Socorro Saucer In A Pentagon Pantry:

Socorro "saucer" in a Pentagon Pantry Ray Stanford, 1976 **Encounter in the Desert** Kevin Randle, 2017-10-23

From a former army officer and author of UFOS and the Deep State a new examination of a UFO sighting in a New Mexican arroyo The UFO landing at Socorro has been wrapped in controversy almost from the moment that police officer Lonnie Zamora watched a craft descend and land Zamora saw alien beings near the craft and a symbol on its side but was told that he shouldn't mention either Encounter in the Desert reveals for the first time exactly what he saw in that arroyo in 1964 and what an examination of the landing revealed to investigators Socorro wasn't a stand alone case Other sightings some of them nearly as spectacular as Zamora's were reported at the time A study of the Air Force investigation of this case reveals an effort at first to learn the truth that mutated into a clever attempt to hide the information from the public Encounter in the Desert reveals all this and much more including The first new in depth look at the Zamora UFO landing in more than three decades Other reports of alien creatures sighted around the country at the same time An examination of the physical evidence found on the landing site The revelation that there were other witnesses to the craft and the landing **The UFO Hotspot Compendium** Craig Campobasso, 2022 This book details the latest facts behind legendary UFO cases and provides a guided tour of 35 of the most remarkable most visited UFO hotspots areas where aliens and cryptids have been spotted forbidden locations and terrifying places only the brave dare to visit The book also elucidates when and where events happened the story behind the occurrence and the succeeding investigations and things to do when visiting the site

Ancient Alien Ancestors Will Hart, 2017-07-18 Explores evidence for the theory of directed panspermia that life on Earth and the landscape of Earth itself was engineered by extraterrestrials Details how the Earth was terraformed through a sophisticated geo engineering program providing clear examples such as the precise mathematical longitude configurations of the Great Pyramid of Giza with the major rivers on Earth Shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Examines the strongest modern UFO accounts including the Russian Roswell case as well as the suppressed UFO sightings of NASA astronauts In the early 1970s Nobel Prize winning DNA co discoverer Sir Francis Crick and his colleague Leslie Orgel proposed that in the distant past an extraterrestrial race sent a spacecraft loaded with microorganisms to seed the Earth with life Now more than 40 years later the fields of space research and biotechnology have advanced to the point where they can back up Crick and Orgel's claims about our ancient alien ancestors Sharing scientific evidence of alien involvement with life on our planet and with the very landscape of Earth itself Will Hart refines the theory of directed panspermia that life was intentionally seeded on Earth by extraterrestrials to reveal that the same ET agency also created humans and generated civilization He shows how the Earth was terraformed through an engineering program so sophisticated and vast that it has escaped our attention so far for example the major rivers on Earth are precisely aligned through geo engineering with the Great Pyramid of Giza

Revealing the Great Pyramid as an alien message in stone the author explains how the Giza pyramids could not have been built by the ancient Egyptians and examines the extraterrestrial energy technologies used to move the pyramids massive stone blocks methods later rediscovered by Nikola Tesla and the builder of Coral Castle Edward Leedskalnin He details how an advanced race implanted the basic genome on Earth as well as genetically engineered the human race and shows how our spectrum of blood types supports the theory of panspermia while directly contradicting the conventional out of Africa theory of evolution Investigating how the extraterrestrial agency behind the origin of civilization is still working behind the scenes today the author examines the strongest modern UFO accounts including the Russian Roswell case and the suppressed UFO sightings of NASA astronauts He shows that this advanced ET civilization is not an alien race in the way we normally think of aliens they are our ancestors and as human as we are Walking Through Walls and Other Impossibilities Milton E Brener,2011-06-09 The goal of the aliens among us is not the study of Earth for purely academic purposes It is something more vital to the aliens and more portentous for us The picture that emerges from much research makes sense of several aspects of the alien presence previously quite puzzling They apparently are a dying race inhabiting a dying planet They have undoubtedly mastered physical forces and phenomena of which we have not even dreamed But it has come at a terrible cost Their emotional life has been all but lost existing only as a faint remnant from a long distant past They may pity our hopelessly primitive technology but they envy us our robust emotional life Like all living things everywhere they live for the perpetuation of their genes They do not hate us nor do they seek our destruction They seek to create a race of hybrids combining their scientifically superior minds with our rich emotional makeup The ridicule of the entire subject by the government and other forces fearful of upheaval in our society has aggravated the suffering of those chosen and victimized by the aliens who apparently seek ineptly sometimes to minimize it The author combines this scholarly approach with an almost folksy narrative style to make Walking Through Walls a very readable and approachable treatise on the phenomena as good as any book on the subject and far more skillfully written than most including those Brener has referenced most frequently Bud Hopkins Intruders and Philip Corso s The Day after Roswell Blue Ink Review **Greatest UFO Case File** EDITORIAL BOARD,2015-06-01 UFOs or Unidentified Flying Objects have long been a matter of great curiosity and interest for the human habitation on the Earth particularly from June 24 1947 when American pilot Kenneth Arnold reported sighting nine circular objects flying across his airplane s path in the skies over the state of Washington His description of their movements as being like e saucers skipping over the watere gave birth to the term flying saucer However objects shaped like cigars squares balls triangles rings and hats have also been reported to have been seen in almost every country of this huge and diverse Living Planet known as the Earth Basically these UFOs are amorphous and shape changing objects The book consists of an interesting list of UFO Encounters by various Air Force Personnels and Scientists across the globe their experiences detailed and exhaustive reports etc It also has an elaborate list of Alien Encounters and Alien Abductions It

further gives a detailed and vivid description of the various types of thrilling encounters with these strange Alien ships such as Close Encounters of the First Kind Ce1 Close Encounters of the Second Kind Ce2 Close Encounter of the Third Kind Ce3 Close Encounter of the Fourth Kind Ce4 and so on So friends this book will interest and captivate the minds of one and all irrespective of age sex religion profession and academic qualification although our target audience are the children particularly the school students

Montana UFOs and Extraterrestrials Joan Bird,2023-08-03 In 1950 two spinning disks flew over Great Falls Montana and were filmed on a hand held camera Today those flying saucers in the now famous Montana Movie still defy conventional explanation In the 1960s UFOs were reported at Minuteman missile silos in Montana In separate incidents while a UFO was overhead armed and ready nuclear missiles were suddenly deactivated as missile launch officers watched helplessly The U S Air Force ordered these men never to tell anyone what happened This book critically examines these and other UFO events in Montana including reported contact with extraterrestrials Drawing on recently declassified government documents historic reports and first hand interviews Ph D zoologist and author Joan Bird presents compelling evidence that UFOs are real have frequented Montana s Big Sky and have landed in the state This book also introduces readers to significant UFO incidents in the U S to official government investigations such as Project Blue Book and to major figures in the study of UFOs

Spaceships of the Pleiades Kal K. Korff,2010-08-05 The case of Eduard Billy Meier has gained worldwide attention for his claims of being in on going contact with aliens from the star cluster known as the Pleiades Purported to be the most documented UFO account of all time Meier s files consist of 1 000 photographs and 12 motion picture films of the visiting spacecraft Through thousands of pages of contact notes Meier claims to have passed on the wisdom and advanced technical knowledge from his conversations with these aliens designed to help guide our evolution In addition he alleges that 40 independent eyewitnesses have also seen the alien ships and observed Meier s contacts with them The aliens also left numerous landing tracks in the ground and gave Meier various rock metal mineral and crystal samples as proof of their visitations Author Kal Korff conducted the most thorough examination ever into the case of Billy Meier and all its alleged evidence and reveals here how a Swiss farmer hatched and continues to maintain the most elaborate UFO hoax in history

Spin Wave Technology George J. Bugh,2002 This is a book of informal research papers written by George J Bugh while investigating claims by many inventors and researchers who have built unusual electromagnetic devices said to produce anomalous energy output and even electrogravity effects Mr Bugh is a senior staff aerospace electronics engineer with over 20 years experience He spent the last 7 years studying these claims to determine if any could be valid and if so then to determine the source of the anomalous energy and the electrogravity effects According to classical electrodynamics all electrically charged particles like quarks and

electrons should radiate away energy from gyroscopic precessional motions and orbital motions Bugh has come to the conclusion that they really do However all particles are also absorbing just as much energy from all other radiating particles The continuously absorbed energy equals the radiated energy and applies forces that move similar type particles into harmonious precessional motions with each other This results in a sea of electromagnetic standing waves among all matter in the universe It is this sea of standing waves rather than quantum probability waves that best account for the wave like nature of matter Particles move to quantized states because of electromagnetic forces that keep particle motions synchronized with this sea of standing waves This is an interaction among all matter that Ernst Mach alluded to as necessary to cause matter's characteristic of inertia Einstein called this Mach's Principle Einstein studied Mach's ideas while developing his theory of General Relativity Using common sense and classical electrodynamics Bugh explains how these particle spin interactions are possible even among compensating spins Technology advancements are possible based on these particle spin interactions
