Sodomy In Reformation Germany And Switzerland 1400 16:

Sodomy in Reformation Germany and Switzerland, 1400-1600 Helmut Puff,2003-06 During the late Middle Ages a considerable number of men in Germany and Switzerland were executed for committing sodomy Even in the seventeenth century simply speaking of the act was cause for censorship Here in the first history of sodomy in these countries Helmut Puff argues that accusations of sodomy during this era were actually crucial to the success of the Protestant Reformation Drawing on both literary and historical evidence Puff shows that speakers of German associated sodomy with Italy and increasingly Catholicism As the Reformation gained momentum the formerly unspeakable crime of sodomy gained a voice as Martin Luther and others deployed accusations of sodomy to discredit the upper ranks of the Church and to create a sense of community among Protestant believers During the sixteenth century reactions against this defamatory rhetoric and fear that mere mention of sodomy would incite sinful acts combined to repress even court cases of sodomy Written with precision and meticulously researched this revealing study will interest historians of gender sexuality and religion as well as scholars of medieval and early modern history and culture

From Priest's Whore to Pastor's Wife Dr Marjorie Elizabeth Plummer,2013-07-28 On 13 June 1525 Martin Luther married Katharina von Bora a former nun in a private ceremony officiated by city preacher Johann Bugenhagen Whilst Luther was not the first former monk or Reformer to marry his marriage immediately became one of the iconic episodes of the Protestant Reformation From that point on the marital status of clergy would be a pivotal dividing line between the Catholic and Protestant churches Tackling the early stages of this divide this book provides a fresh assessment of clerical marriage in the first half of the sixteenth century when the debates were undecided and the intellectual and institutional situation remained fluid and changeable It investigates the way

that clerical marriage was received and viewed in the dioceses of Mainz and Magdeburg under Archbishop Albrecht of Brandenburg from 1513 to 1545 By concentrating on a cross section of rural and urban settings from three key regions within this territory Saxony Franconia and Swabia the study is able to present a broad comparison of reactions to this contentious issue Although the marital status of the clergy remains perhaps the most identifiable difference between Protestant and Roman Catholic churches remarkably little research has been done on how the shift from a celibate to a married clergy took place during the Reformation in Germany or what reactions such a move elicited As such this book will be welcomed by all those wishing to gain greater insight not only into the theological debates but also into the interactions between social identity governance and religious practice

Gay Berlin Robert Beachy, 2014-11-18 An unprecedented examination of the ways in which the uninhibited urban sexuality sexual experimentation and medical advances of pre Weimar Berlin created and molded our modern understanding of sexual orientation and gay identity Known already in the 1850s for the friendly company of its warm brothers German slang for men who love other men Berlin before the turn of the twentieth century became a place where scholars activists and medical professionals could explore and begin to educate both themselves and Europe about new and emerging sexual identities From Karl Heinrich Ulrichs a German activist described by some as the first openly gay man to the world of Berlin's vast homosexual subcultures to a major sex scandal that enraptured the daily newspapers and shook the court of Emperor William II and on through some of the very first sex reassignment surgeries Robert Beachy uncovers the long forgotten events and characters that continue to shape and influence the way we think of sexuality today Chapter by chapter Beachy's scholarship illuminates forgotten firsts including the life and work of Dr Magnus Hirschfeld first to claim in 1896 that same sex desire is an immutable biologically determined characteristic and founder of the Institute for Sexual Science Though raided and closed down by the Nazis in 1933 the institute served as among other things a veritable incubator for the science of trans sexuality scene of one of the world's first sex reassignment surgeries Fascinating surprising and informative Gay Berlin is certain to be counted as a foundational cultural examination of human sexuality

Between Text and Tradition Pieter De Leemans, Maarten J.F.M. Hoenen, 2016-06-29 New insights into Pietro d'Abano's unique approach to translations The commentary of Pietro d'Abano on Bartholomew's Latin translation of Pseudo Aristotle's *Problemata Physica* published in 1310 constitutes an important historical source for the investigation of the complex relationship between text translation and commentary in a non-curricular part of the *corpus Aristotelicum* As the eight articles in this volume show the study of Pietro's commentary not only provides valuable insights into the manner in which a commentator deals with the problems of a translated text but will also bring to light the idiosyncrasy of Pietro's approach in comparison to his contemporaries and successors the particularities of his commentary in light of the habitual
