## **Soviet Multinational State:**

*The Soviet Multinational State* Martha Brill Olcott, Lubomyr Hajda, Anthony Olcott, 2019-07-26 The Soviet Union is a multinational state with about half of the country's population being ethnically Russian. The advent of glasnost and moves toward democratization and decentralization has unleashed the expression of national sentiments and interests in the USSR. This collection of Soviet materials surveys the many ramifications of the nationality question in the USSR in the 1980s. The topics covered include ideology, state organization, party recruitment, inter-republican economic relations, demographic factors, education, bilingualism, cultural institutions, religious traditions, military service, and disputes over republican prerogatives in the Baltic and over territory, the case of Nagorno Karabakh. Each topical section includes a detailed introduction by the editor. This anthology provides coverage of the past decade up to and including the current unrest and the impact of the Gorbachev reforms. **The ethnic stability of the Soviet multinational state** Alexander J. *Reports and Documents* United States. Congress, The Essential Speeches of the Cold War Sean Brennan, 2024-09-24 This book is a primary source collection of 30 speeches of the Cold War from 1917 to 1991 representing a cross section of leaders on all sides of the conflict from North America, the Caribbean, Europe, and Asia. As ideological conflict between superpowers returns to the world, it is more essential than ever to understand the superpower conflict which dominated the second half of the previous century. The Cold War was fought with rhetoric and propaganda as much as economic or military strength. The Essential Speeches of the Cold War explores all stages of the Cold War from its origins after the Russian Revolution to its conclusion with the collapse of the Soviet Union seven decades later, offering a clear understanding of its history and turning points as told through its public diplomacy. Each speech has a historical introduction written by the author as well as extensive historical footnotes discussing its significance and historical context. This useful guide to how the rhetoric used during the Cold War helped shape our modern world will be a valuable resource for undergraduate and graduate scholars of the conflict as well as for students of modern political rhetoric in international relations. **Soviet and Post-Soviet Identities** Mark Bassin, Catriona Kelly, 2012-04-26 A fresh look at post-Soviet Russia and Eurasia and at the Soviet historical background that shaped the present. *Immigrants and Nationalists* Gershon Shafir, 1995-10-06 In this empirical and theoretical study of nationalism, ethnicity, and immigration, the author compares the reception of large numbers of immigrants in Catalonia, the Basque country, Latvia, and Estonia, developed regions that possess distinct cultures and nationalist movements. *Tribal Nation* Adrienne Lynn Edgar, 2006-09-25 On October 27, 1991, the Turkmen Soviet Socialist Republic declared its independence from the Soviet Union. Hammer and sickle gave way to a flag, a national anthem, and new holidays. Seven decades earlier, Turkmenistan had been a stateless conglomeration of tribes. What brought about this remarkable transformation? *Tribal Nation* addresses this question by examining the Soviet effort in the

1920s and 1930s to create a modern socialist nation in the Central Asian Republic of Turkmenistan Adrienne Edgar argues that the recent focus on the Soviet state as a maker of nations overlooks another vital factor in Turkmen nationhood the complex interaction between Soviet policies and indigenous notions of identity In particular the genealogical ideas that defined premodern Turkmen identity were reshaped by Soviet territorial and linguistic ideas of nationhood The Soviet desire to construct socialist modernity in Turkmenistan conflicted with Moscow s policy of promoting nationhood since many Turkmen viewed their backward customs as central to Turkmen identity Tribal Nation is the first book in any Western language on Soviet Turkmenistan the first to use both archival and indigenous language sources to analyze Soviet nation making in Central Asia and among the few works to examine the Soviet multinational state from a non Russian perspective By investigating Soviet nation making in one of the most poorly understood regions of the Soviet Union it also sheds light on broader questions about nationalism and colonialism in the twentieth century Studies in Communist Affairs United States. Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards the era was dominated by political violence and chronic instability Its symbols were Verdun Guernica and Auschwitz By the end of this dark period tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized If the nineteenth century gave Europeans cause to regard the future with a sense of optimism the early twentieth century had them anticipating the destruction of civilization The fact that so many revolutions regime changes dictatorships mass killings and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis The Oxford Handbook of European History 1914 1945 reconsiders the most significant features of this calamitous age from a transnational perspective It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional continental and global developments Readers will find innovative and stimulating chapters on various political social and economic subjects by some of the leading scholars working on modern European history today Daily Report, Foreign Radio Broadcasts United States.
