Solitude and Privacy Paul Halmos, 1998 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company

Solitude and Privacy Paul Halmos, 2013-07-04 First Published in 1998 This is Volume IV of eighteen in the Sociology of Behaviour and Psychology series This is a study of social isolation plus its causes Written in 1952 rather than just ask what is wrong with the state of the world today Dr Halmos turns to scientific analysis constructive criticism and positive suggestion as he passes from study of basic social forces through historical and empirical investigations to the practical problems of reform and therapy He has penetrated below the facile generalisations of common experience by distinguishing between neurotic types the anxious the depressed and the hysterical and studying the different ways in which each is related to social isolation or participation

Social Isolation of Older Adults Lenard W. Kaye, Cliff Singer, 2018-12-17 Critical strategies for confronting a dire yet under addressed societal epidemic the risky and potentially deadly consequences for older adults living a socially isolated life are the focus for this book By documenting our current understanding of the complex and multi dimensional nature of social isolation among elders the authors highlight innovative and alternative forms of community and later life relationships that can serve to forestall or prevent social isolation and loneliness With contributions from recognized scholars clinicians and elder policy activists as well as from multiple practice perspectives direct service providers administrators researchers and educators the book documents the interrelated issues of social relationships and health in late life It describes creative programs and intervention techniques that help maintain the integrity of an older adult's individual group and community relations communication pathways and a sense of belonging The book also illuminates multidisciplinary and integrated best practices for minimizing the risk of late life social isolation Case studies showcase the issues that arise in clinical practice and service delivery and demonstrate proven methods for effectively addressing them

Key Features Delivers best practice strategies and interventions for bolstering older adult social health and community engagement Written by top scholars in the gerontology community Explores the life threatening risks and consequences of social isolation for older adults and their families Describes the wide range of social relationships that can determine the extent to which older adults will be at risk of becoming socially isolated Considers the role that older adult diversity and difference plays in determining quality of life and the integrity of relationships Highlights physical behavioral environmental social and economic forces that can influence the quality of late life relationships

New Insights into Social Isolation and Loneliness, volume II Yuka Kotozaki, Lené Levy-Storms, 2025-09-25 Social isolation is generally recognized as a major public health problem and is widely recognized to have detrimental consequences for people's health including reduced mental health increased risk of disease e.g hypertension cardiovascular disease cancer mortality and cognitive decline It is widely recognized that social isolation is a major cause of death Combined with the recent COVID 19 and other changes in social conditions social isolation and loneliness are becoming an increasing concern Social isolation can occur

regardless of gender or age and the occurrence process and related factors warrant further investigation The first objective of this Research Topic is to increase our understanding of social isolation and loneliness For example studies examining the process of social isolation and loneliness and related factors surveys of actual conditions related to social isolation and loneliness and studies examining the impact of past stressful experiences such as disasters on subsequent social isolation and loneliness are particularly welcome

Technological innovations to address social isolation and loneliness in older adults
Sue Ellen Levkoff, Marcia G. Ory, Hongtu Chen, Helianthe Kort, 2022-12-22

Modernizing Solitude Yoshiaki Furui, 2019-02-05 An innovative and timely examination of the concept of solitude in nineteenth century American literature During the nineteenth century the United States saw radical developments in media and communication that reshaped concepts of spatiality and temporality As the telegraph the postal system and public transportation became commonplace the country achieved a level of connectedness that was never possible before At this level physical isolation no longer equaled psychological separation from the exterior world and as communication networks proliferated being disconnected took on negative cultural connotations Though solitude and the lack thereof is a pressing concern in today's culture of omnipresent digital connectivity Yoshiaki Furui shows that solitude has been a significant preoccupation since the nineteenth century The obsession over solitude is evidenced by many writers of the period with consequences for many basic notions of creativity art and personal and spiritual fulfillment In *Modernizing Solitude: The Networked Individual in Nineteenth Century American Literature* Furui examines among other works Henry David Thoreau's *Walden* Harriet Jacobs's *Incidents in the Life of a Slave Girl* Herman Melville's *Bartleby the Scrivener* Emily Dickinson's poetry and letters and telegraphic literature in the 1870s to identify the virtues and values these writers bestowed upon solitude in a time and place where it was being consistently threatened or devalued Although each writer has a unique way of addressing the theme they all aim to reclaim solitude as a positive productive state of being that is essential to the writing process and personal identity Employing a cross disciplinary approach to understand modern solitude and the resulting literature Furui seeks to historicize solitude by anchoring literary works in this revolutionary yet interim period of American communication history while also applying theoretical insights into the literary analysis

Social Isolation and Loneliness in Older Adults National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Health and Medicine Division, Board on Behavioral, Cognitive, and Sensory Sciences, Board on Health Sciences Policy, Committee on the Health and Medical Dimensions of Social Isolation and Loneliness in Older Adults, 2020-05-14 Social isolation and loneliness are serious yet underappreciated public health risks that affect a significant portion of the older adult population Approximately one quarter of community dwelling Americans aged 65 and older are considered to be socially isolated and a significant proportion of adults in the United States report feeling lonely People who are 50 years of age or older are more likely to experience many of the risk factors that can cause or exacerbate social isolation or loneliness such as living alone the loss of family or friends chronic illness and sensory

impairments Over a life course social isolation and loneliness may be episodic or chronic depending upon an individual's circumstances and perceptions A substantial body of evidence demonstrates that social isolation presents a major risk for premature mortality comparable to other risk factors such as high blood pressure smoking or obesity As older adults are particularly high volume and high frequency users of the health care system there is an opportunity for health care professionals to identify prevent and mitigate the adverse health impacts of social isolation and loneliness in older adults Social Isolation and Loneliness in Older Adults summarizes the evidence base and explores how social isolation and loneliness affect health and quality of life in adults aged 50 and older particularly among low income underserved and vulnerable populations This report makes recommendations specifically for clinical settings of health care to identify those who suffer the resultant negative health impacts of social isolation and loneliness and target interventions to improve their social conditions Social Isolation and Loneliness in Older Adults considers clinical tools and methodologies better education and training for the health care workforce and dissemination and implementation that will be important for translating research into practice especially as the evidence base for effective interventions continues to flourish
