But to what extent have music educators critically examined the potential benefits and costs of nationalism Globalization in the contemporary world has revolutionized the nature of international relationships such that patriotism may merit rethinking as an objective for music education The fields of peace studies and education for international understanding may better reflect current values shared by the profession values that often conflict with the nationalistic impulse This is the first book to introduce an international dialogue on this important theme nations covered include Germany the USA South Africa Australia Finland Taiwan Singapore and Canada Urban Teacher Education and Teaching R.
