Sod Walls Roger L. Welsch, 1991 **Sod Walls** Roger L. Welsch, 1968 **Adobe Walls** T. Lindsay Baker, Billy R. Harrison, 1986-04-04 In the spring of 1874 a handful of men and one woman set out for the Texas Panhandle to seek their fortunes in the great buffalo hunt Moving south to follow the herds they intended to establish a trading post to serve the hunter or hide men At a place called Adobe Walls they dug blocks from the sod and built their center of operations After operating for only a few months the post was attacked one sultry June morning by angry members of several Plains Indian tribes whose physical and cultural survival depending on the great bison herd that were rapidly shrinking before the white men's guns Initially defeated that attacking Indians retreated But the defenders also retreated leaving the deserted post to be burned by Indians intent on erasing all traces of the white man's presence Nonetheless tracing did remain and in the ashes and dirt were buried minute details of the hide men's lives and the battle that so suddenly changed them A little more than a century later white men again dug into the sod at Adobe Walls The nineteenth century men dug for profits but the modern hunters were looking for the natural time capsule inadvertently left by those earlier adventurers The authors of this book a historian and an archeologist have dug into the sod and into far flung archives to sift reality from the long romanticized story of Adobe Walls its residents and the Indians who so fiercely resented their presence The full story of Adobe Walls now tells us much about the life and work of the hide men about the dying of the Plains Indian culture and about the march of white commerce across the frontier *Structural, Heat-transfer, and Water-permeability Properties of Five Earth-wall Constructions*, 1941 **Sod Busting** David B. Danbom, 2021-04-27 An excellent introduction to the challenges and opportunities of agricultural life in a difficult region for farming elegantly written Jeff Bremer The Annals of Iowa Prairie busting is central to the lore of westward expansion but how was it actually accomplished with little more than animal and human power In Sod Busting David B Danbom challenges students to think about the many practicalities of surviving on the Great Plains in the late nineteenth century by providing a detailed account of how settlers acquired land and made homes farms and communities He examines the physical and climatic obstacles of the plains perhaps America's most inhospitable frontier and shows how settlers sheltered themselves gained access to fuel and water and broke the land for agriculture Treating the Great Plains as a post industrial frontier Danbom delves into the economic motivations of settlers how they got the capital they needed to succeed and how they used the labor of the entire family to survive until farms returned profits He examines closely the business decisions that determined the success or failure of these farmers in a boom and bust economy details the creation of churches schools and service centers that enriched the social and material lives of the settlers and shows how the support of government railroads and other businesses contributed to the success of plains settlement Based on contemporary accounts settlers reminiscences and the work of other historians Sod Busting dives deeply into the practical realities of how things worked to make vivid one of the quintessentially American experiences breaking new land A cogent

and engaging portrait of the real lives of those who settled the Great Plains Nebraska History *Golf Course Design* Robert Muir Graves, Geoffrey S. Cornish, 1998-07-23 When it comes to golf course design Robert Muir Graves and Geoffrey S Cornish are true masters Over the past few decades they have produced every type of course imaginable long and short entry level and upscale courses built on ocean bluffs and swamps courses located in the United States and around the world Now drawing on this vast experience and their popular golf course design seminars held at the Harvard Graduate School of Design and nationwide for the Golf Course Superintendents Association of America Graves and Cornish share a wealth of expertise on all aspects of design and construction in this outstanding book *Golf Course Design* covers all of the major historic aesthetic business and technical issues of the subject from course layout hole design drainage irrigation and turf grass selection to planning financing construction and environmental considerations **Building Materials and Structures Report**, 1940 The Overland Monthly, 1894 Daily Life on the Nineteenth Century American Frontier Mary Ellen Jones, 1998-11-24 The nineteenth century American frontier comes alive for students and interested readers in this unique exploration of westward expansion This study examines the daily lives of ordinary men and women who flooded into the Trans Mississippi West in search of land fortune a fresh start and a new identity Their daily life was rarely easy If they were to survive they had to adapt to the land and modify every aspect of their lives from housing to transportation from education to defense from food gathering and preparation to the establishment of rudimentary laws and social structures They also had to adapt to the Native Americans already on the land whether through acculturation warfare or coexistence Jones provides insight into the experiences that affected the daily lives of the diverse people who inhabited the American frontier the Native Americans trappers explorers ranchers homesteaders soldiers and townspeople This fascinating book gives a sense of the extraordinary ordinariness of surviving prospering failing and dying in a new land and explores how these westering Americans inevitably displaced those already bound to the land by tradition culture and religion A wealth of illustrations complement the text of this easy to use reference The Greenwood Encyclopedia of Daily Life in America Randall M. Miller, 2008-12-30 The course of daily life in the United States has been a product of tradition environment and circumstance How did the Civil War alter the lives of women both white and black left alone on southern farms How did the Great Depression change the lives of working class families in eastern cities How did the discovery of gold in California transform the lives of native American Hispanic and white communities in western territories Organized by time period as spelled out in the National Standards for U S History these four volumes effectively analyze the diverse whole of American experience examining the domestic economic intellectual material political recreational and religious life of the American people between 1763 and 2005 Working under the editorial direction of general editor Randall M Miller professor of history at St Joseph s University a group of expert volume editors carefully integrate material drawn from volumes in Greenwood s highly successful *Daily Life Through History* series with new material researched and written by themselves and other
